THE FUTURE HAS ARRIVED

Amid the surging tide of urbanization today, the urban territory continues to expand, like a vibrant and lush forest that constantly extends its boundaries, with vitality and opportunities blooming like blooming flowers. Urban entrances and exits, as key nodes for the interaction between the city and the outside world, not only shoulder the responsibility of being the "face of the city", showcasing the city's appearance and heritage to the people coming and going, but also act like the "veins" of the city, carrying the flow of people, materials and information, which is crucial for the normal operation of the city.

COMPANY PROFILE

Shenzhen Showeishen Technology Co., Ltd. was established in 2012. It is a national high-tech enterprise integrating the research and development, production, sales and service of solutions for entrances and exits of people and vehicles.

The company is located in Shenzhen, Guangdong Province, with a factory covering an area of over ten thousand square meters and more than 30 professional researchers. It has served over 5,000,000 global customers and is a well-known brand enterprise in China. It has obtained the certificates of National High-tech Enterprise, National Specialized, Refined, Unique and Innovative Enterprise, and National AAA-level Quality Service Unit. It has been selected as one of the top ten security brands in China and holds over 200 technical patents.

The company's products mainly include: intelligent parking lot management system, intelligent access control management system, digital management system for the entry and exit of people and vehicles in smart camps, smart park management system, and scenic area ticketing system. The hardware equipment includes: license plate recognition, intelligent barrier gates, facial recognition, pedestrian passage gates, suspended gates, section sliding gates, folding gates, telescopic gates, bollards, barrier gates, guard booths and other products. The products are widely used in shopping malls, villas, residential areas, factories, parking lots, airports, toll stations, schools, office parks and other places.

We have advanced products and equipment, to provide high-quality products safer products and OEM, ODM services, committed to the development of new products to meet the different requirements of different customers, it is with advanced technology, quality products, good service, won the praise of customers; As a license plate recognition technology, face recognition technology, parking lot management system research and development and production manufacturers, we have been taking technology as the fundamental, quality as life, customer satisfaction as the criterion to serve thousands of customers wholeheartedly.

Production capacity :

The production center has over 200 production staff. The production is divided into four major workshops: license plate recognition workshop, intelligent barrier gate workshop, industrial gate assembly workshop and automated processing center. The average monthly output exceeds 8,000 sets, demonstrating strong production capacity. The enterprise has its own R&D team and continuously invests a large amount of resources in technological innovation. It has mastered advanced license plate recognition algorithms, with recognition accuracy far exceeding the industry average. It can quickly and accurately recognize various license plates and adapt to complex environments such as different lighting and weather conditions. By adopting the ERP production management system, through the design and production process, errors are minimized to the lowest extent, thereby achieving high quality, high efficiency, low cost, short cycle and maximizing profits.

License plate recognition production workshop

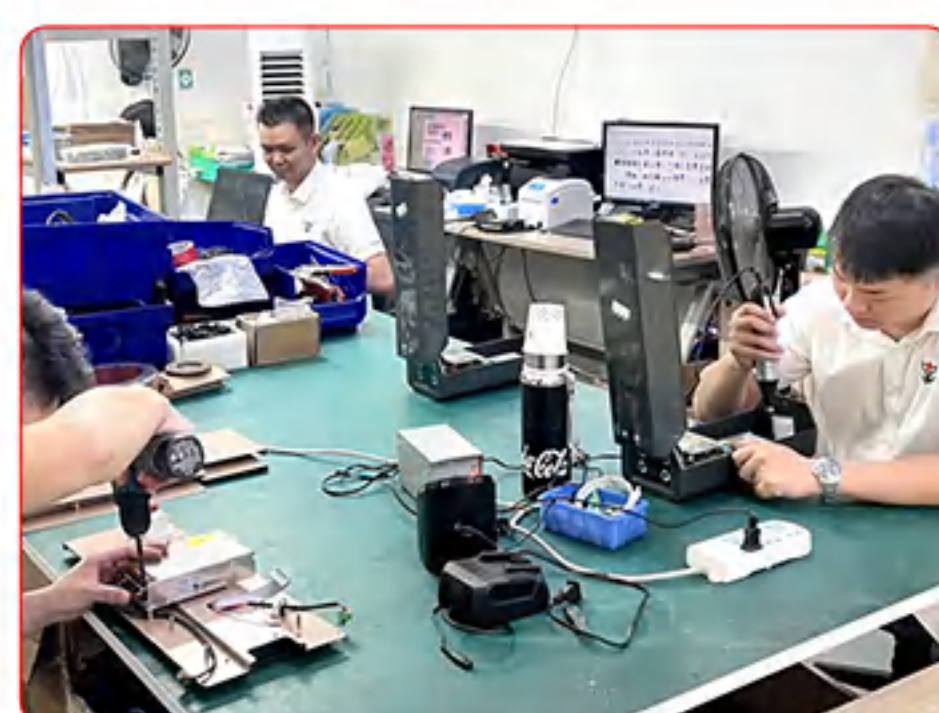

Intelligent barrier gate production workshop

Industrial gate production workshop

CNC cutting and stamping workshop

Core components Processing workshop

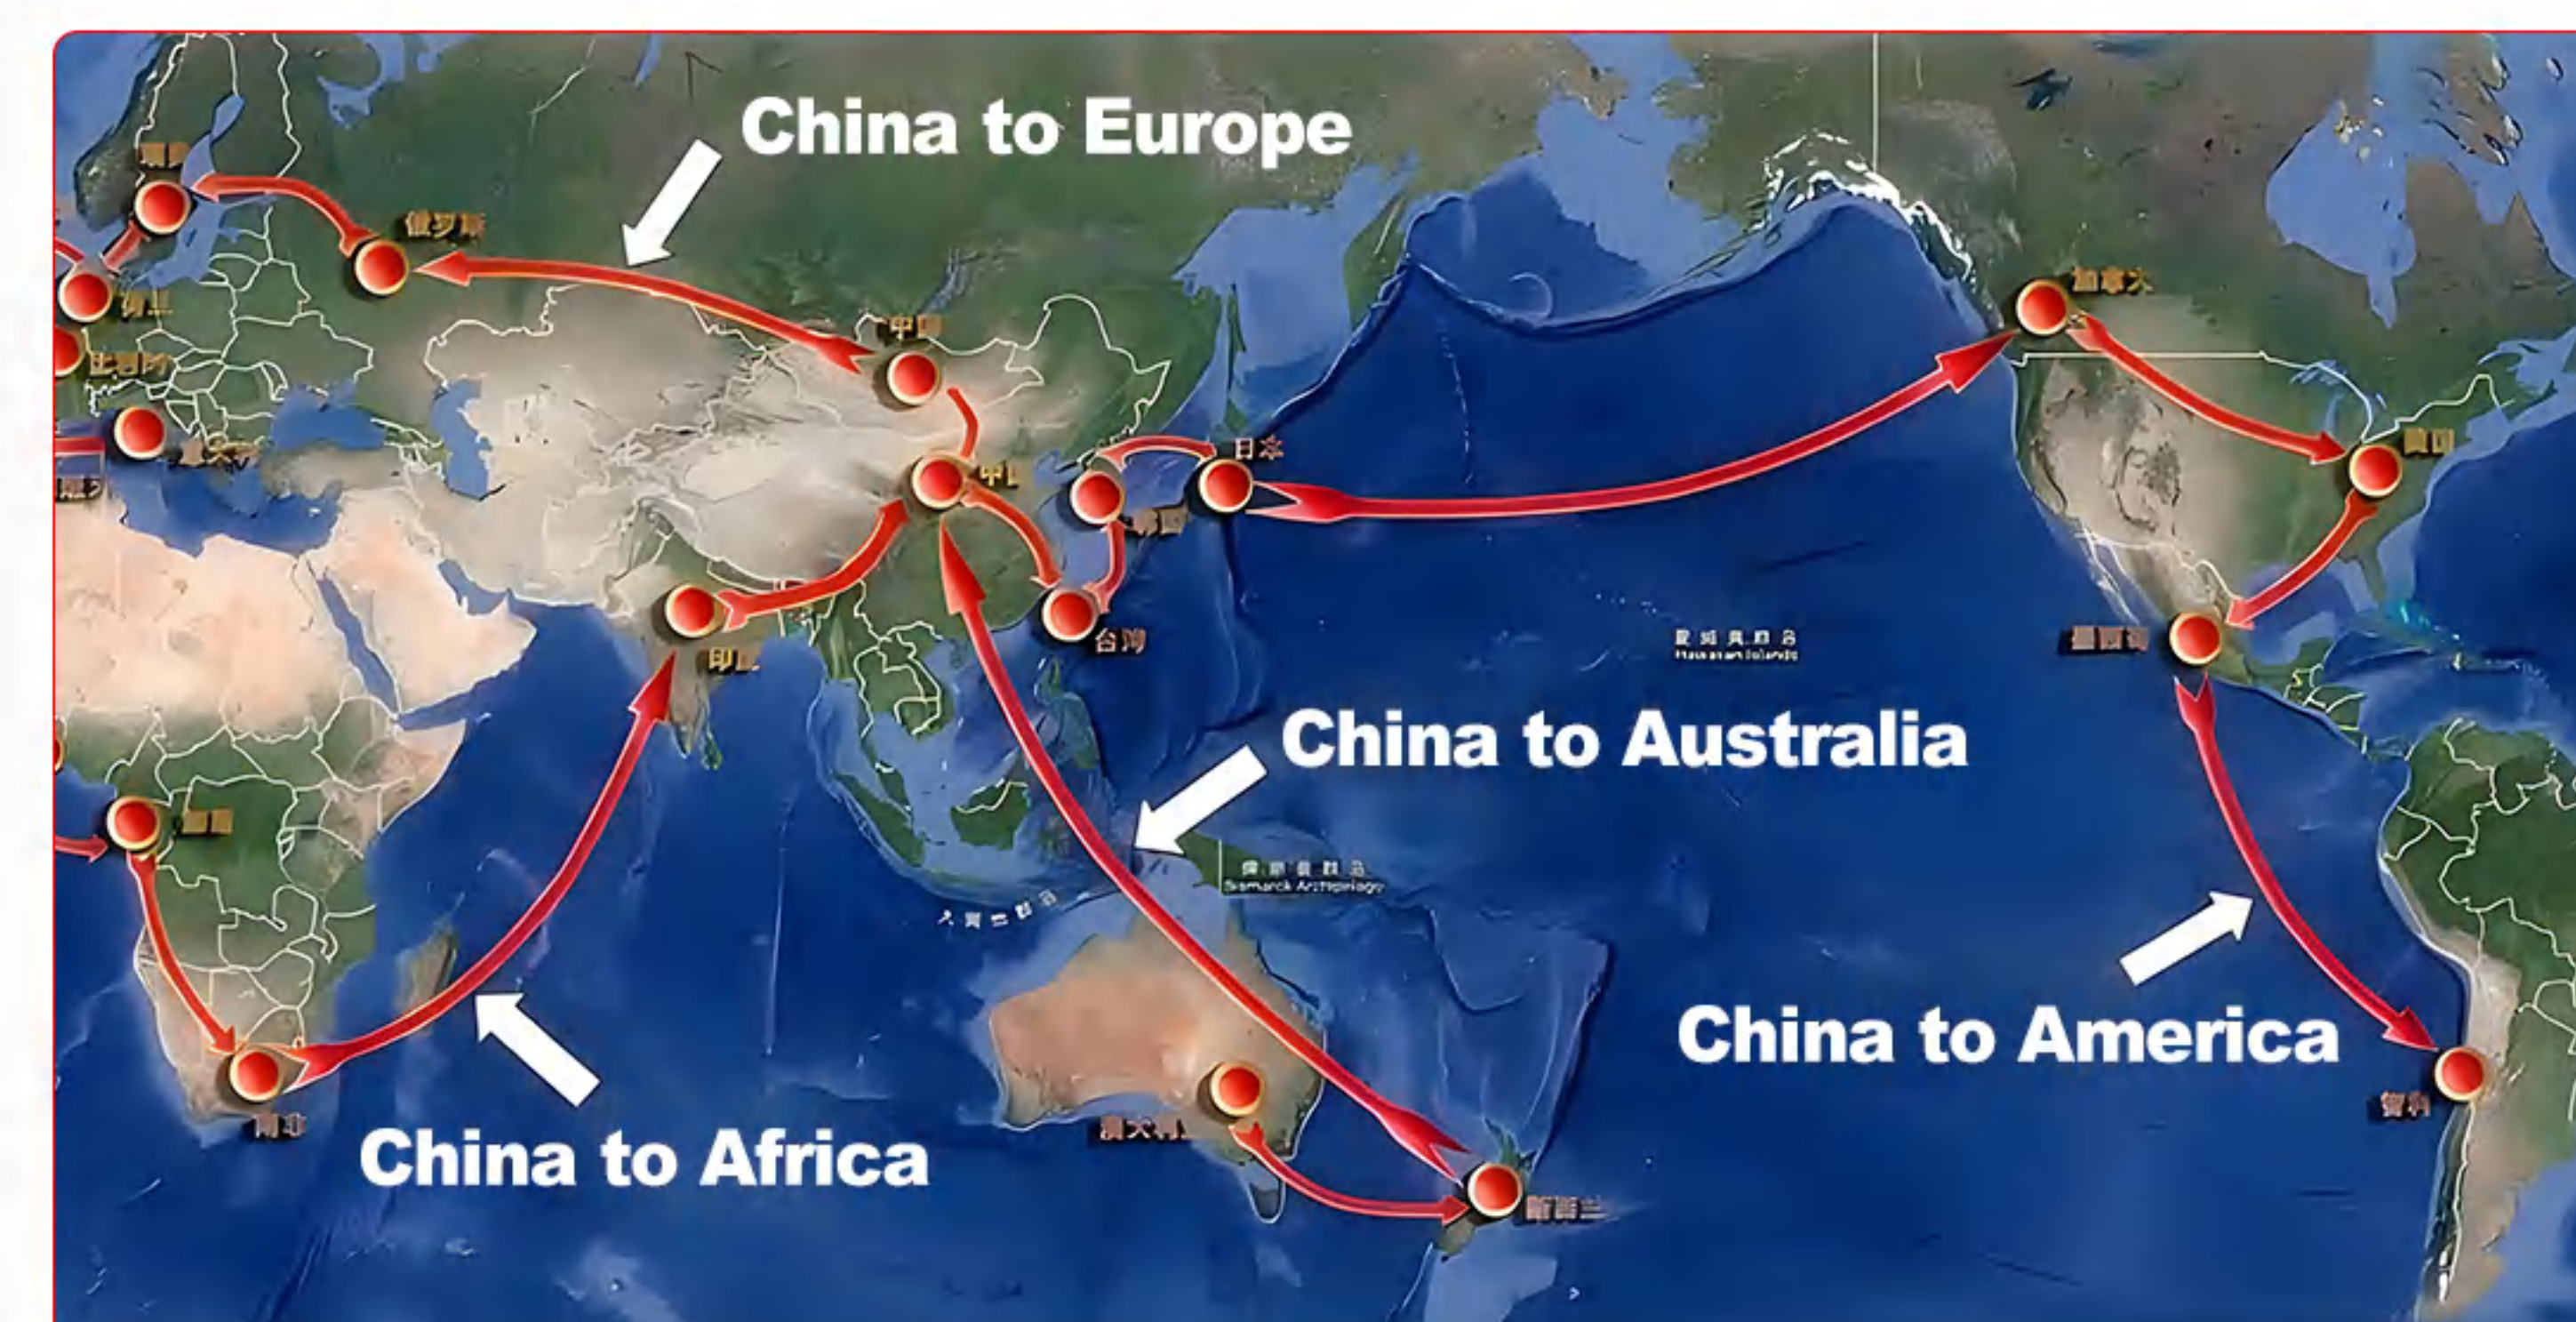

Large-scale storage workshop

In terms of production, we are equipped with internationally leading automated production facilities and have established a strictly standardized production process. From raw material procurement to finished product delivery, every link undergoes meticulous control and multiple quality inspections to ensure that each product is of outstanding quality and stable performance.

After-sales strength :

Shenzhen Shouweishen Technology Co., LTD. is like a pioneer in the business field, with a sales network spanning five continents and four oceans. From the bustling financial centers of Europe and America, to the booming emerging markets in Asia, and then to the boundless potential of the African continent, products and services shine like brilliant stars in every corner of the world. We have established branches and sales bases in many countries and regions around the world, directly reaching customers in various places, truly achieving seamless connection of global business and demonstrating an unparalleled global layout capability.

In terms of after-sales response speed, we promise to provide feedback to customers in the first instance. A 7×24-hour all-weather after-sales hotline and online customer service platform have been established. Every inquiry and every repair report from customers can be accepted in an extremely short time. The enterprise has established a vast and comprehensive after-sales service network. Whether customers are in bustling cities or remote areas, they can conveniently enjoy our high-quality after-sales service. By leveraging an advanced logistics distribution system and information management system, each network point works collaboratively to achieve rapid allocation of spare parts and timely delivery of services. This ensures that after-sales support across the country has no blind spots and is uninterrupted, providing customers with a consistently high-quality after-sales experience.

Cloud Management Platform - Smart Big Data :

The operation and management platform mainly provides an integrated service platform for centralized operation and management of parking lots through "Internet of Things + cloud technology + cloud payment + big data + artificial intelligence". It not only reduces the management and operation costs of parking lots and increases the income of operators, but also provides car owners with a smarter and more convenient travel experience.

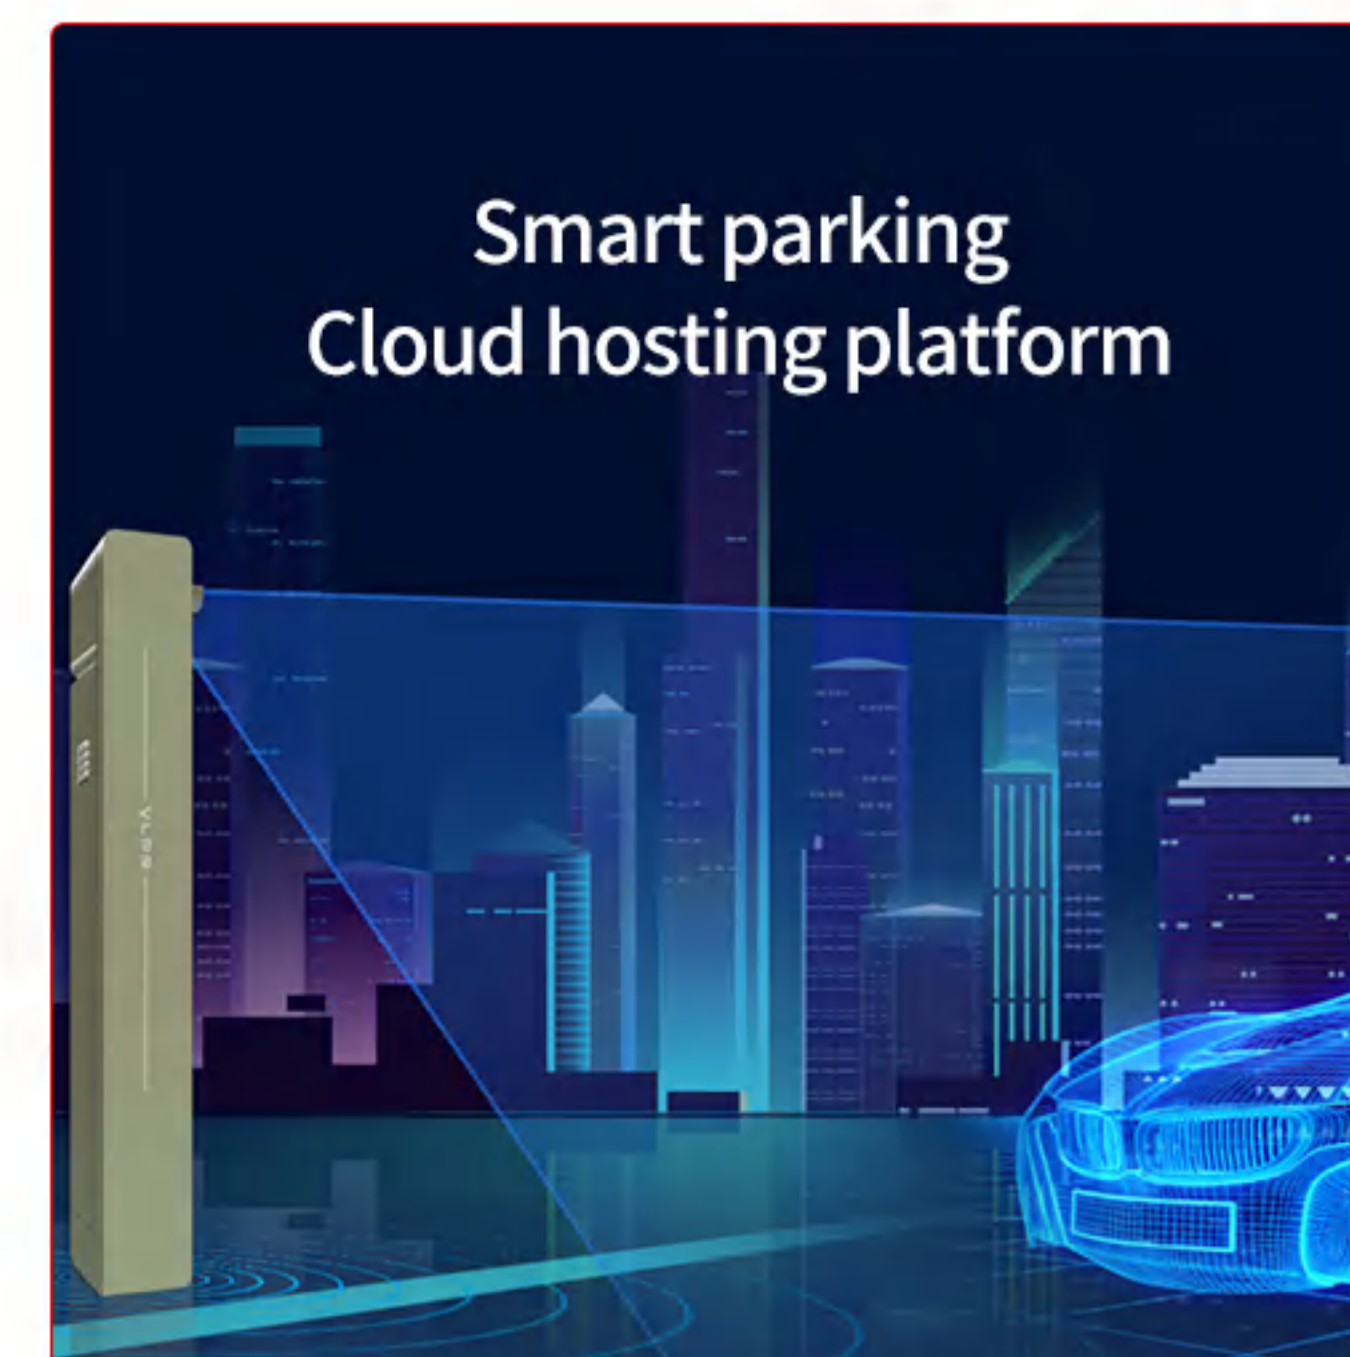

The cloud seat center is an online service that centrally manages multiple parking lots through the Internet, providing real-time monitoring of the lane environment and a comprehensive understanding of the lane operation status. We offer professional big data support and connection services to meet the application requirements of data from third-party platforms, including government traffic police departments, public security departments, smart property management platforms, new energy charging platforms, banks, Alipay, wechat, etc., to achieve data interconnection and interoperability, and empower third-party platforms. It can generate multi-level detailed reports such as operation reports, financial reports, abnormal gate opening reports, personnel management reports, and records of unlicensed vehicles' presence, making the centralized management of parking lot data more convenient.

Owner Management · i Stop Manager :

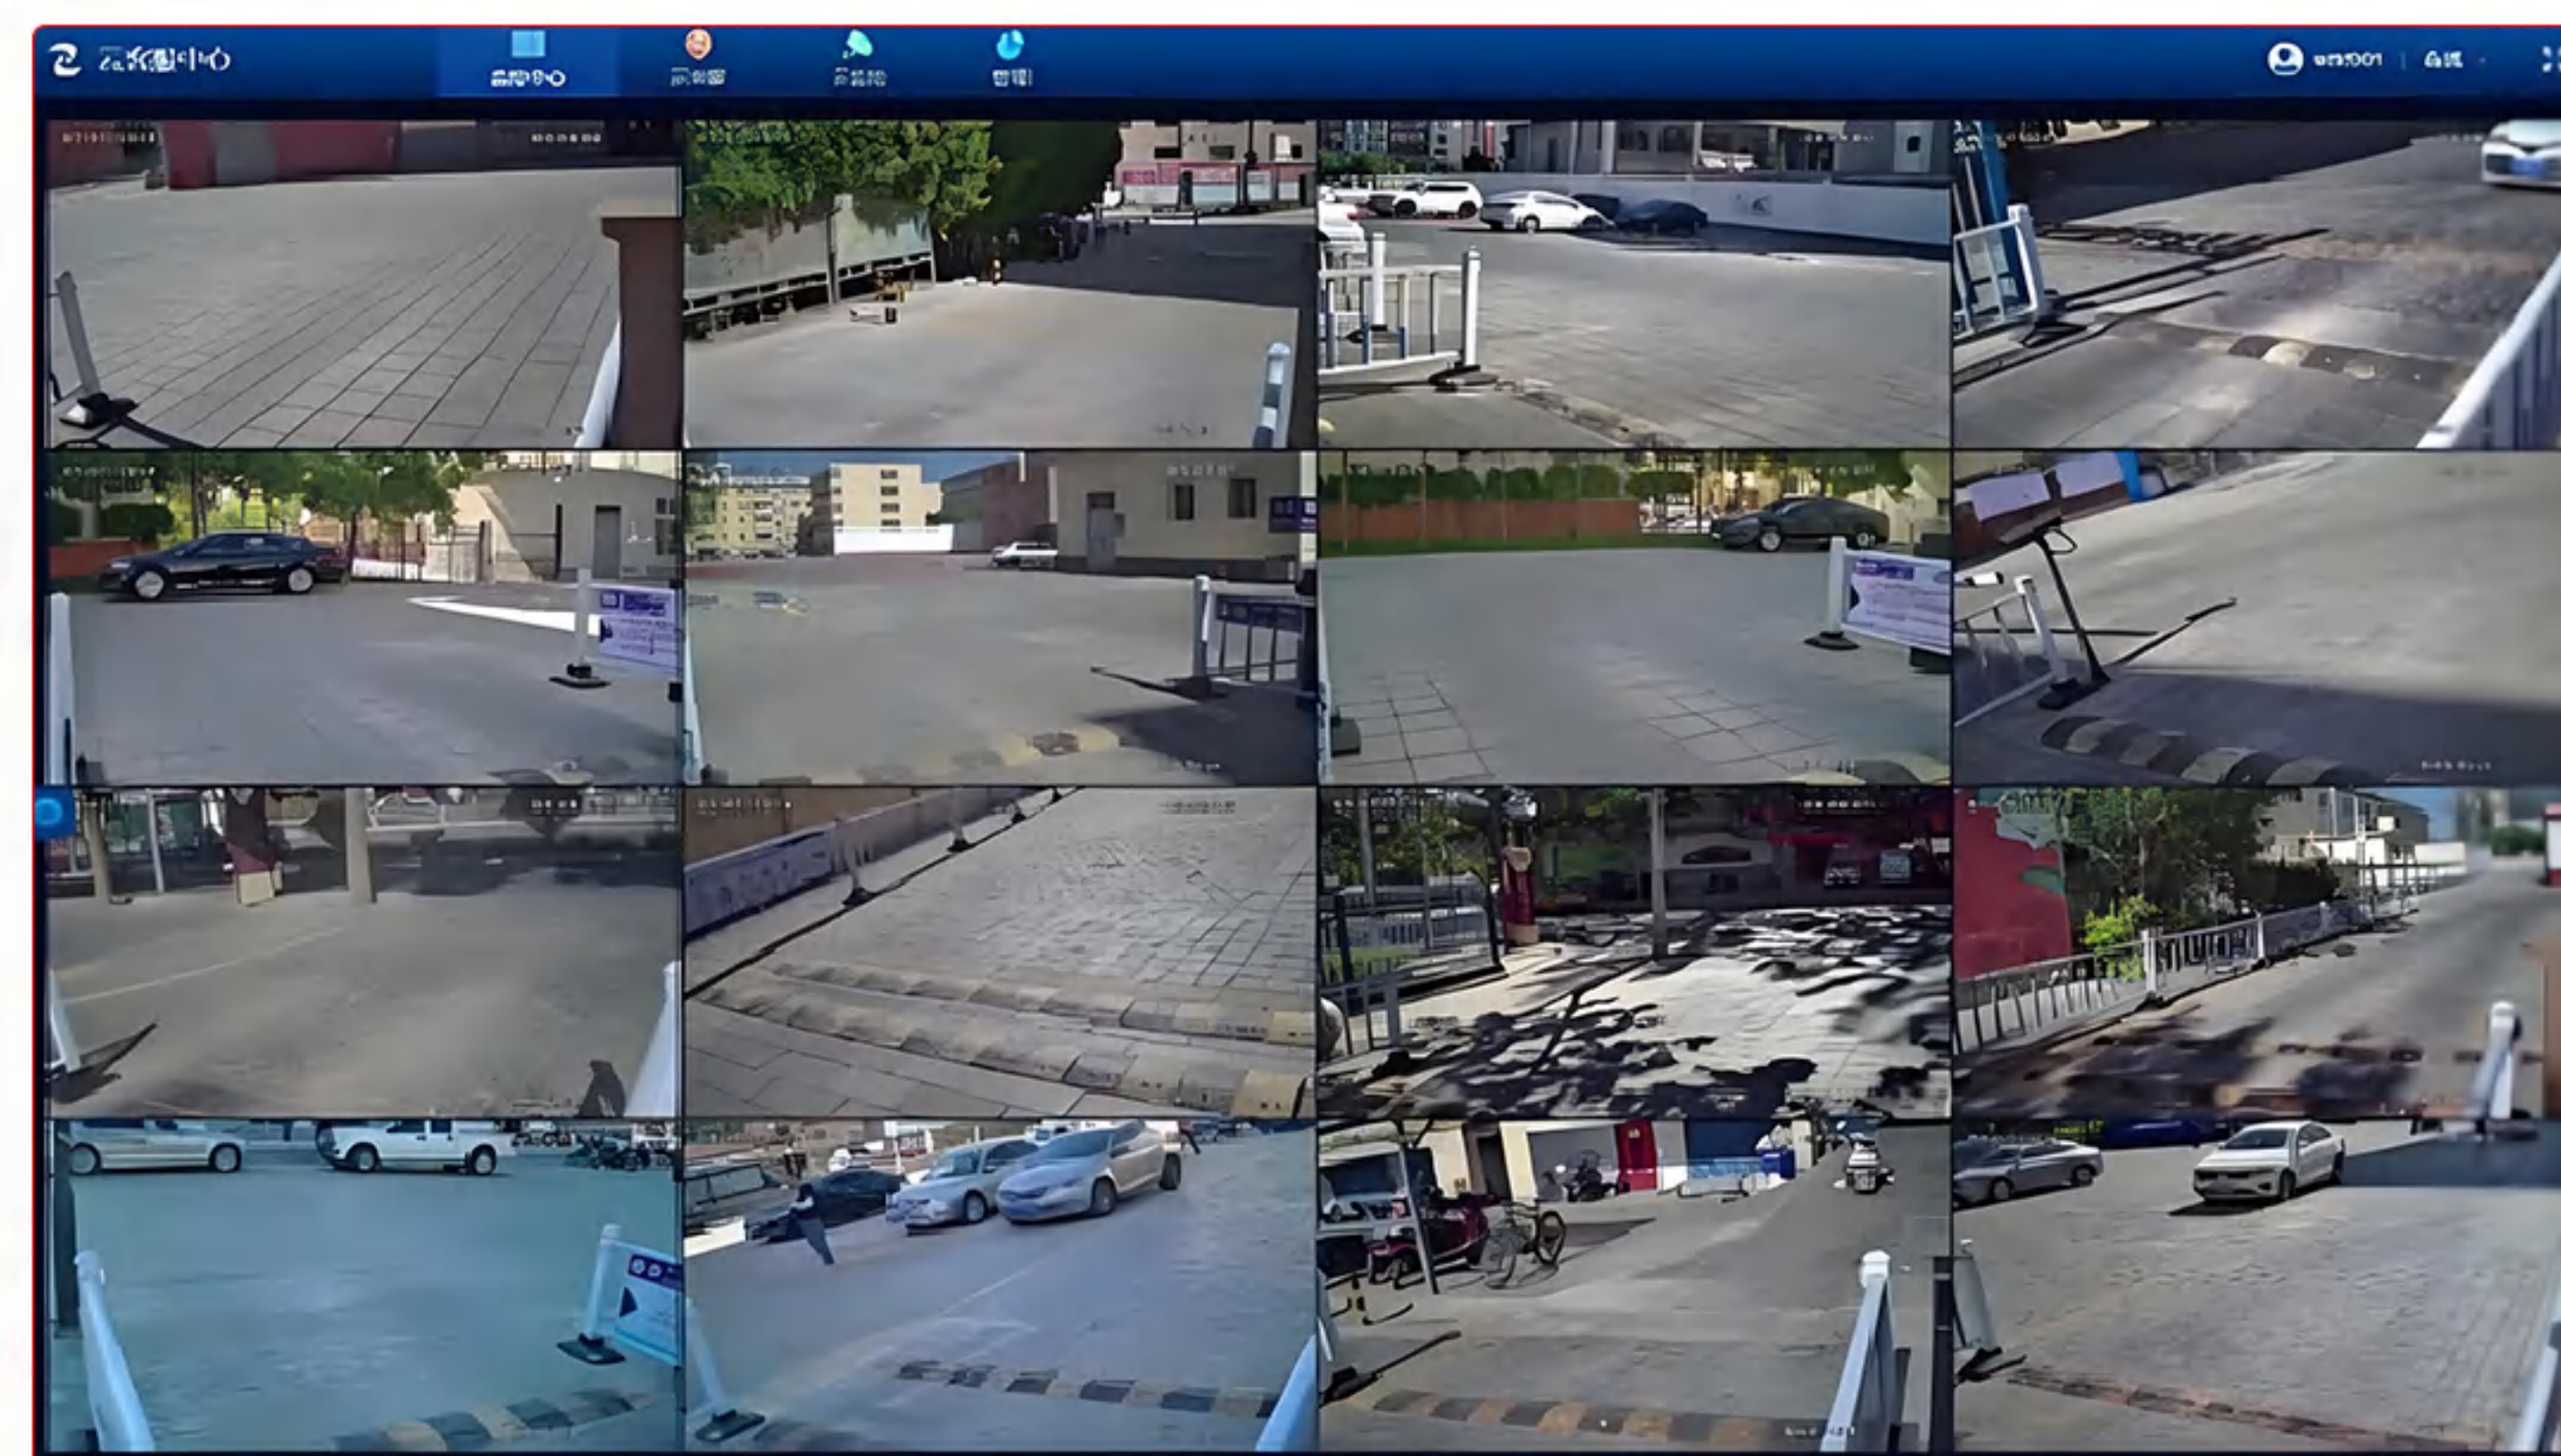

The management mini-program is designed to achieve unified monitoring and management of parking lots, as well as unified configuration and permission management of parking lots.

- ◆ Support the monthly card renewal function
- ◆ Support the monthly card registration function
- ◆ View the revenue report of the parking lot
- ◆ Support viewing the payment status of agents
- ◆ Check the entry and exit records
- ◆ Support viewing parking lot events
- ◆ Support the addition of the blacklist function
- ◆ Support merchants to recharge with coupons
- ◆ Support viewing lane video surveillance

Real-time management of cloud seat lanes :

Unified monitoring and management. The monitoring center supports switching between 16/36/64 lane images, with a maximum of 64 lane images displayed on a single page. It also supports page turning to view more video images.

New smart parking products will be launched in 2025

Xingyao Series · Brand New Upgrade

New look · New features · New experience

 500W High-definition recognition  High-power motor, stable and non-wobbling rod

 Unattended, self-service payment  Rebound function upon encountering obstacles

License plate recognition series

Product Name: License plate recognition

Product Model: SWS-CPSBXL03

Chinese design patent

Number: ZL2018 2 1447060.8

Functional characteristics :

- ◆ Real-person voice broadcast function
- ◆ It shows an unlicensed vehicle
- ◆ Optional display of export settlement code
- ◆ Optional cash payment function
- ◆ Automatic alarm for abnormal situations
- ◆ Optional electronic invoice function
- ◆ It can be linked with multiple devices
- ◆ Choose wechat red envelope change as an option
- ◆ Optional cloud video intercom function
- ◆ Recognition rate >99.9% (Typical license plate)
- ◆ Adapted vehicle speed: 0-30 kilometers per hour
- ◆ Identification type: White cards, blue cards, yellow cards, green cards, black cards
- ◆ Identification feature: Number, color, type, width
- ◆ Anti-counterfeiting function: Support abnormal license plate alerts
- ◆ Power supply voltage: 220V AC(12V DC on the mainboard)
- ◆ Product power consumption: The power consumption of the motherboard is less than 5W
- ◆ Font library capacity: National Standard Level 2 font library, with a maximum of 16,384 number
- ◆ Voice broadcast: Real person pronunciation, TTS arbitrary voice broadcast

Product parameters :

- ◆ Brand Name: SHOWES
- ◆ Product Model: SWS-CPSBXL03
- ◆ Product size: 380*190*1600mm
- ◆ Digital display: 4 digits (landscape)
- ◆ Camera: 5 million pixels
- ◆ Recognition time: 0.2 seconds
- ◆ LED: Over 50,000 hours

Product Four Views:

Product Features:

- ◆ Suitable for domestic and foreign customers, it is sold far and wide throughout the country
- ◆ Paired with the industry's best recognition camera / 5-megapixel Zhenshi brand
- ◆ 4 lines, 16 characters, can display more information, supports custom text
- ◆ Automobile paint baking process/more effective resistance to salt spray/rust and other problems
- ◆ For customers who prefer private models, functional customization is supported

License plate recognition series

Product Name: License plate recognition

Product Model: SWS-CPSBXL02

Chinese design patent

Number: ZL2018 2 1447060.8

Functional characteristics :

- ◆ Real-person voice broadcast function
- ◆ It shows an unlicensed vehicle
- ◆ Optional display of export settlement code
- ◆ Optional cash payment function
- ◆ Automatic alarm for abnormal situations
- ◆ Optional electronic invoice function
- ◆ It can be linked with multiple devices
- ◆ Choose wechat red envelope change as an option
- ◆ Optional cloud video intercom function
- ◆ Recognition rate >99.9% (Typical license plate)
- ◆ Adapted vehicle speed: 0-30 kilometers per hour
- ◆ Identification type: White cards, blue cards, yellow cards, green cards, black cards
- ◆ Identification feature: Number, color, type, width
- ◆ Anti-counterfeiting function: Support abnormal license plate alerts
- ◆ Power supply voltage: 220V AC(12V DC on the mainboard)
- ◆ Product power consumption: The power consumption of the motherboard is less than 5W
- ◆ Font library capacity: National Standard Level 2 font library, with a maximum of 16,384 number
- ◆ Voice broadcast: Real person pronunciation, TTS arbitrary voice broadcast

Product parameters :

- ◆ Brand Name: SHOWES
- ◆ Product Model: SWS-CPSBXL01
- ◆ Product size: 225*200*1400mm
- ◆ Digital display: 4 digits (landscape)
- ◆ Camera: 5 million pixels
- ◆ Recognition time: 0.2 seconds
- ◆ LED: Over 50,000 hours

License plate recognition series

Product Name: License plate recognition

Product Model: SWS-CPSBXL01

Chinese design patent

Number: ZL2018 2 1447060.8

Functional characteristics :

Product Four Views:

Product Features:

- ◆ Suitable for domestic and foreign customers, it is sold far and wide throughout the country
- ◆ Paired with the industry's best recognition camera / 5-megapixel Zhenshi brand
- ◆ 2 lines, 8 characters, can display more information, supports custom text
- ◆ Automobile paint baking process/more effective resistance to salt spray/rust and other problems
- ◆ For customers who prefer private models, functional customization is supported

License plate recognition series

Product Name: License plate recognition
Product Model: SWS-CPSBXL12

Functional characteristics :

- ◆ Real-person voice broadcast function
- ◆ It shows an unlicensed vehicle
- ◆ Optional display of export settlement code
- ◆ Optional cash payment function
- ◆ Automatic alarm for abnormal situations
- ◆ Optional electronic invoice function
- ◆ It can be linked with multiple devices
- ◆ Choose wechat red envelope change as an option
- ◆ Optional cloud video intercom function
- ◆ Recognition rate >99.8% (Typical license plate)
- ◆ Adapted vehicle speed: 0-30 kilometers per hour
- ◆ Identification type: White cards, blue cards, yellow cards, green cards, black cards
- ◆ Identification feature: Number, color, type, width
- ◆ Anti-counterfeiting function: Support abnormal license plate alerts
- ◆ Power supply voltage: 220V AC(12V DC on the mainboard)
- ◆ Product power consumption: The power consumption of the motherboard is less than 5W
- ◆ Font library capacity: National Standard Level 2 font library, with a maximum of 16,384 number
- ◆ Voice broadcast: Real person pronunciation, TTS arbitrary voice broadcast

Product parameters :

- | | |
|--|--|
| ◆ Brand name: SHOWES | ◆ Recognition rate: >99.8% (all-weather) |
| ◆ Product Model: SWS-CPSBXL12 | ◆ Correspondence: 10M/100M adaptive |
| ◆ Product size: 320*152*1350mm | ◆ Screen display: Dual-color LED display |
| ◆ Recognition time: 0.2 s | ◆ Fill light: 12 pieces |
| ◆ LED arrangement: P3 Spacing | ◆ Product technology: Baking varnish |
| ◆ Recognition pixel: 5 million starlight level | ◆ Product material: Cold-rolled sheet |

500W High-definition recognition

High-power motor, stable and non-wobbling rod

Unattended, self-service payment

Rebound function upon encountering obstacles

License plate recognition series

Product Name: License plate recognition
Product Model: SWS-CPSBXL06

Functional characteristics :

- ◆ Real-person voice broadcast function
- ◆ It shows an unlicensed vehicle
- ◆ Optional display of export settlement code
- ◆ Optional cash payment function
- ◆ Automatic alarm for abnormal situations
- ◆ Optional electronic invoice function
- ◆ It can be linked with multiple devices
- ◆ Choose wechat red envelope change as an option
- ◆ Optional cloud video intercom function

Rebound after encountering obstacles

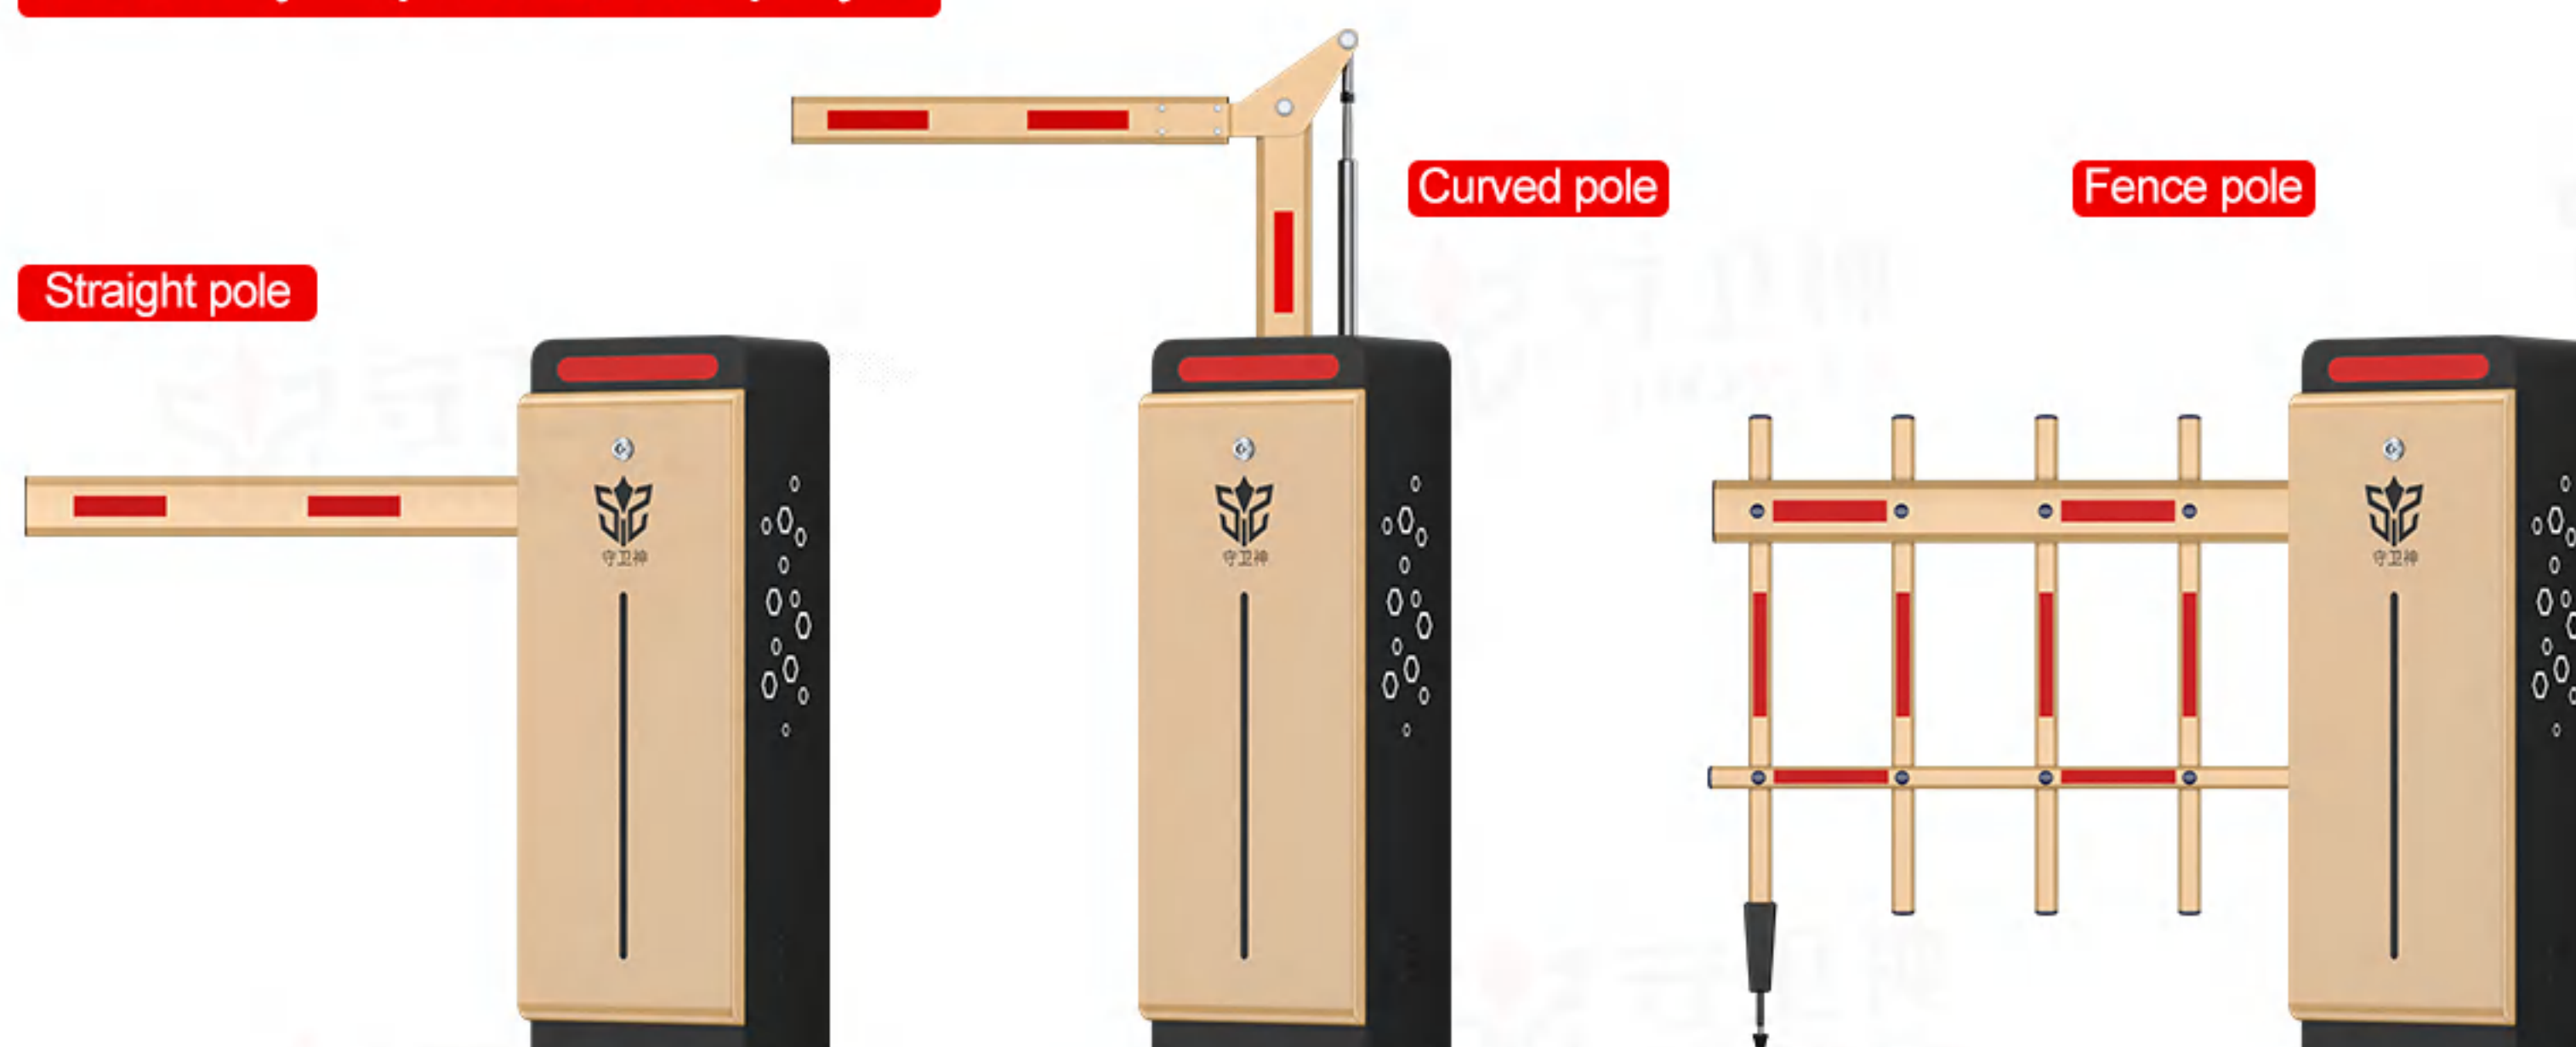

Remotely control the lifting and lowering of the pole

Lift the pole quickly in 1.5 to 6 seconds

Intelligent anti-smashing, safeguarding safety

A variety of poles on display :

Intelligent barrier gate series

Product Name: Intelligent barrier gate

Product Model: SWS-DZXL01

Chinese design patent

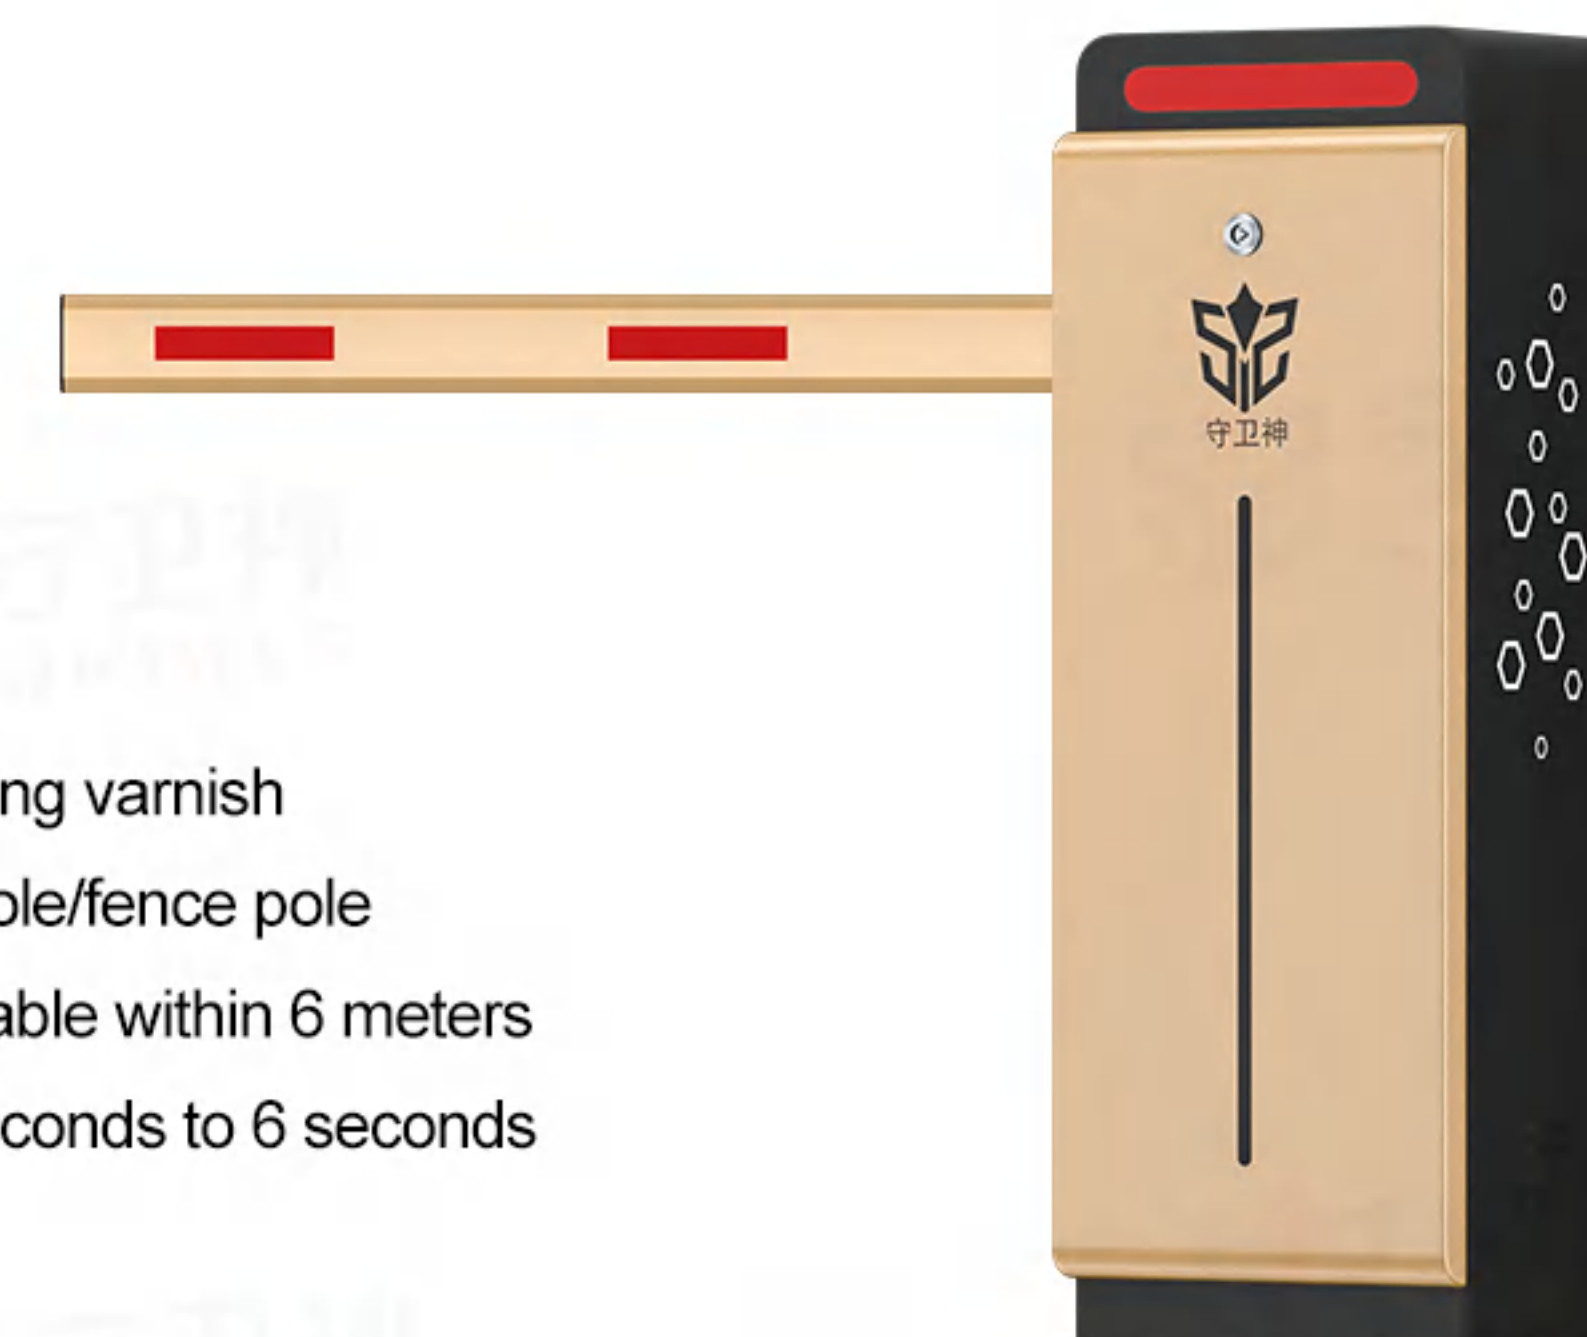

Number: ZL2018 2 1447060.8

Functional characteristics :

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.
- ◆ The original imported high-power motor ensures the reliable operation of the barrier gate.
- ◆ Original imported photoelectric isolation protection circuit ensures the integrity of the signal.
- ◆ Integrate a high-performance wireless remote control receiving module to ensure stability.
- ◆ The unique arc extinguishing processing circuit ensures the service life of the control board.
- ◆ Transformers with original imported magnetic cores can operate stably in different environments.

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Intelligent barrier gate
- ◆ Product Model: SWS-DZXL01
- ◆ Product size: 370*300*1070mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole/fence pole
- ◆ Length of the pole: Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Remote control: Within 30 meters
- ◆ Product Features: Intelligent traffic lights

Intelligent barrier gate series

Product Name: **Intelligent barrier gate**

Product Model: **SWS-DZXL02**

Chinese design patent

Number: ZL2018 2 1447060.8

Functional characteristics :

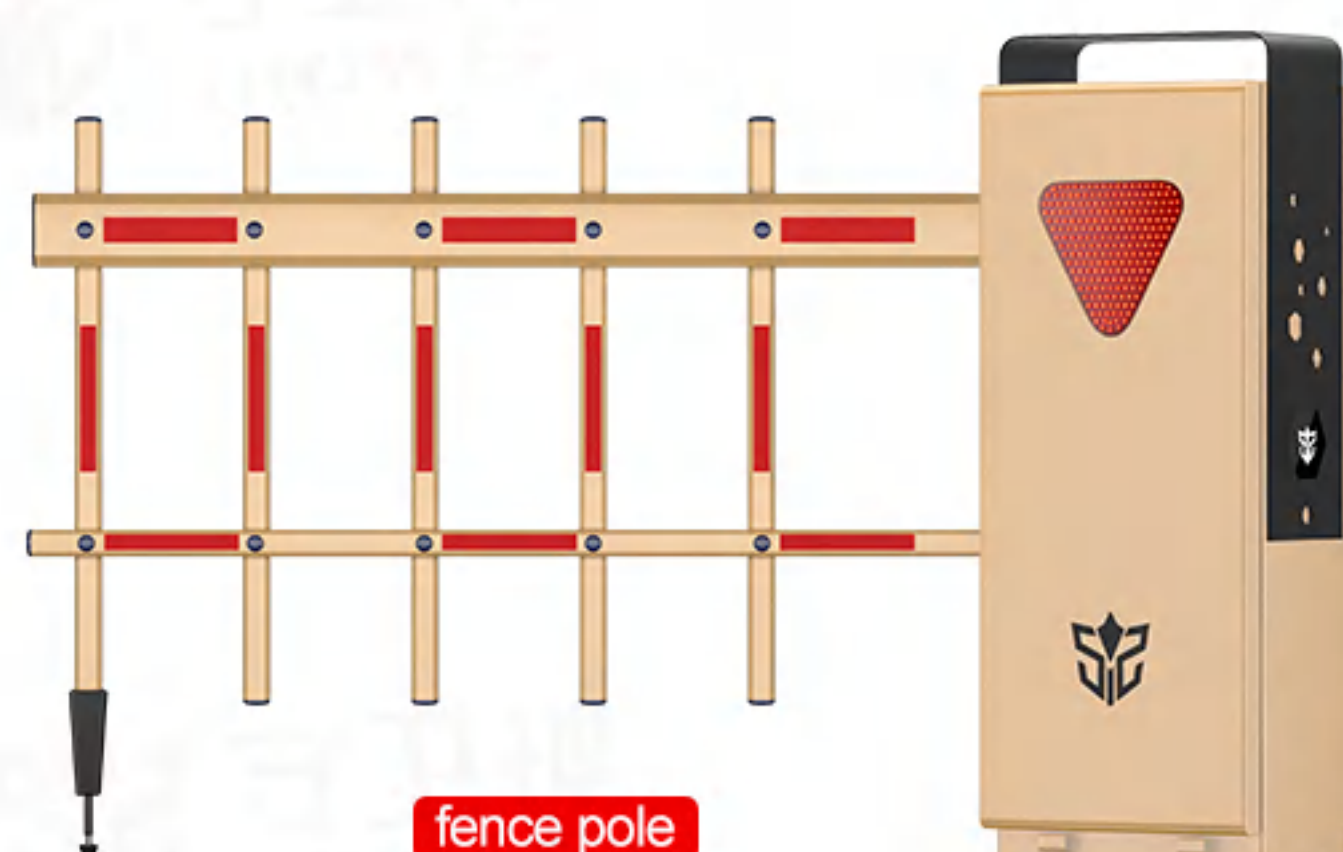

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.

- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole/fence pole
- ◆ Length of the pole Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Remote control: Within 30 meters

A variety of poles on display :

Rebound after encountering obstacles

Remotely control the lifting and lowering of the pole

Lift the pole quickly in 1.5 to 6 seconds

Intelligent anti-smashing, safeguarding safety

Remote control within 30 meters

High-power motor, stable and non-wobbling rod

Ground sensing anti-crushing function

Rebound function upon encountering obstacles

High-quality
Cold-rolled sheet

Numerical control
precise cutting

High temperature
Baking varnish process

High power
High-quality motor

Intelligent barrier gate series

Product Name: **Intelligent barrier gate**

Product Model: **SWS-DZXL03**

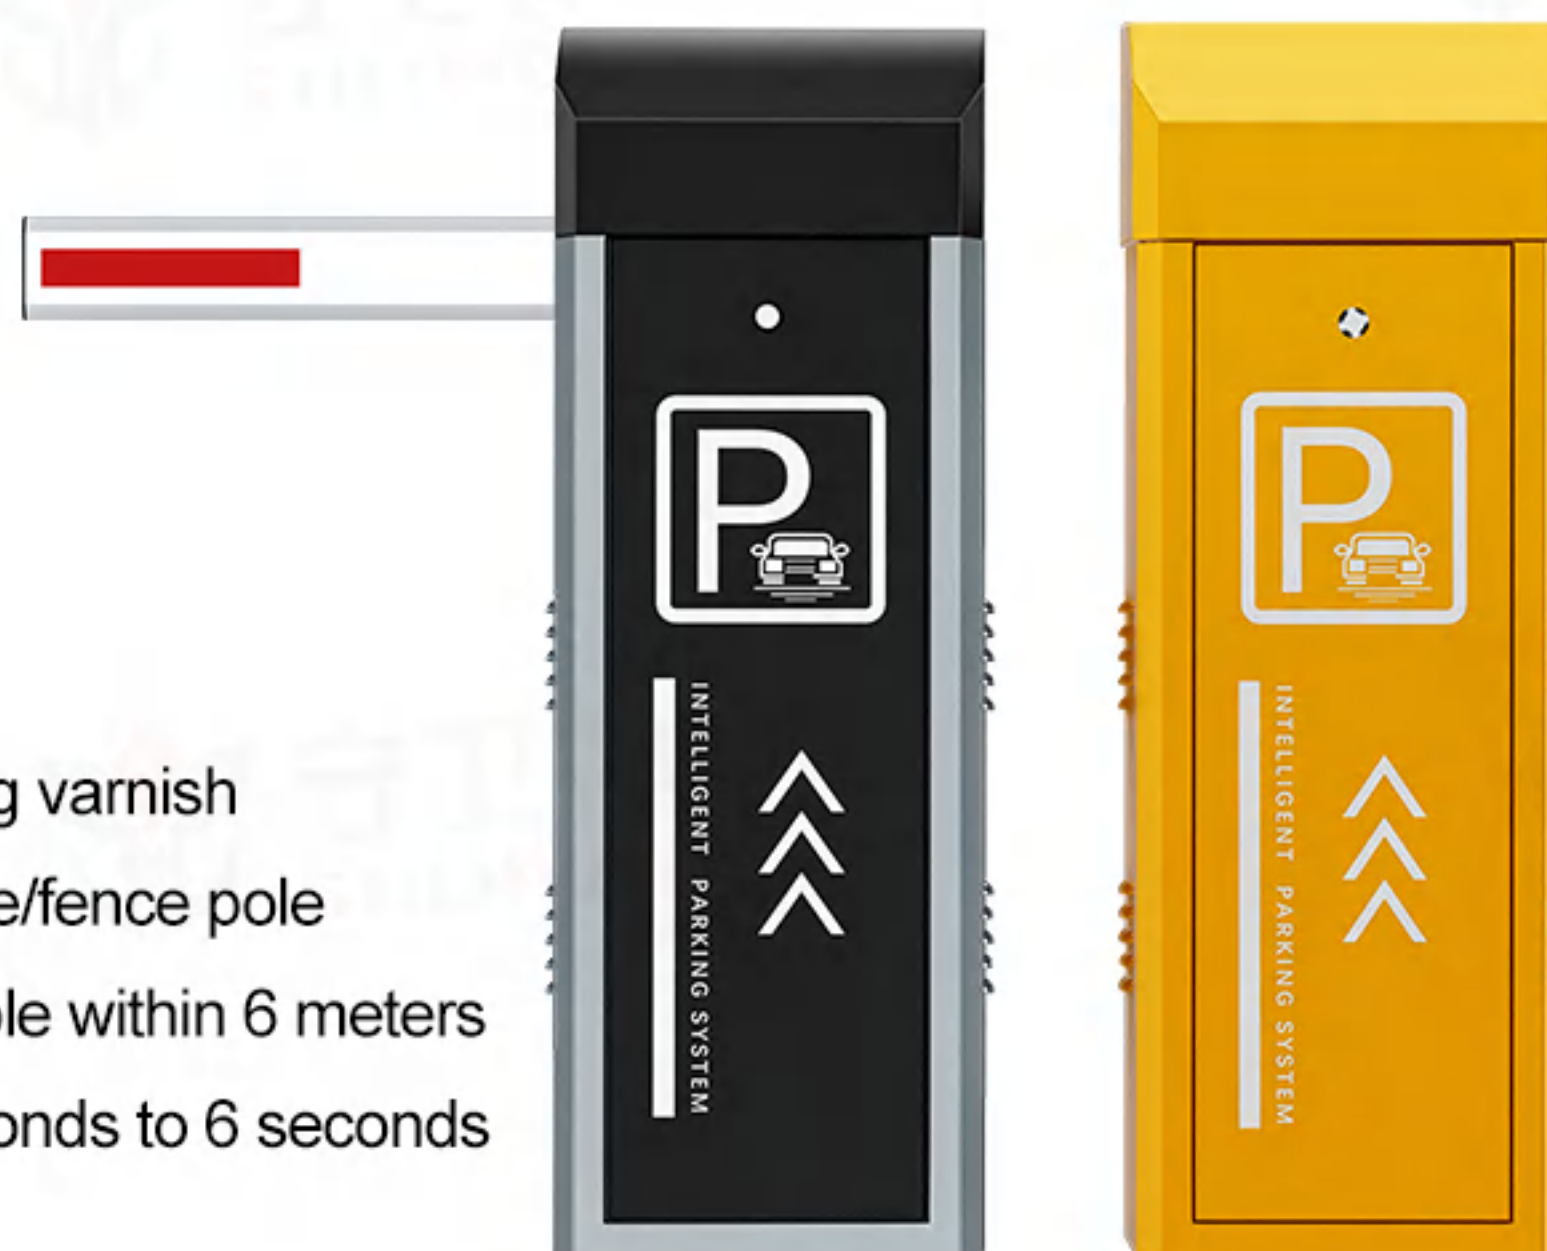

Functional characteristics :

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.
- ◆ The original imported high-power motor ensures the reliable operation of the barrier gate.
- ◆ Original imported photoelectric isolation protection circuit ensures the integrity of the signal.
- ◆ Integrate a high-performance wireless remote control receiving module to ensure stability.
- ◆ The unique arc extinguishing processing circuit ensures the service life of the control board.
- ◆ Transformers with original imported magnetic cores can operate stably in different environments.

-  Remote control within 30 meters
-  Ground sensing anti-crushing function
-  High-power motor, stable and non-wobbling rod
-  Rebound function upon encountering obstacles

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Intelligent barrier gate
- ◆ Product Model: SWS-DZXL03
- ◆ Product size: 350*280*1020mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole/fence pole
- ◆ Length of the pole: Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Remote control: Within 30 meters

Intelligent barrier gate series

Product Name: **Intelligent barrier gate**

Product Model: **SWS-DZXL22**

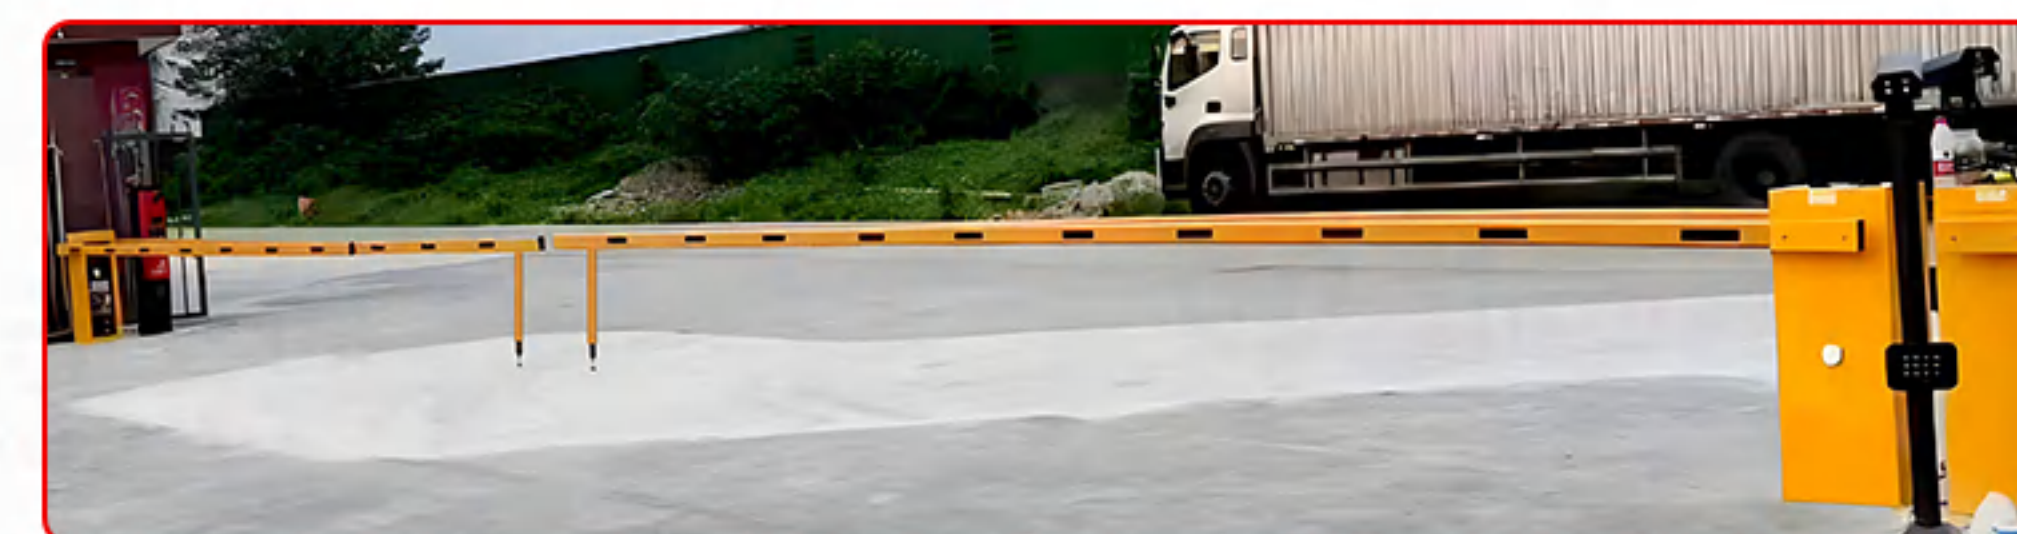

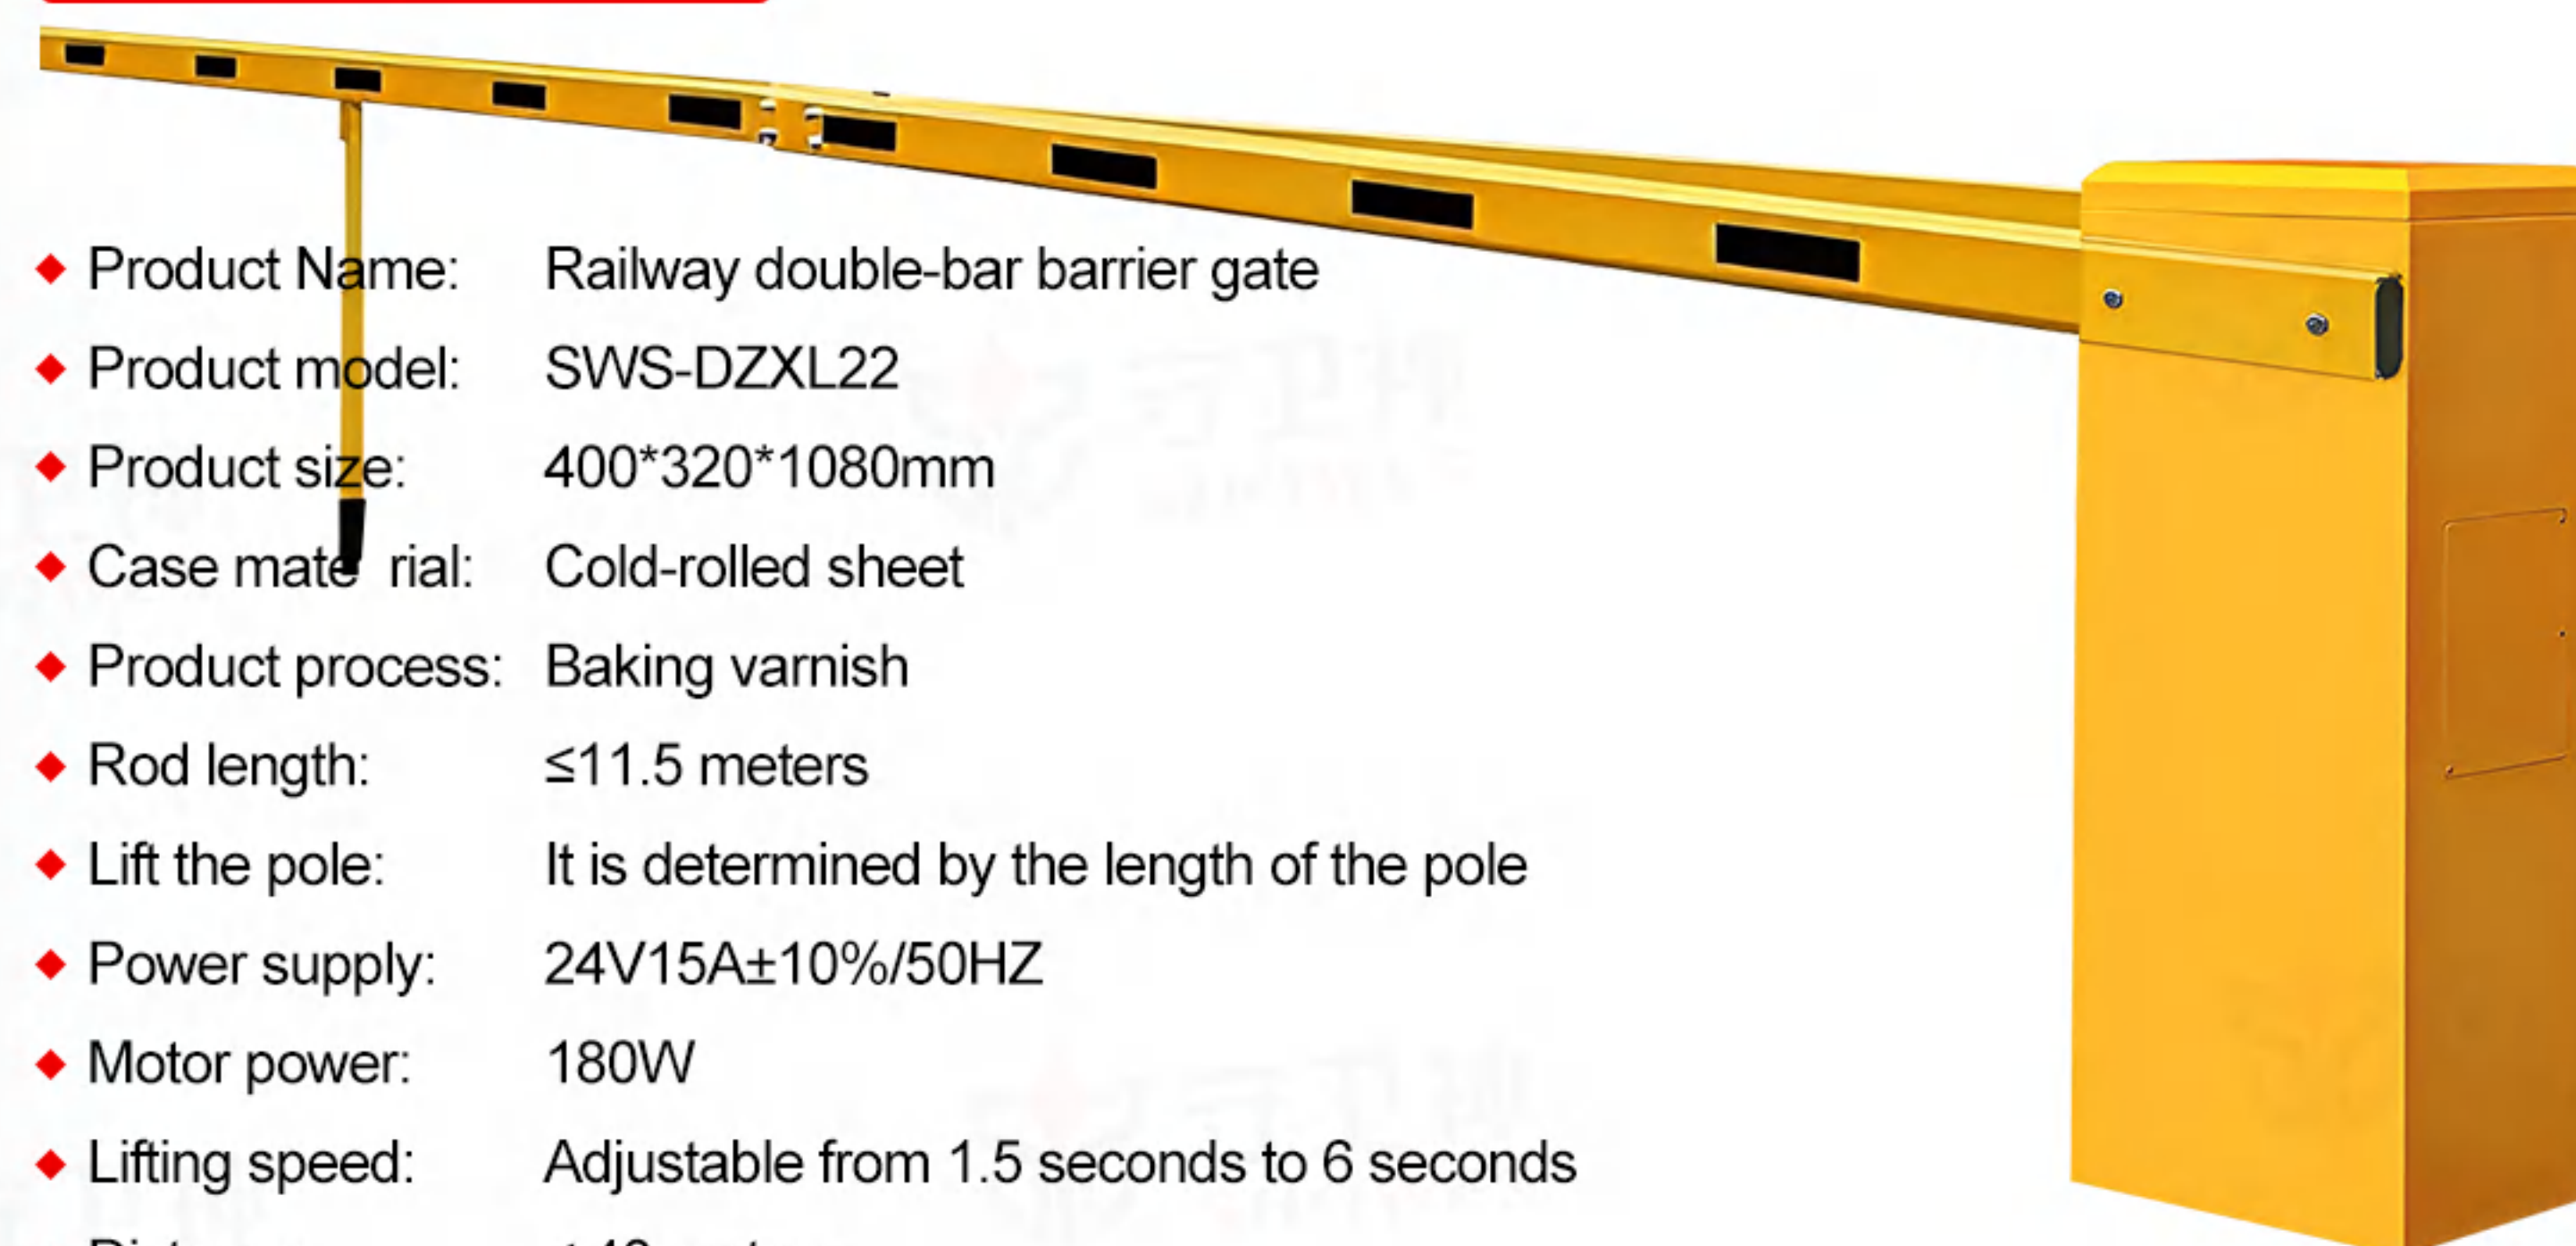

Functional characteristics :

- ◆ Double-pole DC brushless barrier gate, with three springs for balance
- ◆ Adopt a fully data-driven management mode (capable of integrating license plate recognition, card swiping, Bluetooth, and ground sensing);
- ◆ The entire process does not require additional auxiliary equipment (such as pressure waves, etc.);
- ◆ It is equipped with rich communication interfaces to achieve travel monitoring of the barrier gate and remote control of the barrier gate;
- ◆ It can be powered by a 24V uninterruptible power supply to ensure the normal operation of the barrier gate during a power outage;
- ◆ Configure solar cells to expand solar power supply.

-  Remote control within 40 meters
-  Ground sensing anti-crushing function
-  High-power motor, stable and non-wobbling rod
-  Rebound function upon encountering obstacles

Product parameters :

- ◆ Product Name: Railway double-bar barrier gate
- ◆ Product model: SWS-DZXL22
- ◆ Product size: 400*320*1080mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product process: Baking varnish
- ◆ Rod length: ≤11.5 meters
- ◆ Lift the pole: It is determined by the length of the pole
- ◆ Power supply: 24V15A±10%/50HZ
- ◆ Motor power: 180W
- ◆ Lifting speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Distance: ≤ 40 meters
- ◆ Input interface: A pulse signal of more than 100ms
- ◆ Driving current: ≤ 10mA
- ◆ Barrier gate color: Yellow (Customizable)

Intelligent barrier gate series

Product Name: **Intelligent barrier gate**

Product Model: **SWS-DZXL13**

Functional characteristics :

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.
- ◆ The original imported high-power motor ensures the reliable operation of the barrier gate.
- ◆ Original imported photoelectric isolation protection circuit ensures the integrity of the signal.
- ◆ Integrate a high-performance wireless remote control receiving module to ensure stability.
- ◆ The unique arc extinguishing processing circuit ensures the service life of the control board.
- ◆ Transformers with original imported magnetic cores can operate stably in different environments.

-  Remote control within 30 meters
-  Ground sensing anti-crushing function
-  High-power motor, stable and non-wobbling rod
-  Rebound function upon encountering obstacles

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Intelligent barrier gate
- ◆ Product Model: SWS-DZXL13
- ◆ Product size: 310*250*990mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole/fence pole
- ◆ Length of the pole Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds

A variety of poles on display :

Intelligent barrier gate series

Product Name: **Intelligent barrier gate**

Product Model: **SWS-DZXL16**

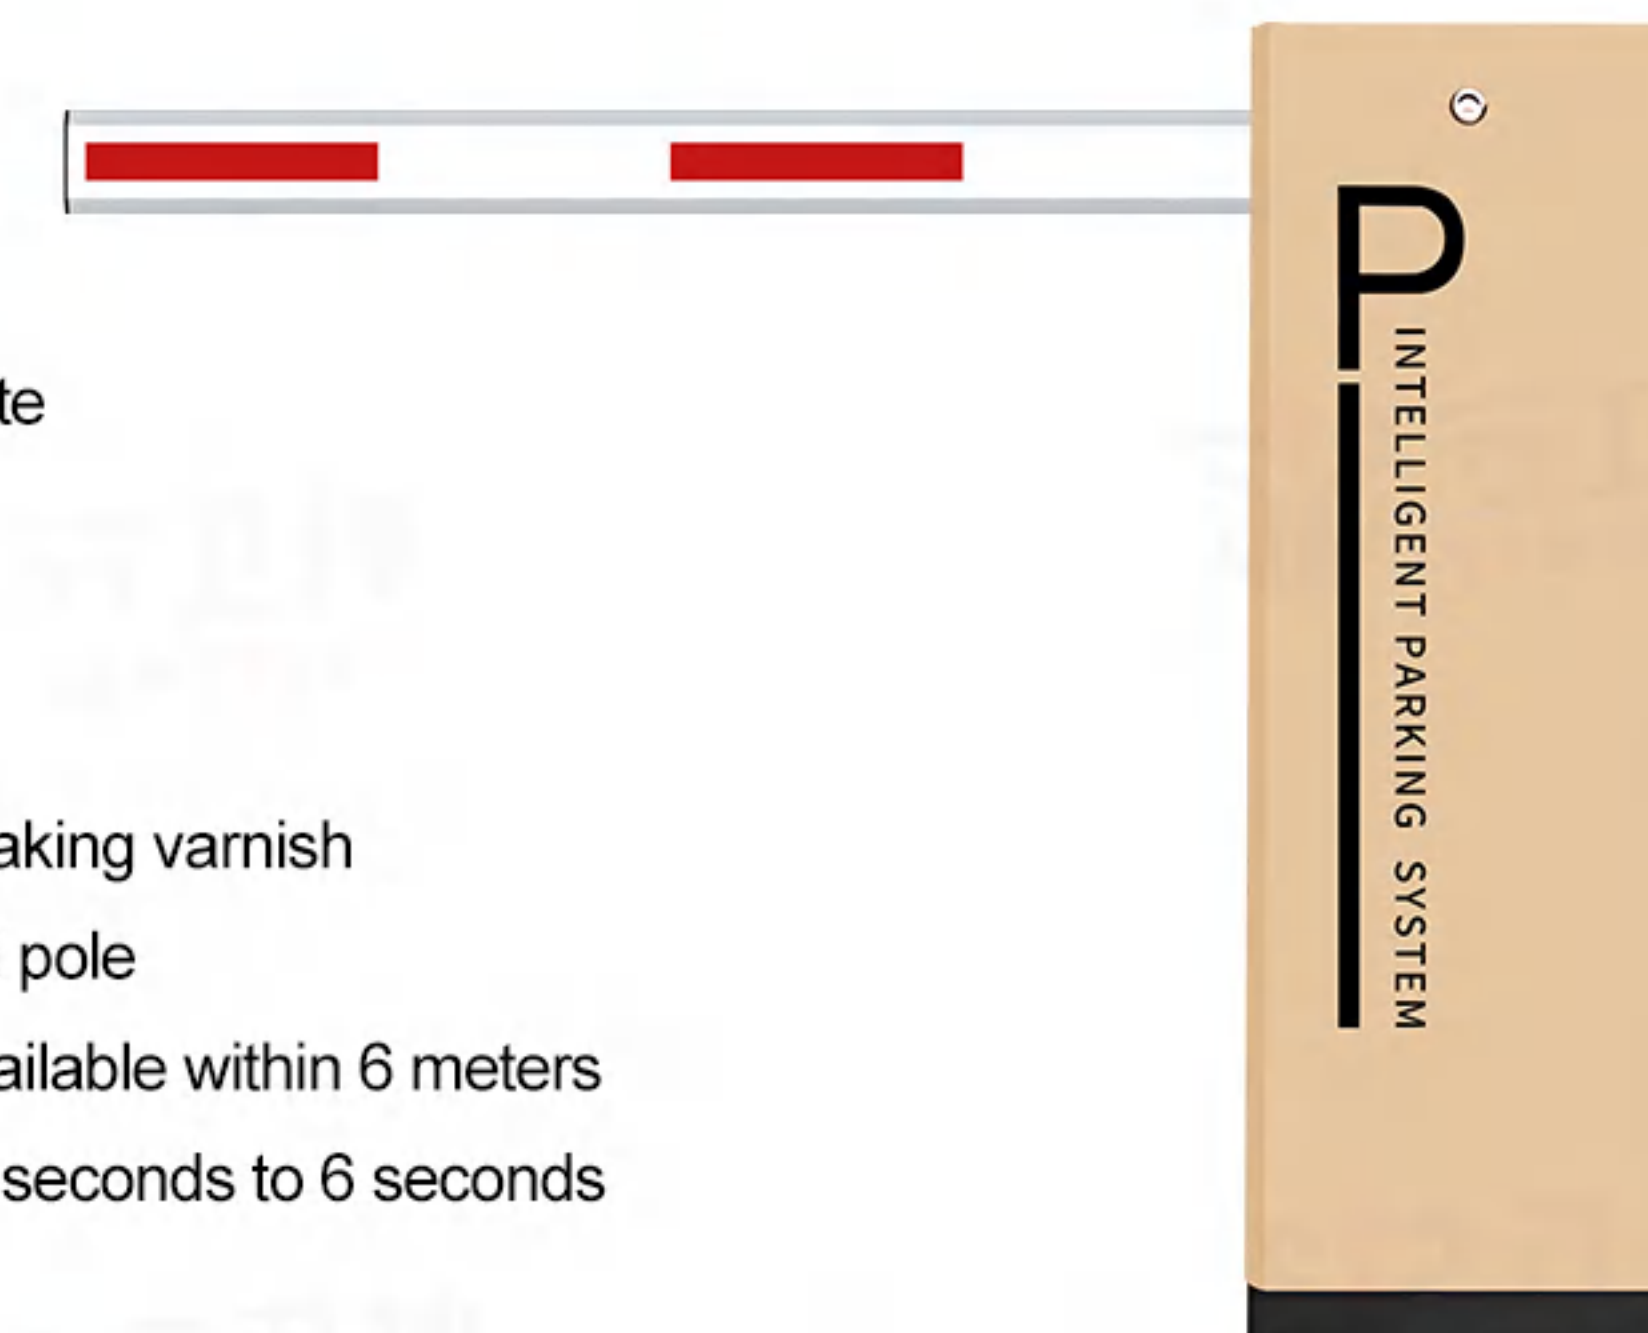

Functional characteristics :

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.
- ◆ The original imported high-power motor ensures the reliable operation of the barrier gate.
- ◆ Original imported photoelectric isolation protection circuit ensures the integrity of the signal.
- ◆ Integrate a high-performance wireless remote control receiving module to ensure stability.
- ◆ The unique arc extinguishing processing circuit ensures the service life of the control board.
- ◆ Transformers with original imported magnetic cores can operate stably in different environments.

-  Remote control within 30 meters
-  Ground sensing anti-crushing function
-  High-power motor, stable and non-wobbling rod
-  Rebound function upon encountering obstacles

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Intelligent barrier gate
- ◆ Product Model: SWS-DZXL16
- ◆ Product size: 251*330*980mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole
- ◆ Length of the pole Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Remote control: Within 30 meters

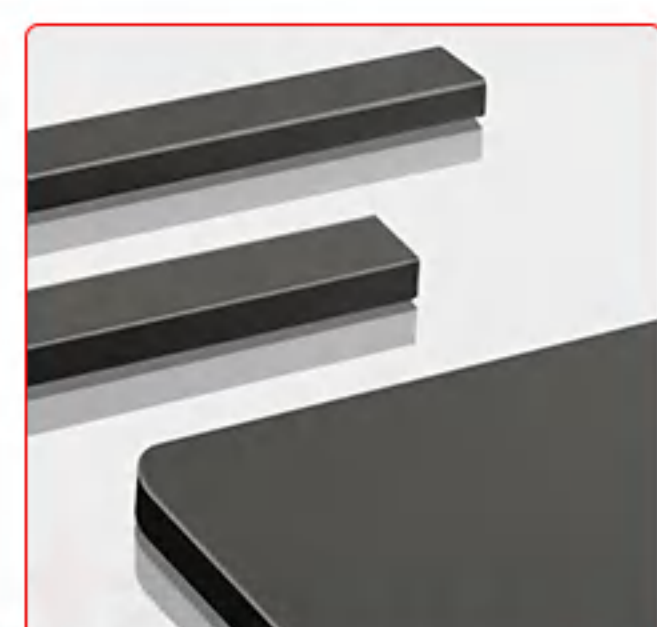

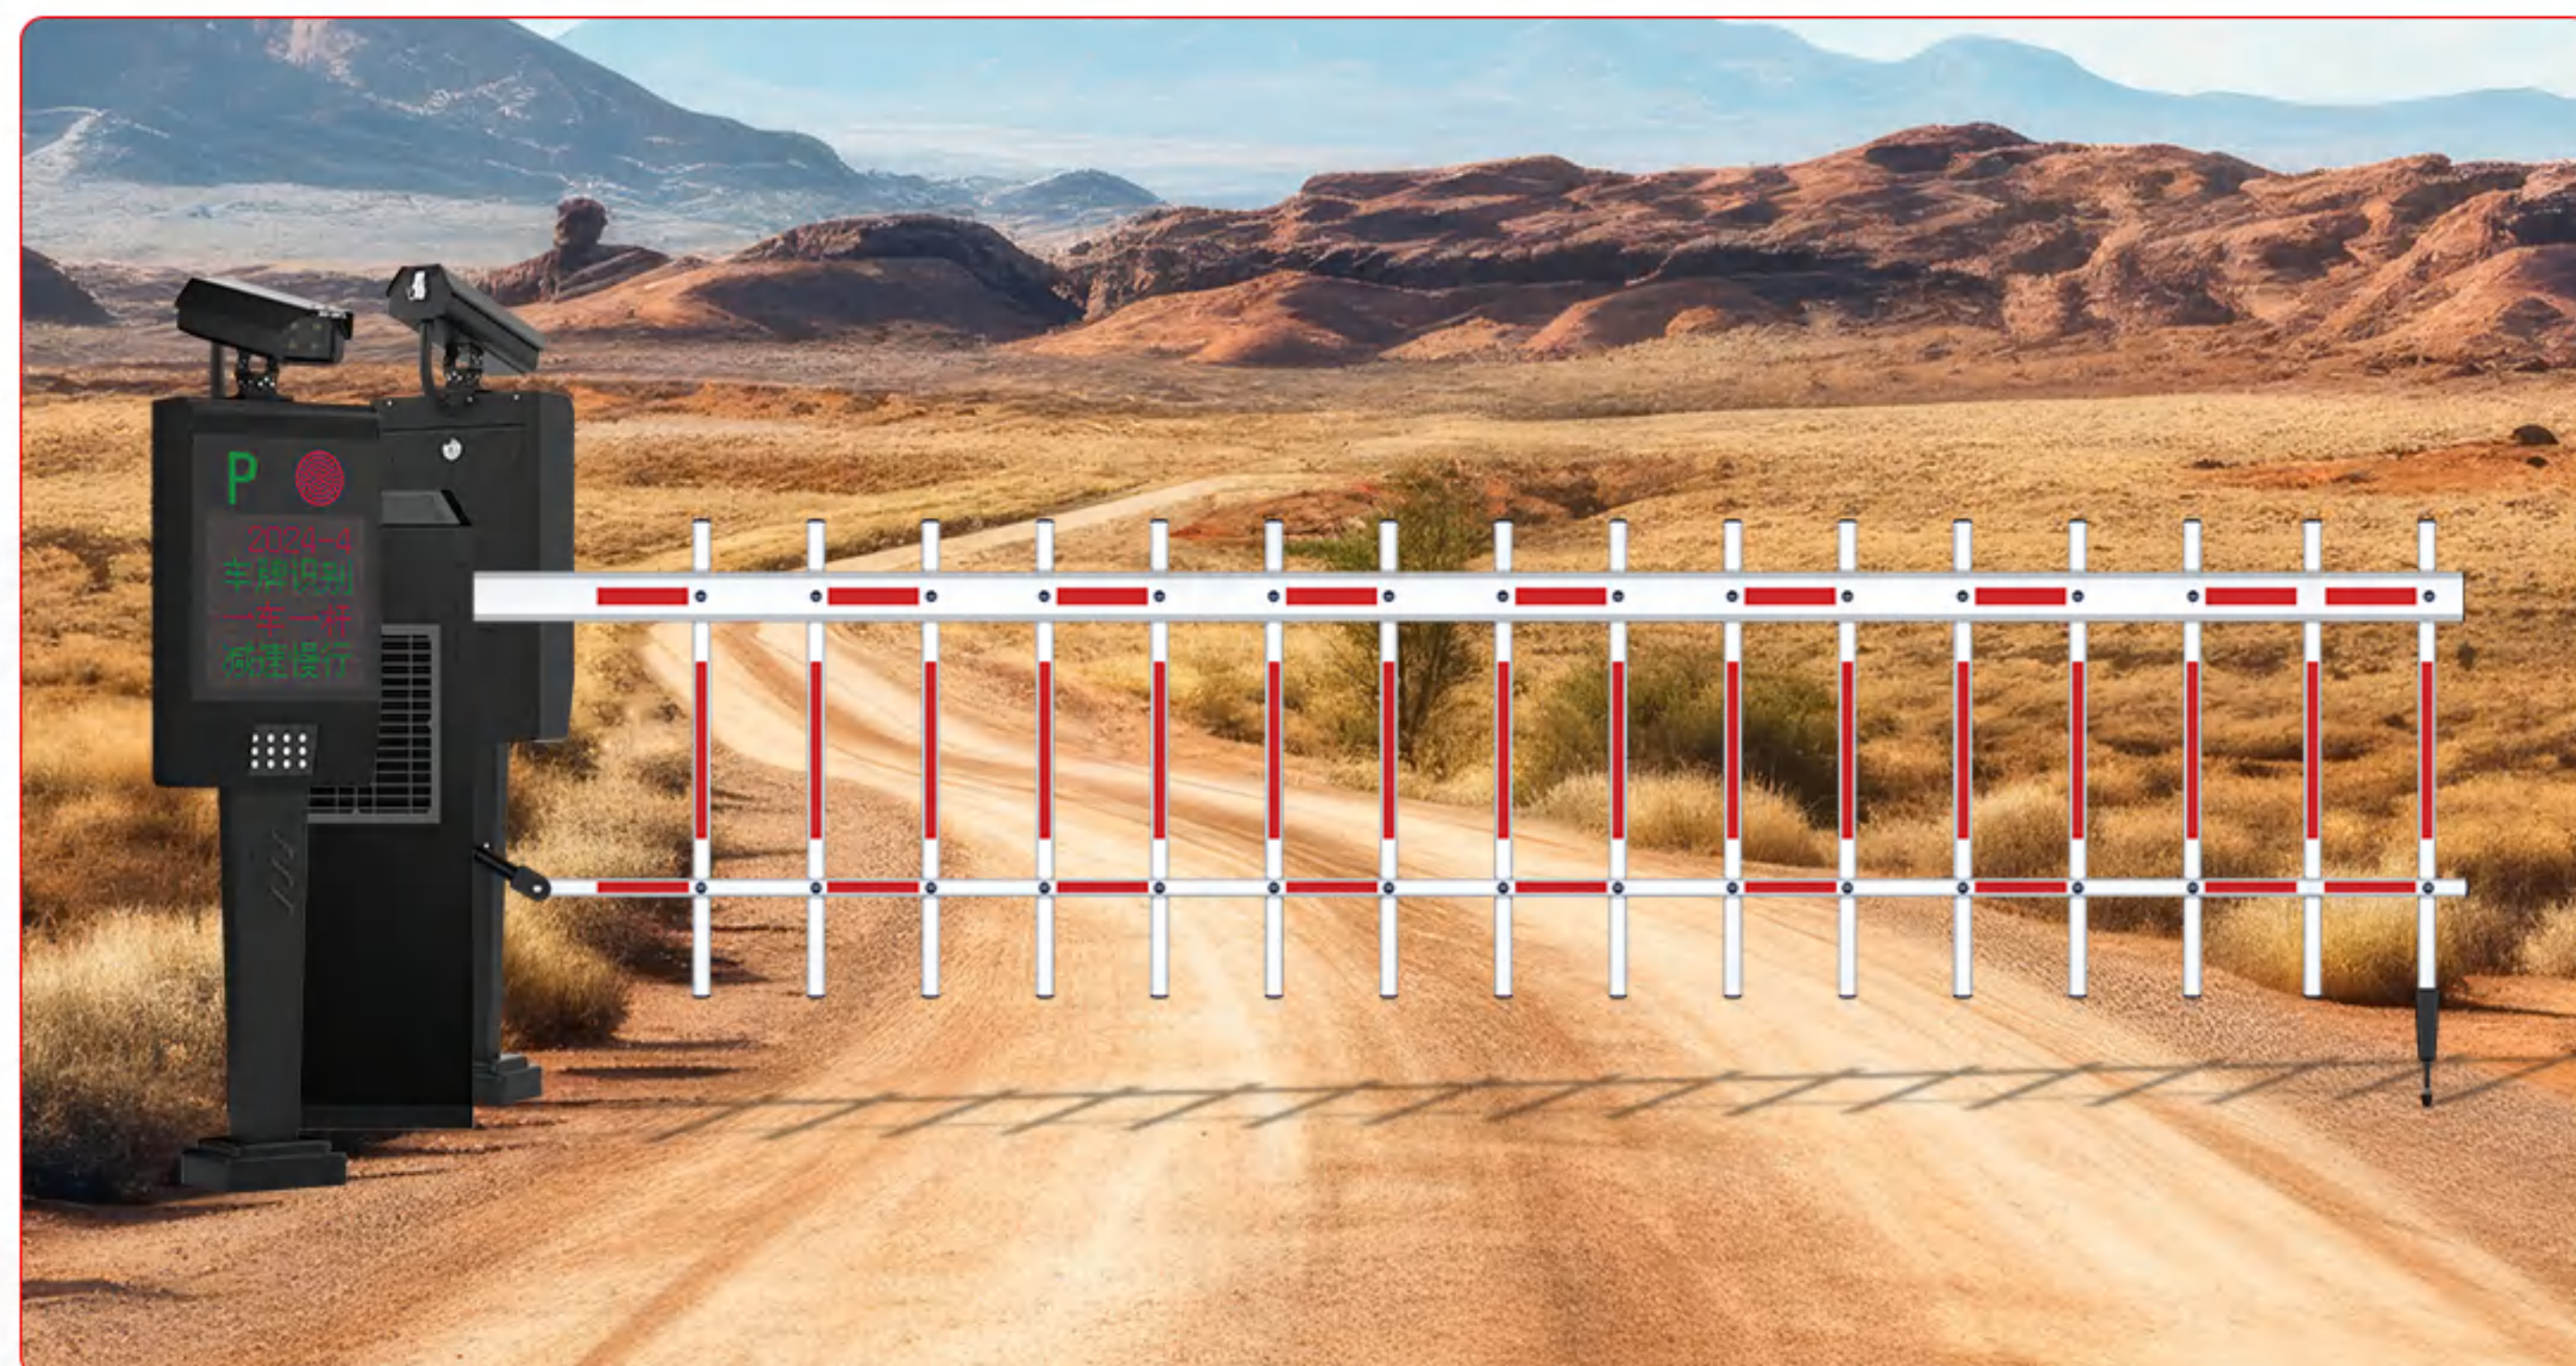

Intelligent barrier gate series

Product Name: **Solar barrier gate**

Product Model: **SWS-DZXL11**

-  Remote control within 30 meters
-  Ground sensing anti-crushing function
-  High-power motor, stable and non-wobbling rod

High-quality
Cold-rolled sheet

Numerical control
precise cutting

High temperature
Baking varnish process

High power
High-quality motor

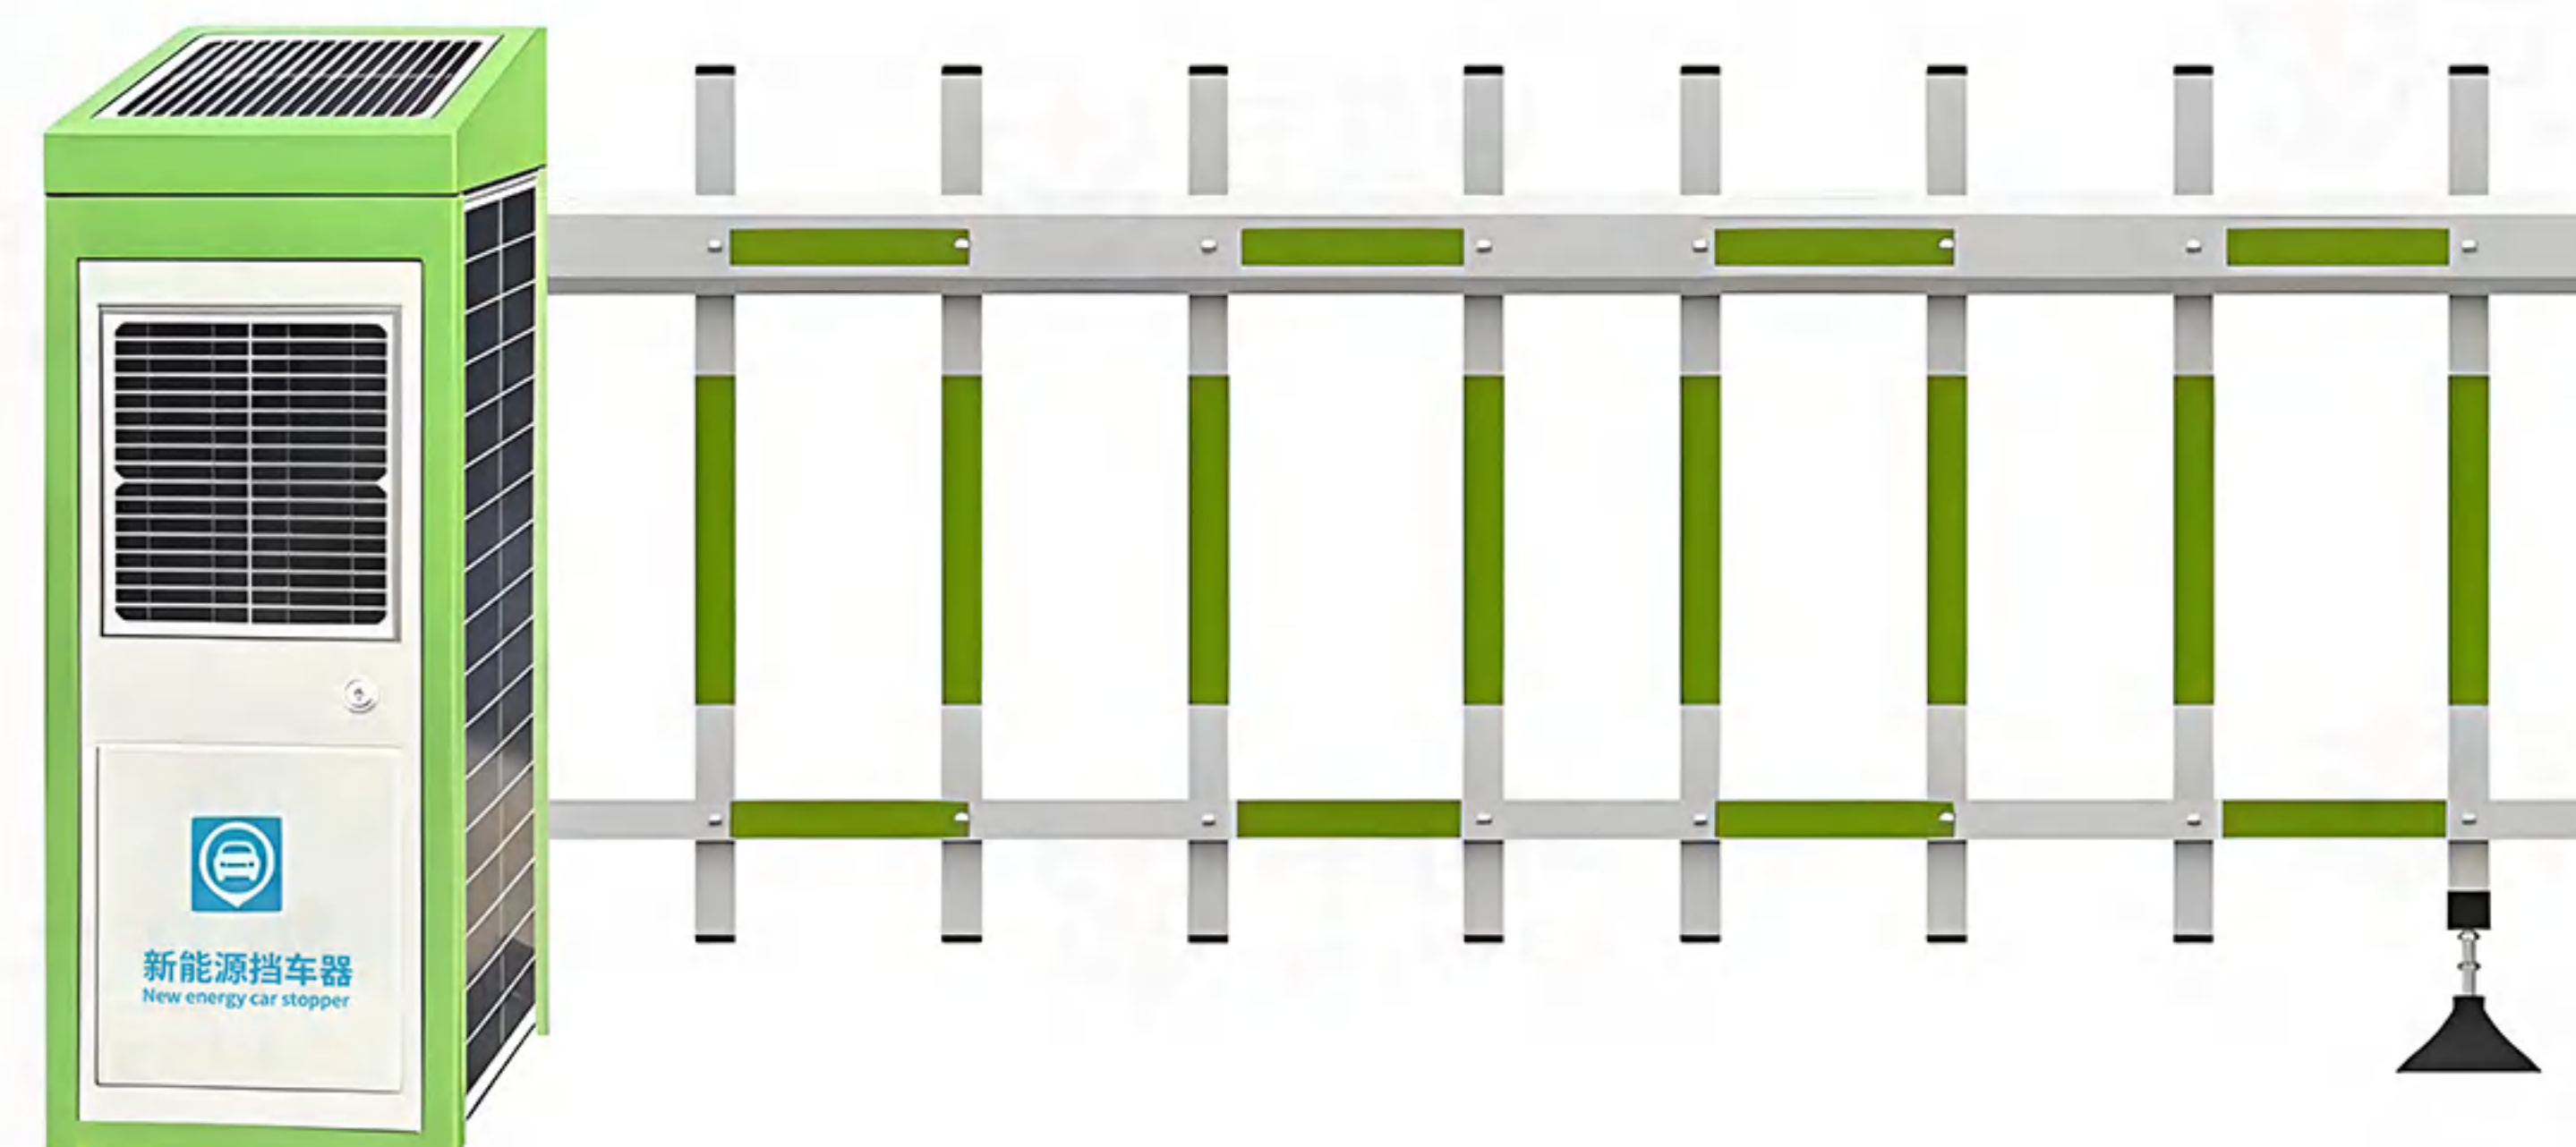

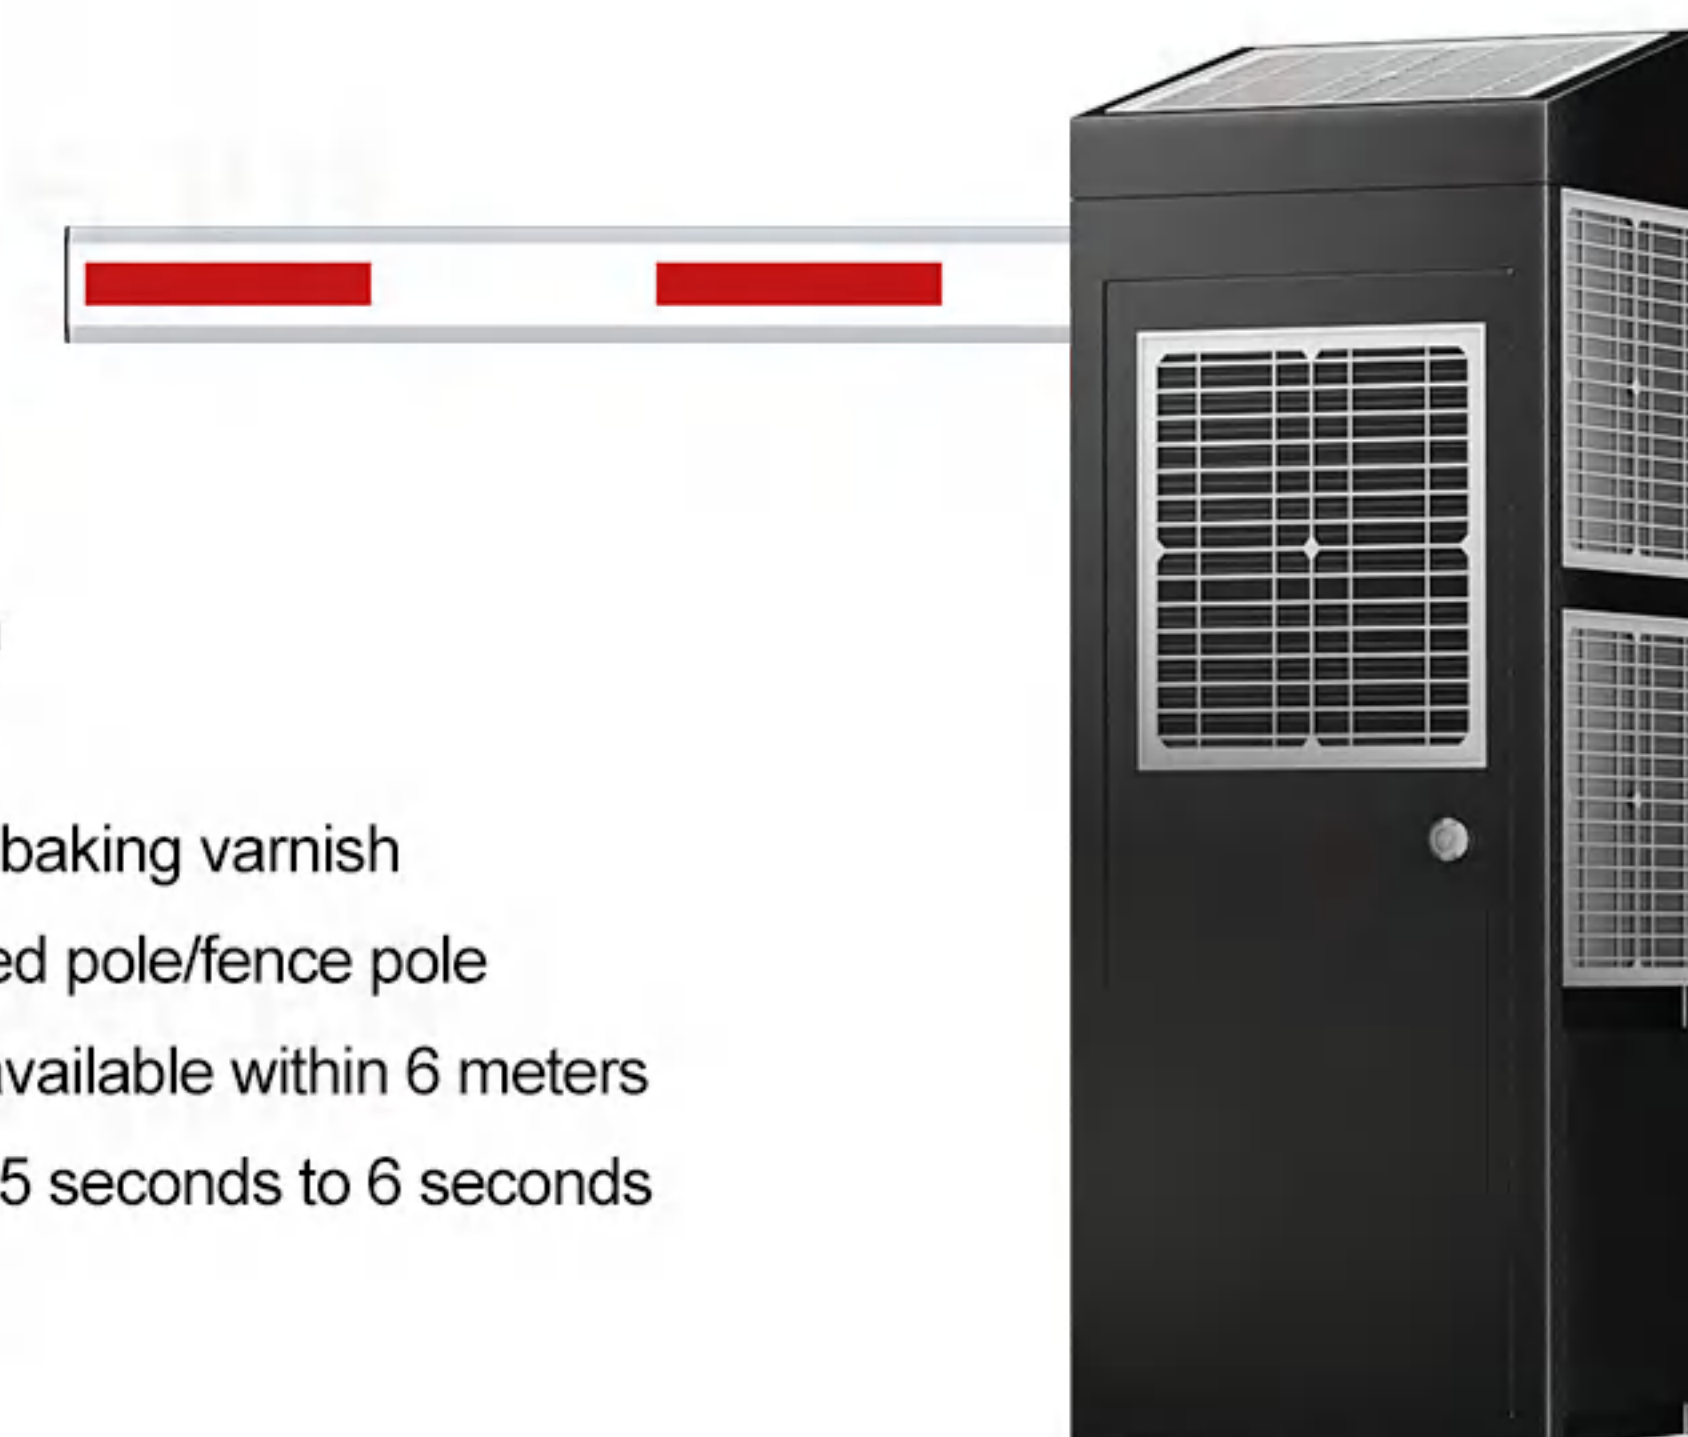

Functional characteristics :

- ◆ Digital chip technology, anti-crushing, ground sensing and IC interface are integrated into one.
- ◆ It has good stability and a low probability of misoperation.
- ◆ It is specially equipped with a delay protection function and has dual control effects.
- ◆ Lifting timeout and motor overheating protection to prevent abnormal damage to the turnstile.
- ◆ The original imported high-power motor ensures the reliable operation of the barrier gate.
- ◆ Original imported photoelectric isolation protection circuit ensures the integrity of the signal.
- ◆ Integrate a high-performance wireless remote control receiving module to ensure stability.
- ◆ The unique arc extinguishing processing circuit ensures the service life of the control board.
- ◆ Transformers with original imported magnetic cores can operate stably in different environments.

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Solar barrier gate
- ◆ Product Model: SWS-DZXL11
- ◆ Product size: 380*390*1070mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: High-temperature baking varnish
- ◆ Pole type: Straight pole/curved pole/fence pole
- ◆ Length of the pole: Customization is available within 6 meters
- ◆ Recognition speed: Adjustable from 1.5 seconds to 6 seconds
- ◆ Remote control: Within 30 meters

Advertising barrier gate

Unattended / Intelligent payment / Safety and anti-smashing

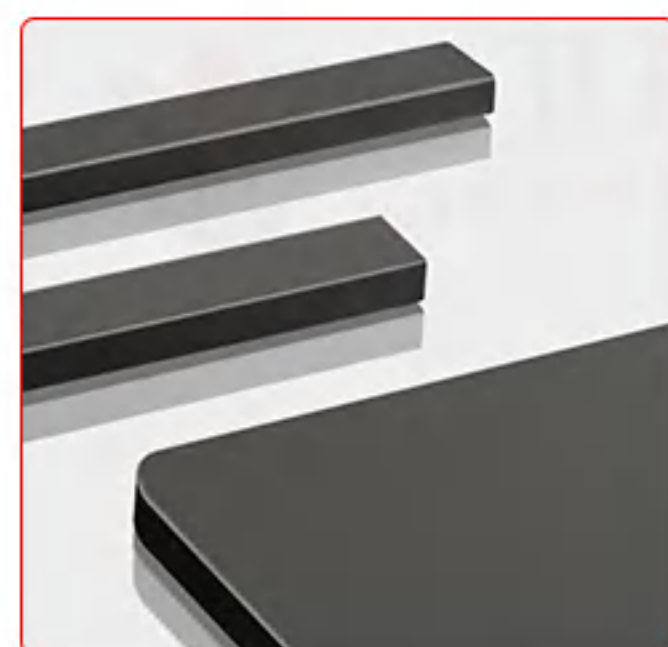

Functional characteristics :

- ◆ High-power DC motor
- ◆ It takes 1.5 to 6 seconds to raise and lower the pole
- ◆ Double-sided advertising display board
- ◆ Waterproof and heat-resistant
- ◆ Special wireless remote control
- ◆ Rebound protection upon encountering obstacles
- ◆ Thickened high-temperature baked paint chassis
- ◆ Support remote control for opening and closing
- ◆ A stable and windproof large base
- ◆ It can be linked with license plate recognition
- ◆ Support offline operation
- ◆ Support multi-functional customization

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Advertising barrier gate
- ◆ Product Model: SWS-GGDZXJ05
- ◆ Product size: 450*320*1165mm
- ◆ Case material: Cold-rolled sheet
- ◆ Product technology: Baking varnish
- ◆ Protection grade: IP44
- ◆ Chassis power: 200W
- ◆ Recognition speed: 1.5S~6S Adjustable
- ◆ Remote control: Within 30 meters
- ◆ Height from the ground: 1095mm
- ◆ Product height limit: 950mm + Rod length

Intelligent barrier gate series

Product Name: **Airborne Barrier Gate**

Product Model: **SWS-SJZXL10**

Product characteristics :

Movement characteristics

The high-load bearing with a seat makes the mechanism part more stable, and the installation and debugging are more convenient and fast. The highly sensitive limit switch can instantly control the lifting and lowering of the rod, achieving accurate positioning

Safety function

Ground sensor anti-crushing: During the descent of the barrier, if it receives a ground sensor signal, it will automatically lift the barrier. The barrier will not fall during the triggering period. Once the ground sensor signal is restored, the barrier will automatically fall

 Remote control within 30 meters

 Ground sensing anti-crushing function

 High-power motor, stable and non-wobbling rod

Control system

Adopting digital chip technology, it integrates anti-crushing, ground sensing and IC interface into one, featuring excellent stability and a zero probability of false movement. It is specially equipped with a delay protection function, providing dual control effects

Control performance

It adopts a highly sensitive limit switch to accurately control the lifting and lowering of the barrier in an instant. It features a manual barrier opening mechanism. In case of power failure, the barrier can be automatically raised and lowered through the motor handwheel

Multiple styles, customization supported :

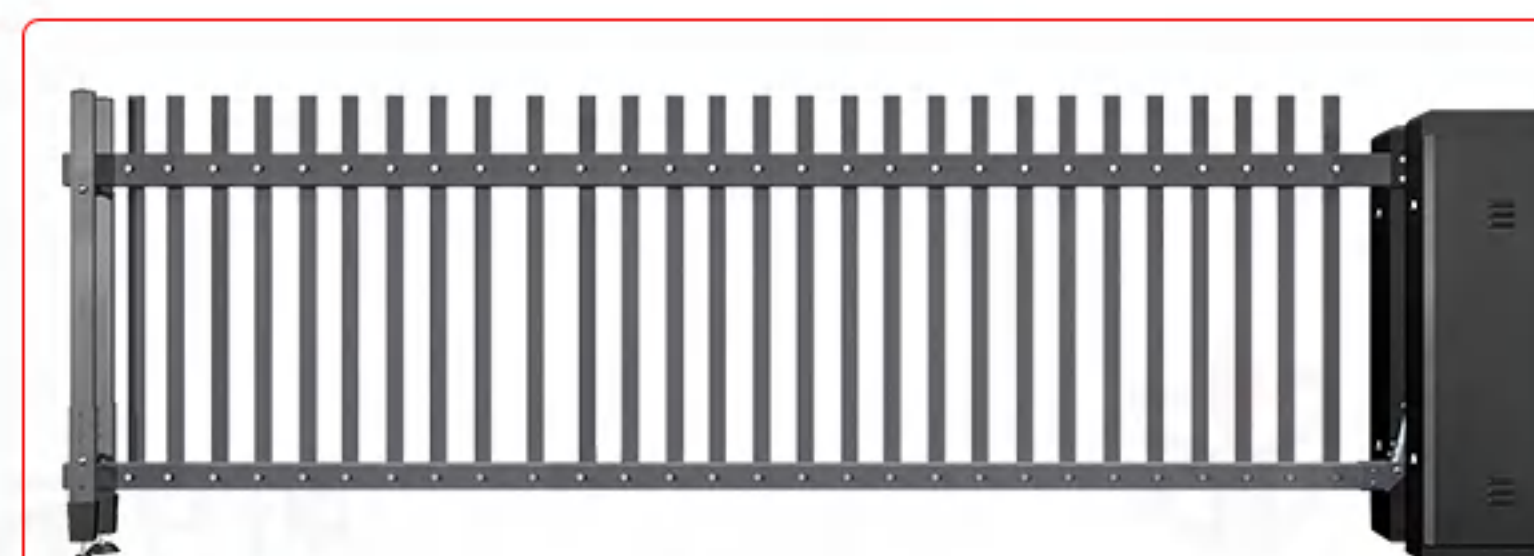

Yellow and black style

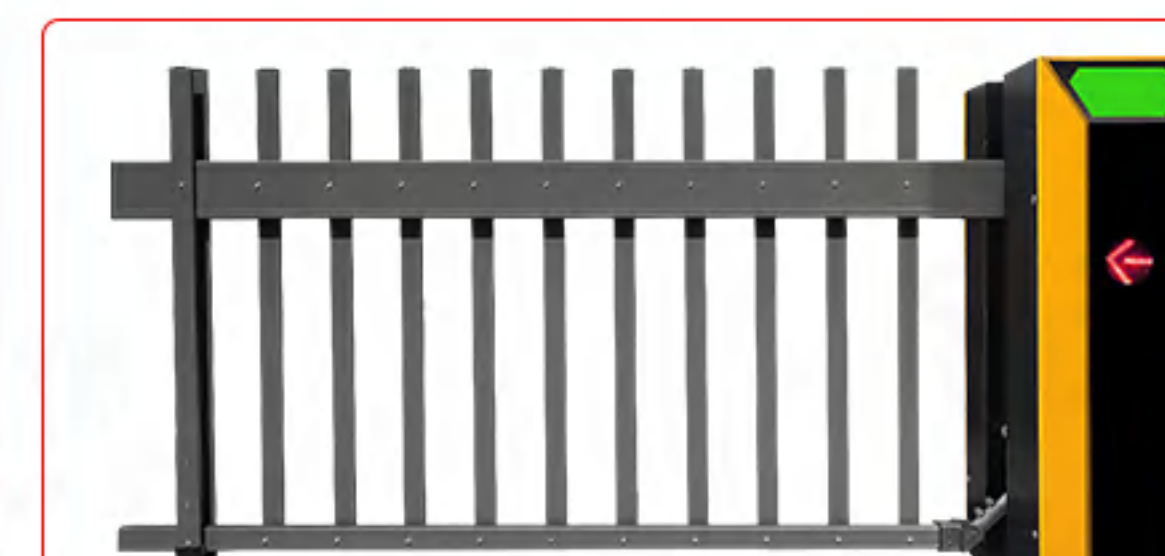

Blue and white style

Red and black style

Fence style

Indicator light style

Hydraulic bollards series

Product Name: Hydraulic bollards
Product Model: SWS-SJZ001

Product parameters :

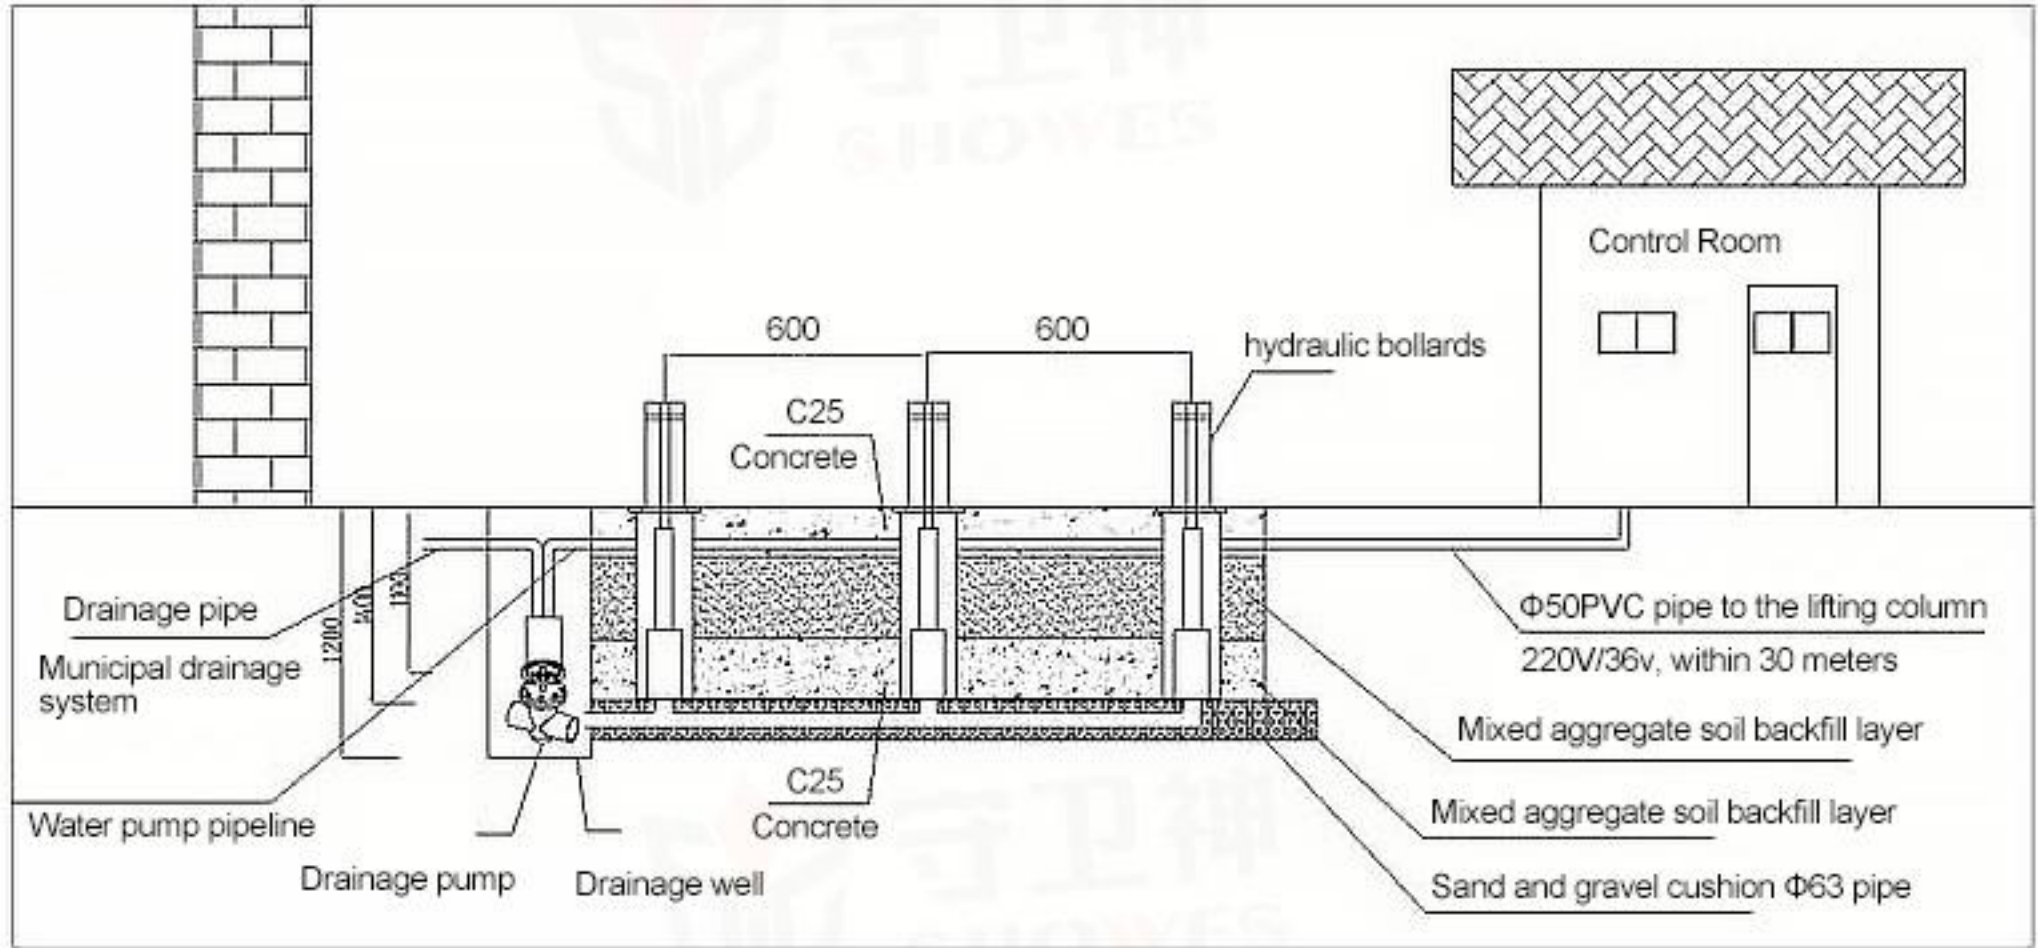

- ◆ System control: Hydraulic bollards
- ◆ Column diameter: 219mm
- ◆ Rising height: 600mm
- ◆ Column thickness: 12mm
- ◆ Product material: 304 Stainless steel
- ◆ Pre-buried bucket 340Φ*1070mm
- ◆ Protection grade: IP68
- ◆ Through pressure: 50 tons
- ◆ Lifting speed: Rise for 4s, fall for 2s
- ◆ Power supply: 220V
- ◆ Working temperature: -35℃ to 75℃
- ◆ Storage environment: -10℃ to 65℃
- ◆ Anti-collision ability: Impact at 65km/h
- ◆ Control mode: Wireless remote control
- ◆ Installation method: Vertical/hanging type

Product Introduction :

The B1 anti-riot type hydraulic bollards is a product with high anti-collision performance standards developed in accordance with the requirements of the barrier blocking capacity grade stipulated in the "Anti-Riot Lifting Vehicle Barrier" GA/T1343-2016 issued by the Ministry of Public Security of the People's Republic of China. The column body of the B1 hydraulic bollards is made of 304 stainless steel seamless pipe, with a wall thickness of 12mm and a column length of 850mm. The length of the inner structure anti-collision and wear-resistant sleeve is 230mm.

Swing turnstile series

Product parameters :

- ◆ It has self-checking for faults and alarm prompts, which is convenient for users to maintain and use.
- ◆ The operating status of the programmable device can be determined through the main control board.
- ◆ The anti-pinch and anti-scratch functions of the mechanical structure.
- ◆ Anti-collision function: When no opening signal is received, the swing arm automatically locks.
- ◆ The wing plates are synchronously adjustable (for double pendulum situations).
- ◆ It has an automatic reset function.
- ◆ It can be adjusted to be normally open or normally closed to meet the requirements of different venues.
- ◆ It can be connected to various card reading devices and work by receiving relay switch signals.
- ◆ It can control the entry and exit of personnel in one direction or both directions.
- ◆ Remote control and management can be directly achieved through the management computer.
- ◆ Delayed automatic reset, with the standard being automatic reset within 5 seconds after activation.
- ◆ The swing arm automatically deploys when power is cut off, meeting fire protection requirements.
- ◆ Sound and light alarm function, including illegal intrusion alarm, reverse intrusion alarm, etc.
- ◆ Counting function (optional)
- ◆ Anti-pinch function (3 pairs of infrared)
- ◆ Voice output, humanized prompt for correct passage (optional)

Optional
Acrylic swing arm

Prevent pinching injuries

Swing turnstile series

Product Name: **Flap turnstile**

Product Model: **SWS-TDZXL01**

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product name: Flap turnstile
- ◆ Product model: SWS -TDZXL01
- ◆ Product material: 304 stainless steel
- ◆ Product size: 1200*300*980mm
- ◆ Passage speed: 30-40 people per minute
- ◆ Road width: 550mm (customizable)
- ◆ Gate opening and closing time: 1-2 seconds
- ◆ Production process: CNC laser cutting
- ◆ Drive motor: DC brushless/brushed motor (24V)
- ◆ Input interface: Dry contact signal or 12V level signal
- ◆ Communication interface: RS485

Multiple styles, customization supported :

Elliptical flap turnstile

Heavy-duty flap turnstile

Small flap turnstile

Swing turnstile series

Product Name: **Swing turnstile**
Product Model: **SWS-TDZXL06**

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product name: Swing turnstile
- ◆ Product model: SWS-TDZXL06
- ◆ Product material: 304 stainless steel
- ◆ Product size: 1200*200*980mm
- ◆ Passage speed: 30-40 people per minute
- ◆ Road width: 600-1300mm (customizable)
- ◆ Gate opening and closing time: 1-2 seconds
- ◆ Production process: CNC laser cutting
- ◆ Drive motor: Dc brushed motor (24V)
- ◆ Transmission Angle: 180 degrees
- ◆ Communication interface: RS485

Speed gate series

Product Name: **Speed gate**

Product Model: **SWS-TDZXL09**

Product parameters :

- ◆ Product material: 304 Stainless steel
- ◆ Product size: 1400*120*980mm
- ◆ Passage width: 600mm (customizable)
- ◆ Working voltage: AC220±10%V 50±10%HZ
- ◆ Operation mode: Card / facial recognition
- ◆ Switching speed: 1~2S
- ◆ Movement: Anti-collision movement
- ◆ Passage speed: 30-40 people per minute
- ◆ Protection grade: IP44
- ◆ Environment: Indoor and outdoor
- ◆ Temperature: -10 °C to 50 °C

Product Name: **Speed gate**

Product Model: **SWS-TDZXL07**

Product parameters :

- ◆ Product material: 304 Stainless steel
- ◆ Product size: 1400*120*980mm
- ◆ Passage width: 600mm (customizable)
- ◆ Working voltage: AC220±10%V 50±10%HZ
- ◆ Operation mode: Card / facial recognition
- ◆ Switching speed: 1~2S
- ◆ Movement: Anti-collision movement
- ◆ Passage speed: 30-40 people per minute
- ◆ Protection grade: IP44
- ◆ Environment: Indoor and outdoor
- ◆ Temperature: -10 °C to 50 °C

Tripod turnstile series

Product Name: **Tripod turnstile**

Product Model: **SWS-TDZXL10**

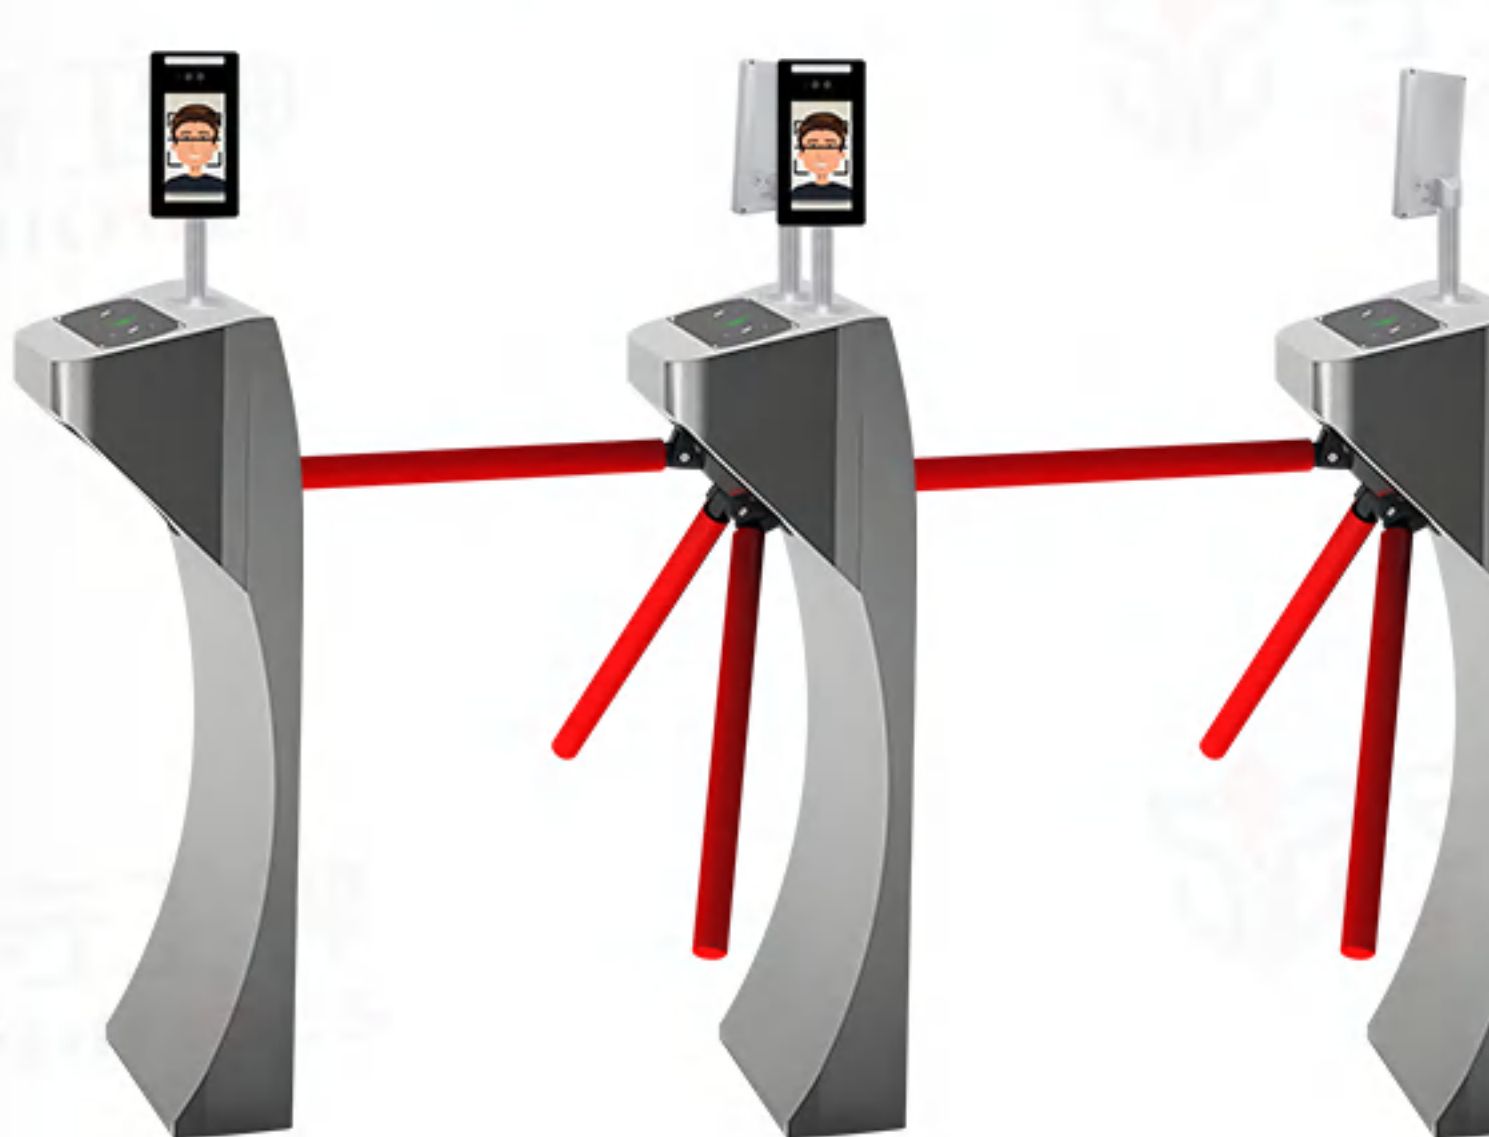

Product parameters :

- ◆ Product material: 304 Stainless steel
- ◆ Product size: 1200*280*980mm
- ◆ Passage width: 600mm (customizable)
- ◆ Working voltage: AC220±10%V 50±10%HZ
- ◆ Operation mode: Digital mode
- ◆ Switching speed: 0.2 seconds (manual)
- ◆ Movement: Anti-collision movement
- ◆ Passage speed: 25-35 people per minute
- ◆ Protection grade: IP44
- ◆ Environment: Indoor and outdoor
- ◆ Temperature: -10 °C to 50 °C

Product Name: **Tripod turnstile**

Product Model: **SWS-TDZXL16**

Product parameters :

- ◆ Product material: 304 Stainless steel
- ◆ Product size: 420*330*980mm
- ◆ Passage width: 600mm (customizable)
- ◆ Working voltage: AC220±10%V 50±10%HZ
- ◆ Operation mode: Digital mode
- ◆ Switching speed: 0.2 seconds (manual)
- ◆ Movement: Anti-collision movement
- ◆ Passage speed: 30-40 people per minute
- ◆ Protection grade: IP44
- ◆ Environment: Indoor and outdoor
- ◆ Temperature: -10 °C to 50 °C

Face recognition terminal series

Support local storage of a 10,000-person database on the device. (a) Cloud platform devices support simultaneous storage of 50,000 face photos (less than 400KB), 1 million recognition records (0.45KB), and 20,000 on-site snapshot photos. (b) Local area network devices support simultaneous storage of 20,000 face photos (photos calculated as 100KB) and 10,000 recognition records.

The recognition speed is fast. (a) Face tracking and detection takes about 20ms. (b) Face feature extraction takes about 200ms. (c) Face comparison takes 0.2ms(for a 1,000-person database, the average of multiple recognitions is taken) and 0.5ms(for a 10,000-person database, the average of multiple recognitions is taken).

Multiple styles, customization supported :

Facial recognition
Cylindrical style

Facial recognition
Flat style

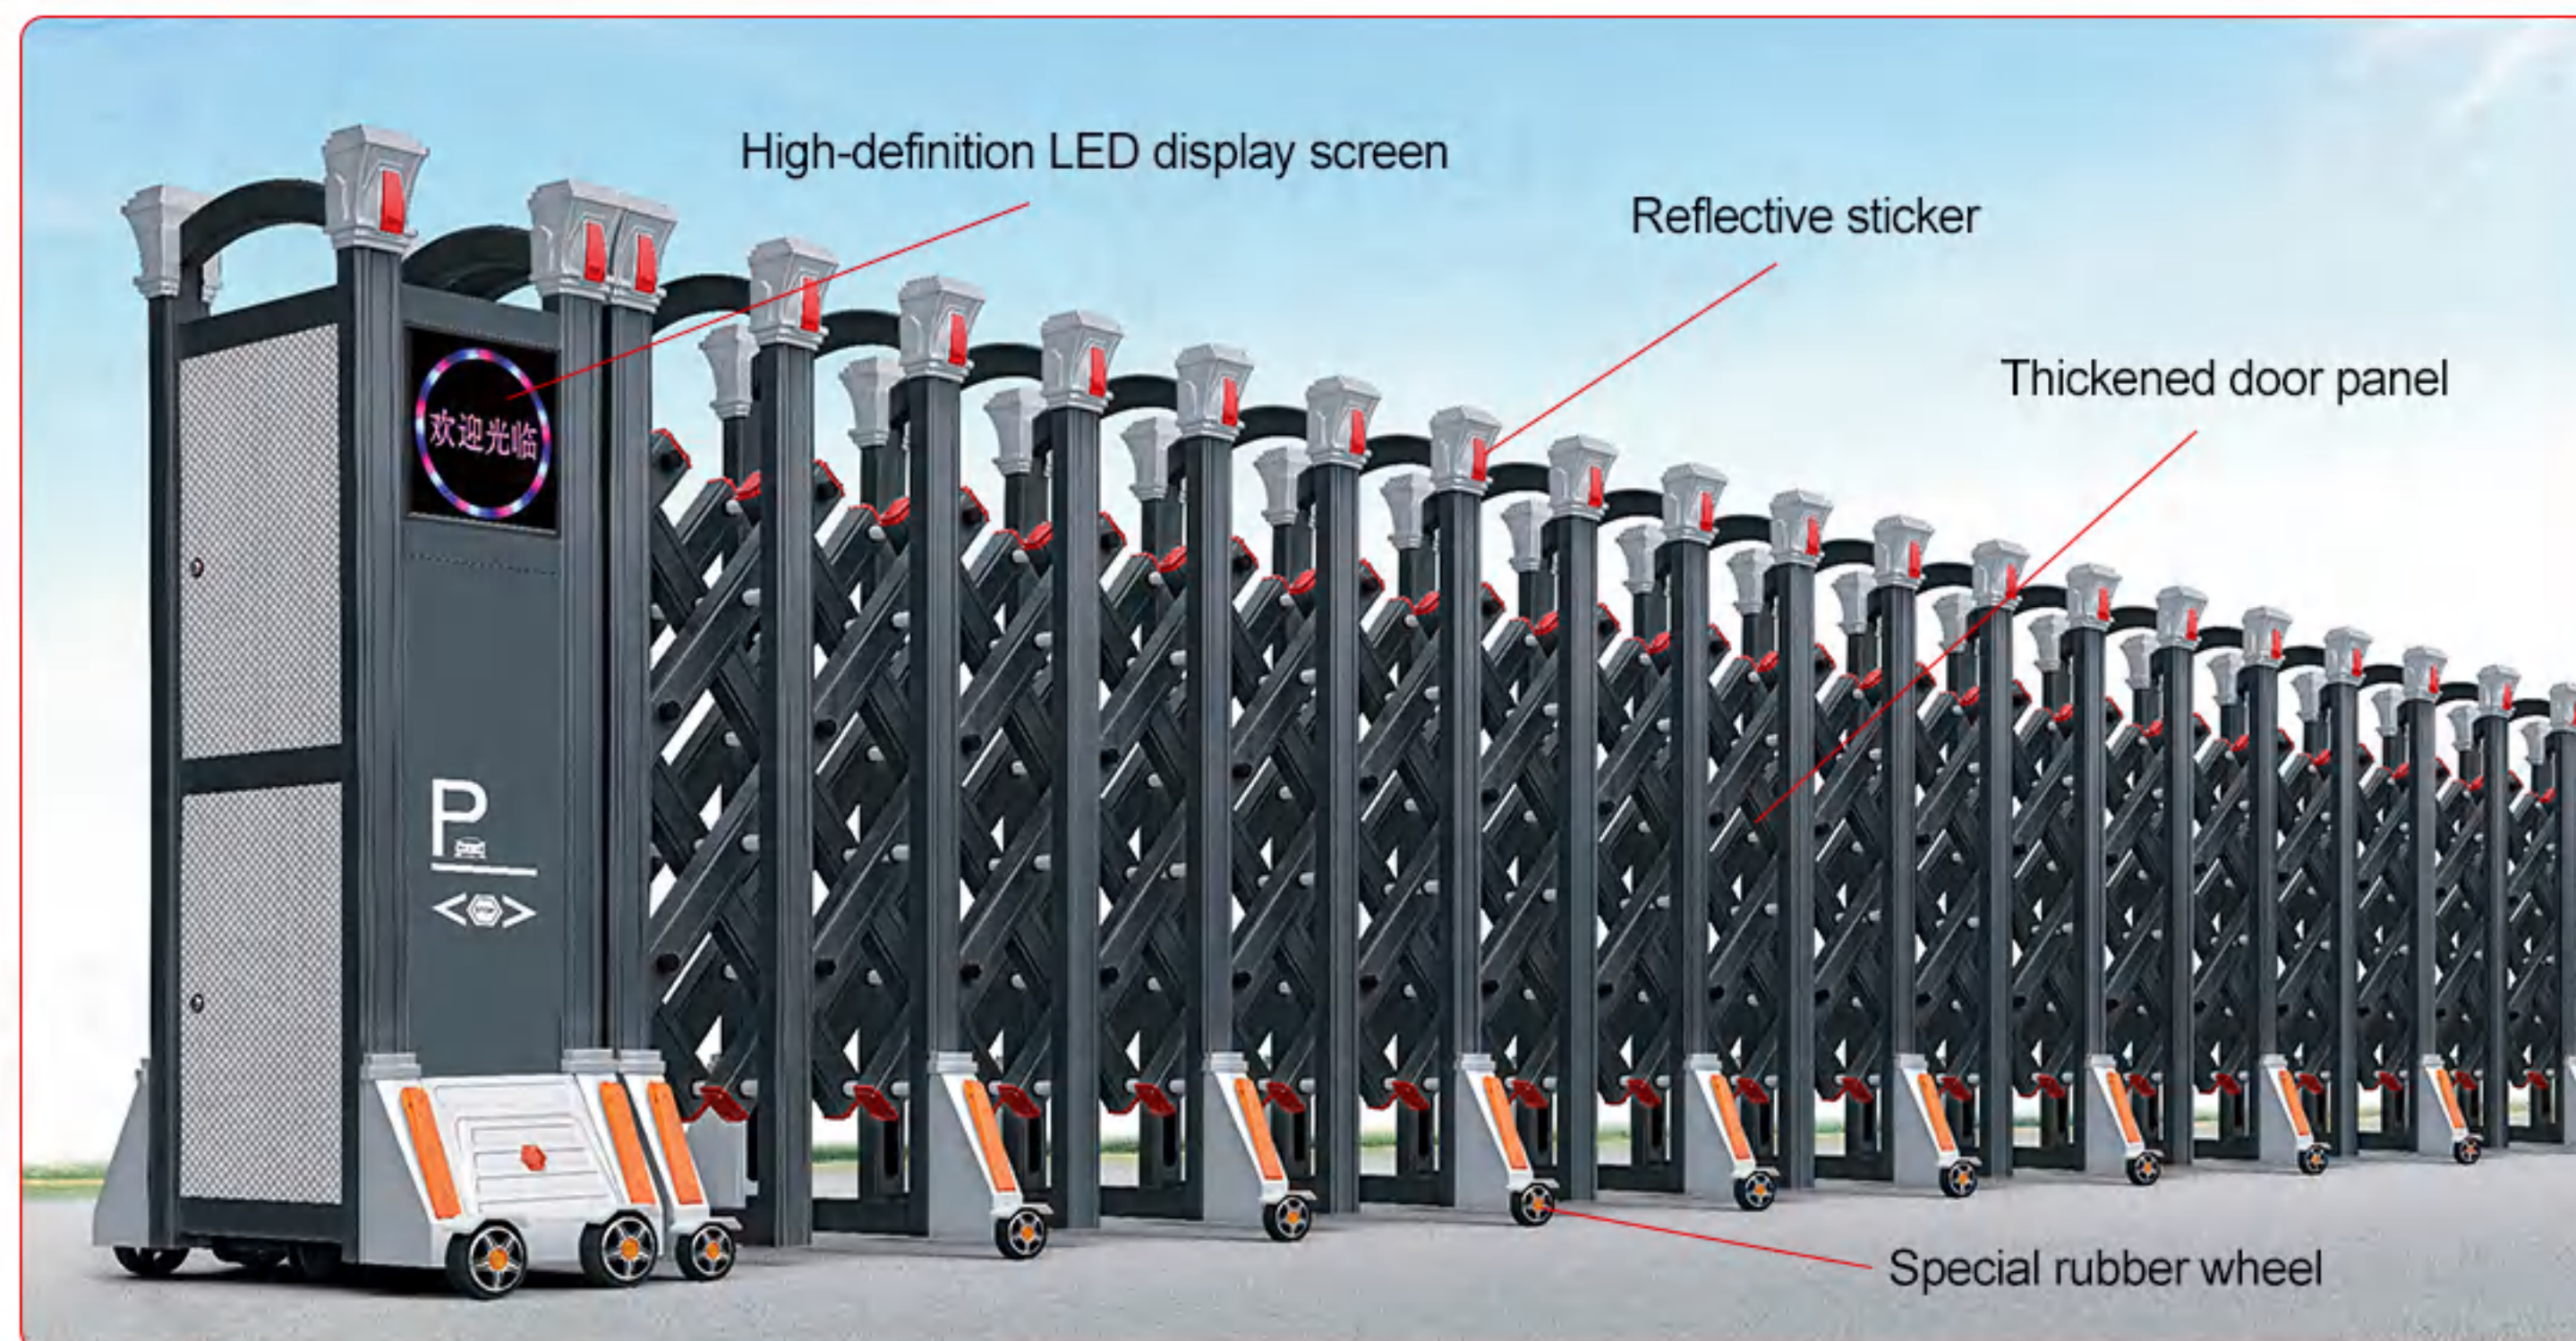

Product parameters :

- ◆ Brand Name: SHOWES
- ◆ Product Name: Face recognition terminal
- ◆ Product size :140*97*437mm
- ◆ Product material: 304 stainless steel
- ◆ Authentication methods: face recognition/card/password
- ◆ Card reading type: IC/NFC/CPU/ ID card
- ◆ Communication method: 100Mbps adaptive network port
- ◆ Lens parameters: 2-megapixel dual-camera
- ◆ Physical interface: RS485 standard
- ◆ Operating system: Embedded Linux operating system
- ◆ Wide dynamic range: Supported

Product Features :

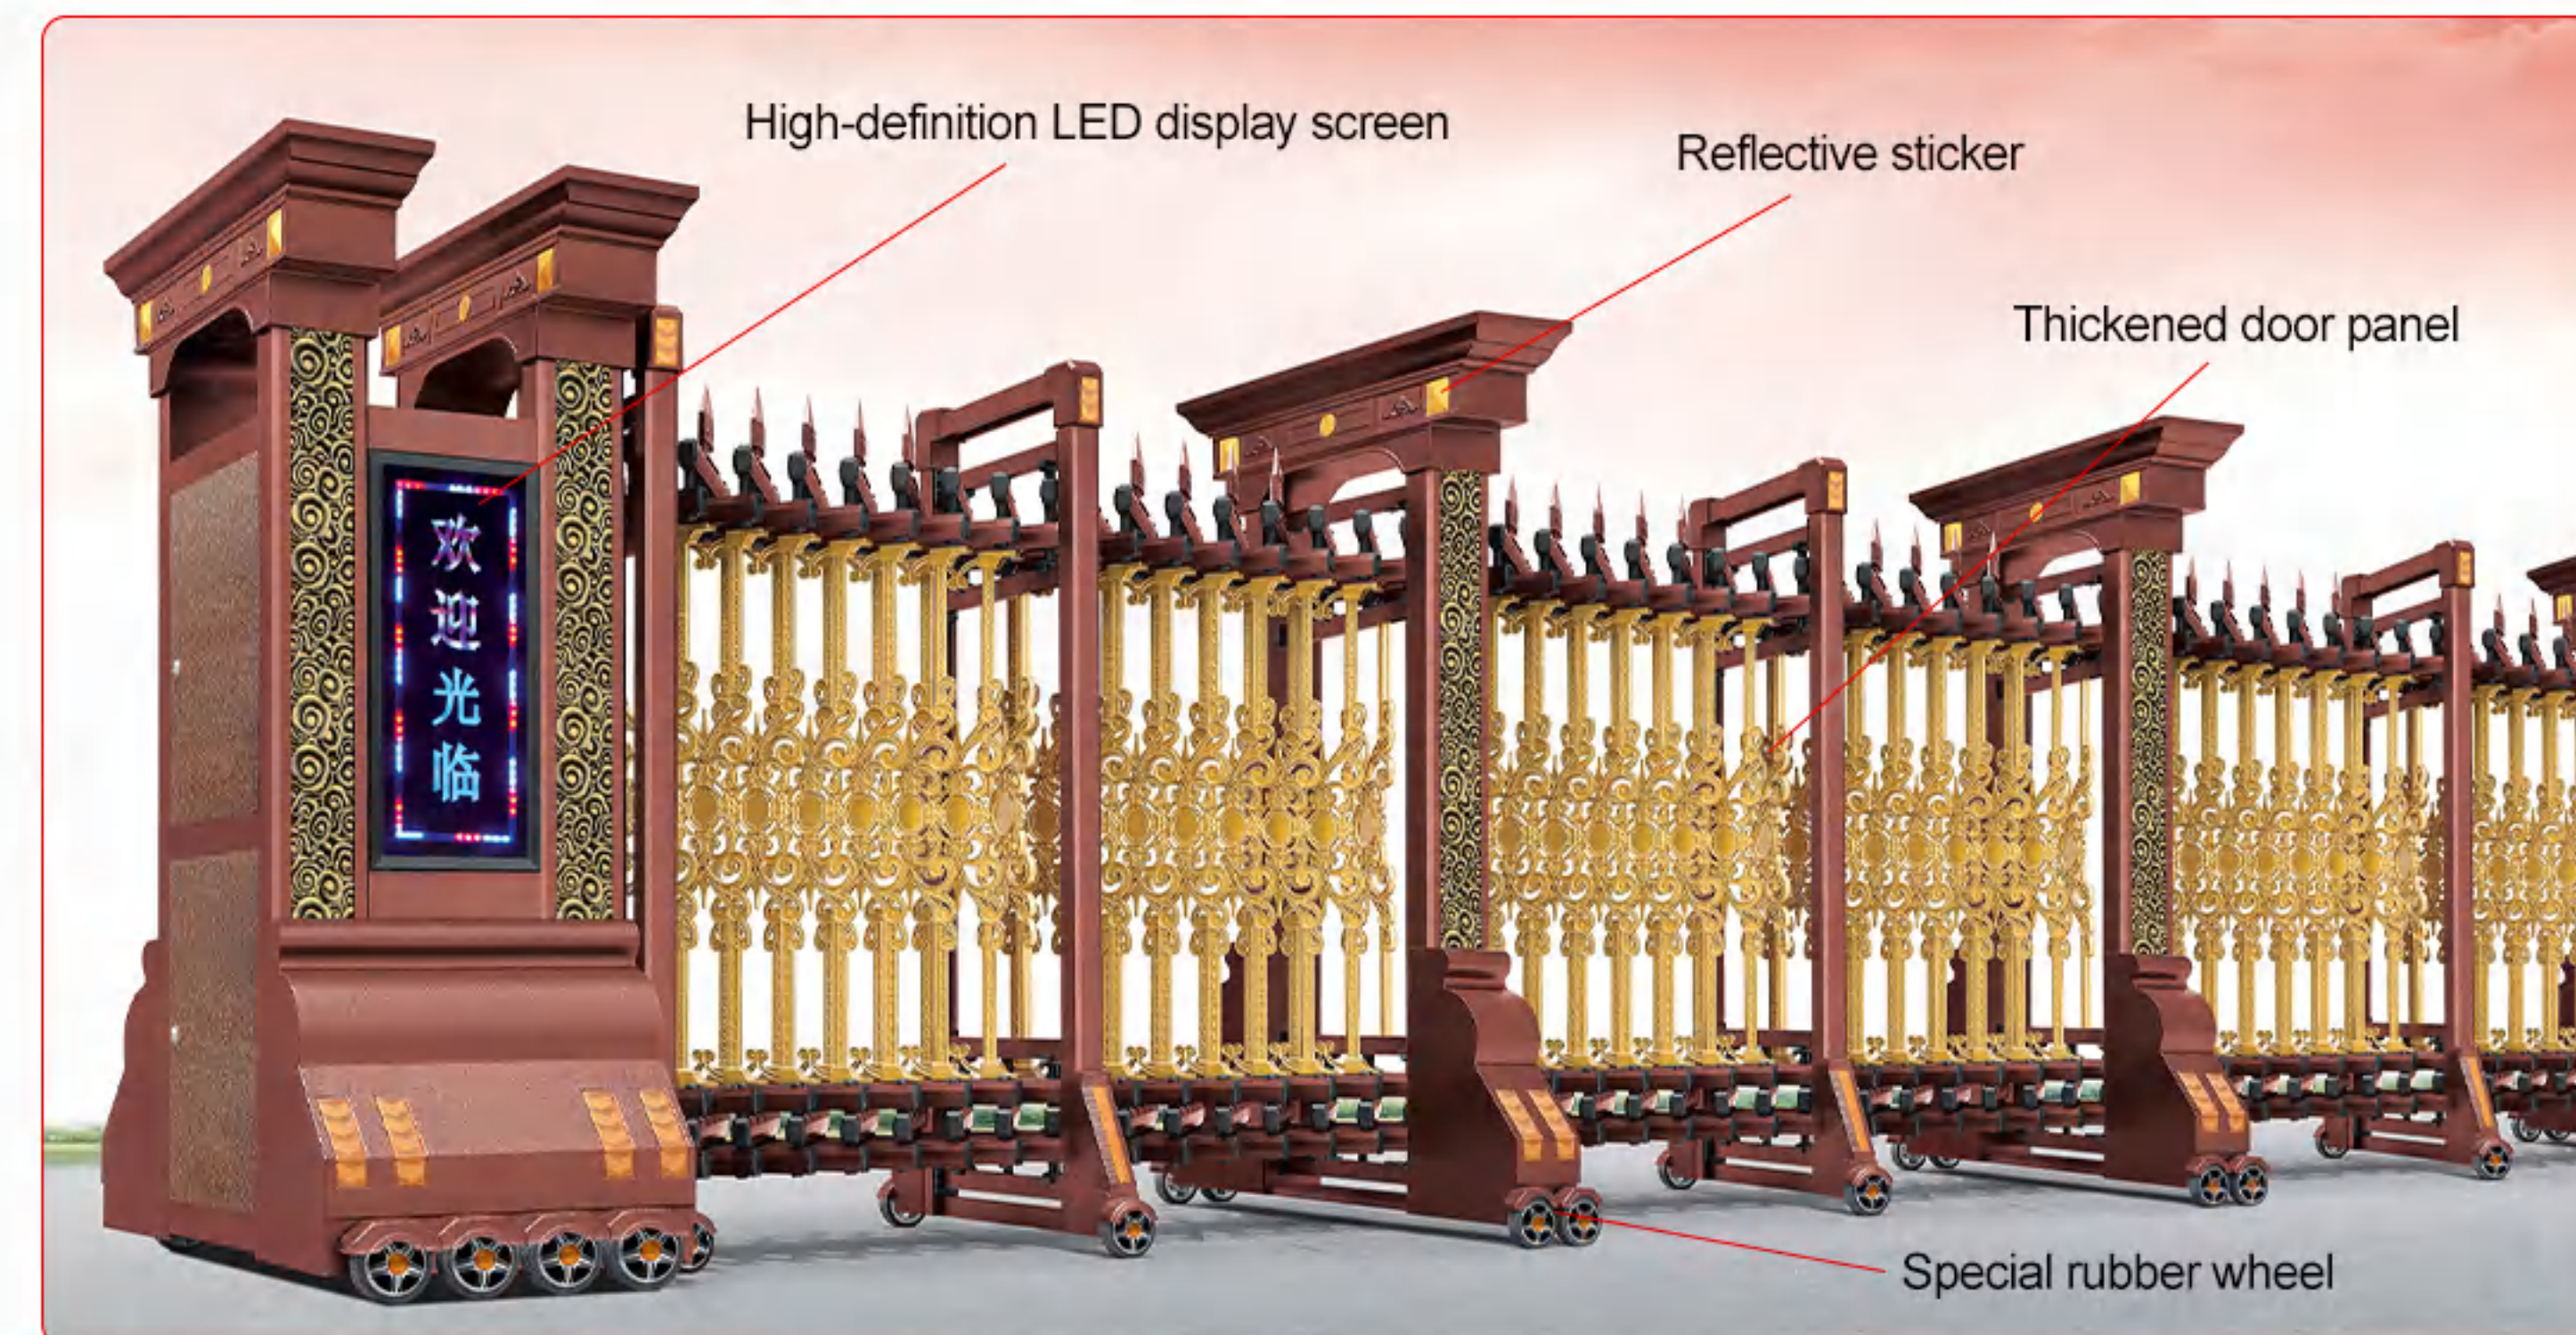

- ◆ Support night supplementary lighting.
- ◆ Based on video stream detection and tracking algorithms.
- ◆ Support stranger detection.
- ◆ Supports a 1:1 person-document comparison mode (optional).
- ◆ Support public network/local area network mode (optional).
- ◆ Support distance recognition configuration.
- ◆ Supports serial port/Wigan 26/34 output and configuration.
- ◆ When the face database is 3000, the accuracy rate is 99.7%.
- ◆ Support the preservation of on-site photos during detection.
- ◆ Support interface connection in HTTP mode.
- ◆ Support the configuration of screen display content.

Product Name: **Aluminum alloy retractable gate**

Product Model: **SWS-SSMYC17030**

 - ◆ Leakage protection setting
 - ◆ Support multi-functional customization

Product Name:

Sliding gate

Product Model:

SWS-ZXMYC0222

Product Material:

Aluminum alloy

Technical parameters

▲ There is a deviation between the parameters and the actual product. Please refer to the actual product.

Bottom beam	Top beam	Column	Door panel	Gantry frame
Aluminum alloy 6005 -T5	Aluminum alloy 6005 -T5	Aluminum alloy 6063 -T5	Aluminum alloy 6063 -T5	Aluminum alloy 6063 -T5
No.1:320x260x7.0 No.2:310x208x7.0 No.3:240x200x5.0 No.4:213x164x4.5	Numbers 1to 3 99x110x4.0 Numbers 2 to 4: 98x138x4.5	80x90x2.5	50x40x1.0	100x100x2.5

Product Name:

Sliding gate

Product Model:

SWS-ZXMYC0224

Product Material:

Aluminum alloy

Technical parameters

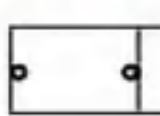

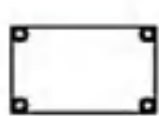

▲ There is a deviation between the parameters and the actual product. Please refer to the actual product.

Bottom beam	Top beam	Column	Door panel	Gantry frame	Operation mode
Aluminum alloy 6005 -T5	Aluminum alloy 6005 -T5	Aluminum alloy 6063 -T5	Aluminum alloy 6063 -T5	Aluminum alloy 6063 -T5	Pulley translation
162x140x3.5	110x99x3.5	80x80x2.5	50x40x1.0	100x100x3.0	

Product Name: Aluminum alloy folding gate
Product Model: SWS-ZDMYC02118

Technical parameters ▲ There is a deviation between the parameters and the actual product. Please refer to the actual product.

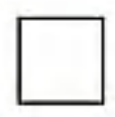

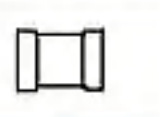

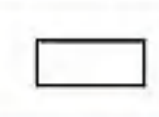

Doorpost	Door frame	Crossbeam	Decoration	Surface	Operation mode	Imported drive	Protection	Opening method	Maximum width
200x200x4.5	100x100x3.0	100x80x3.0	Aluminum alloy	Spraying	Suspended folding	Italy Motor	Infrared beam	Remote control Bluetooth License plate recognition	Double drive 7.0m Single drive 3.8m
									

Warm reminder: For doors over 7 meters in height, it is recommended to use welded door posts (specifications: 350mm, 450mm, 500mm).

Product Name: Aluminum alloy folding gate
Product Model: SWS-ZDMYC02120

Technical parameters ▲ There is a deviation between the parameters and the actual product.

Doorpost	Door frame	Crossbeam	Decoration	Operation mode
200x200x4.5	120x65x3.0	76x25x1.2	Aluminum alloy	Suspended folding
				
Imported drive	Protection	Opening method	Maximum width	Ground clearance

Product Model: SWS-ZDMXZ2301MK
Product parameters (customization supported):
① Vertical frame: 100*91*3.0mm; Horizontal box: 100*82*3.0mm
Vertical pipe: 25*25*1.2mm; Lace: 122*38*1.2mm

Product Model: SWS-ZDMXZ2302MK
Product parameters (customization supported):
② Vertical frame: 120*91*3.0mm; Horizontal box: 120*91*3.5mm
Lace: 122*38*1.2mm

Product Model: SWS-ZDMXZ2303MK
Product parameters (customization supported):
③ Vertical frame 120*65*3.0; Horizontal box: 120*65*3.0
Inner frame: 98*45*1.5 Lace: 122*38*1.2 6.0 Aluminum plate with hollow

Product Model: SWS-ZDMXZ2306MK
Product parameters (customization supported):
① Vertical frame: 100*91*3.0mm; Horizontal box: 100*82*3.0mm
Vertical pipe: 45*32*1.2; Lace: 122*38*1.2mm

Product Model: SWS-ZDMXZ2307MK
Product parameters (customization supported):
② Vertical frame: 120*91*3.0mm; Horizontal box: 120*91*3.5mm
Lace: 122*38*1.2mm

Product Model: SWS-ZDMXZ2308MK
Product parameters (customization supported):
③ Vertical frame 120*65*3.0mm; Horizontal box: 120*65*3.0mm
Inner frame: 98*45*1.5mm; Vertical pipe: 25*25*1.2mm

Product Model: SWS-ZDMXZ2309MK
Product parameters (customization supported):
① Vertical frame: 100*91*3.0mm; Horizontal box: 100*82*3.0mm
Inner frame: 60*30*1.2mm; Vertical pipe: 25*25*1.2mm

Product Model: SWS-ZDMXZ2310MK
Product parameters (customization supported):
② Vertical frame: 120*91*3.0mm; Horizontal box: 120*91*3.5mm
Inner frame: 60*30*1.2mm; Vertical pipe: 25*25*1.2mm

Lifting column series

Product Name: Anti-collision column

Product Model: SWS-FZZ01

Full welding process

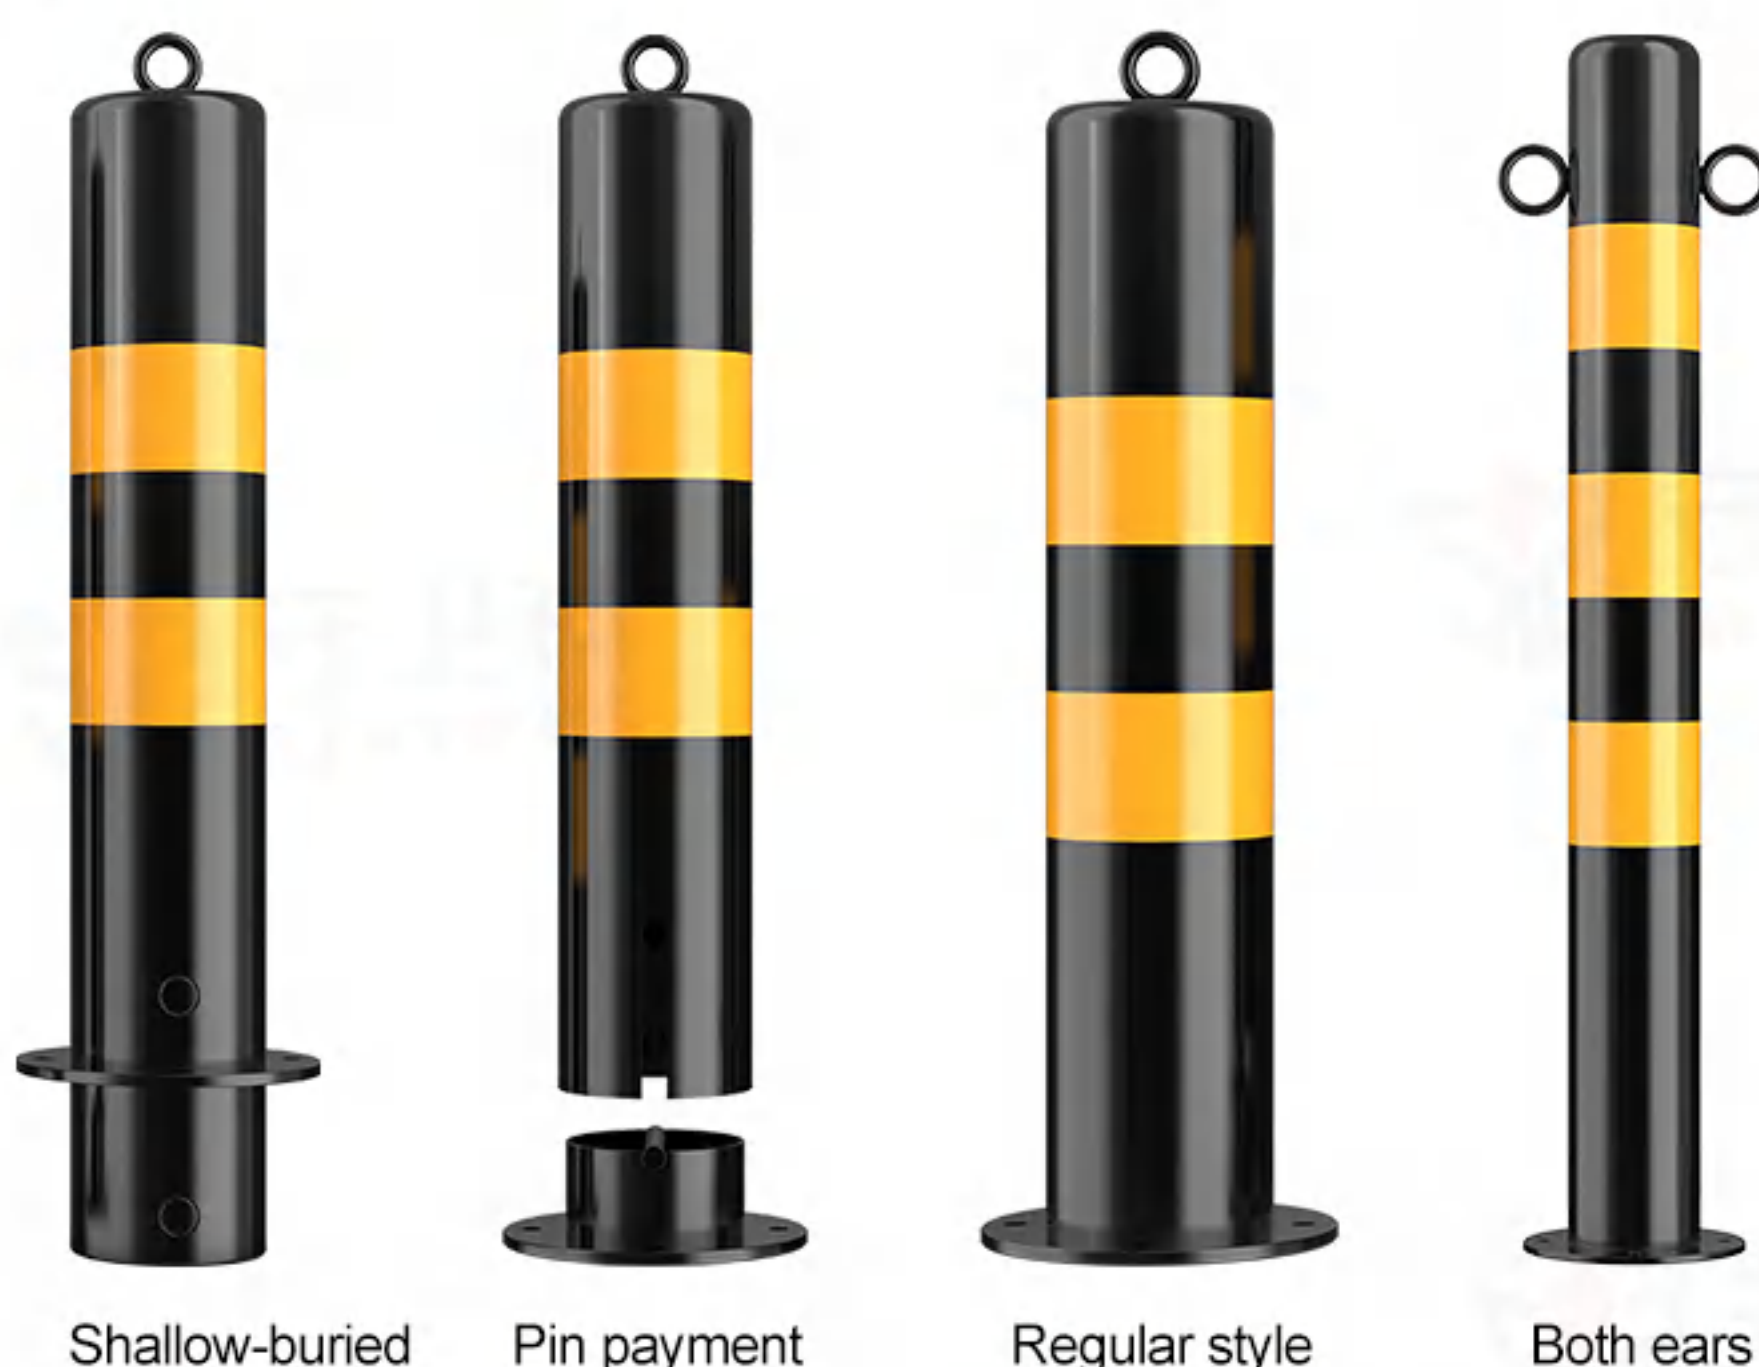

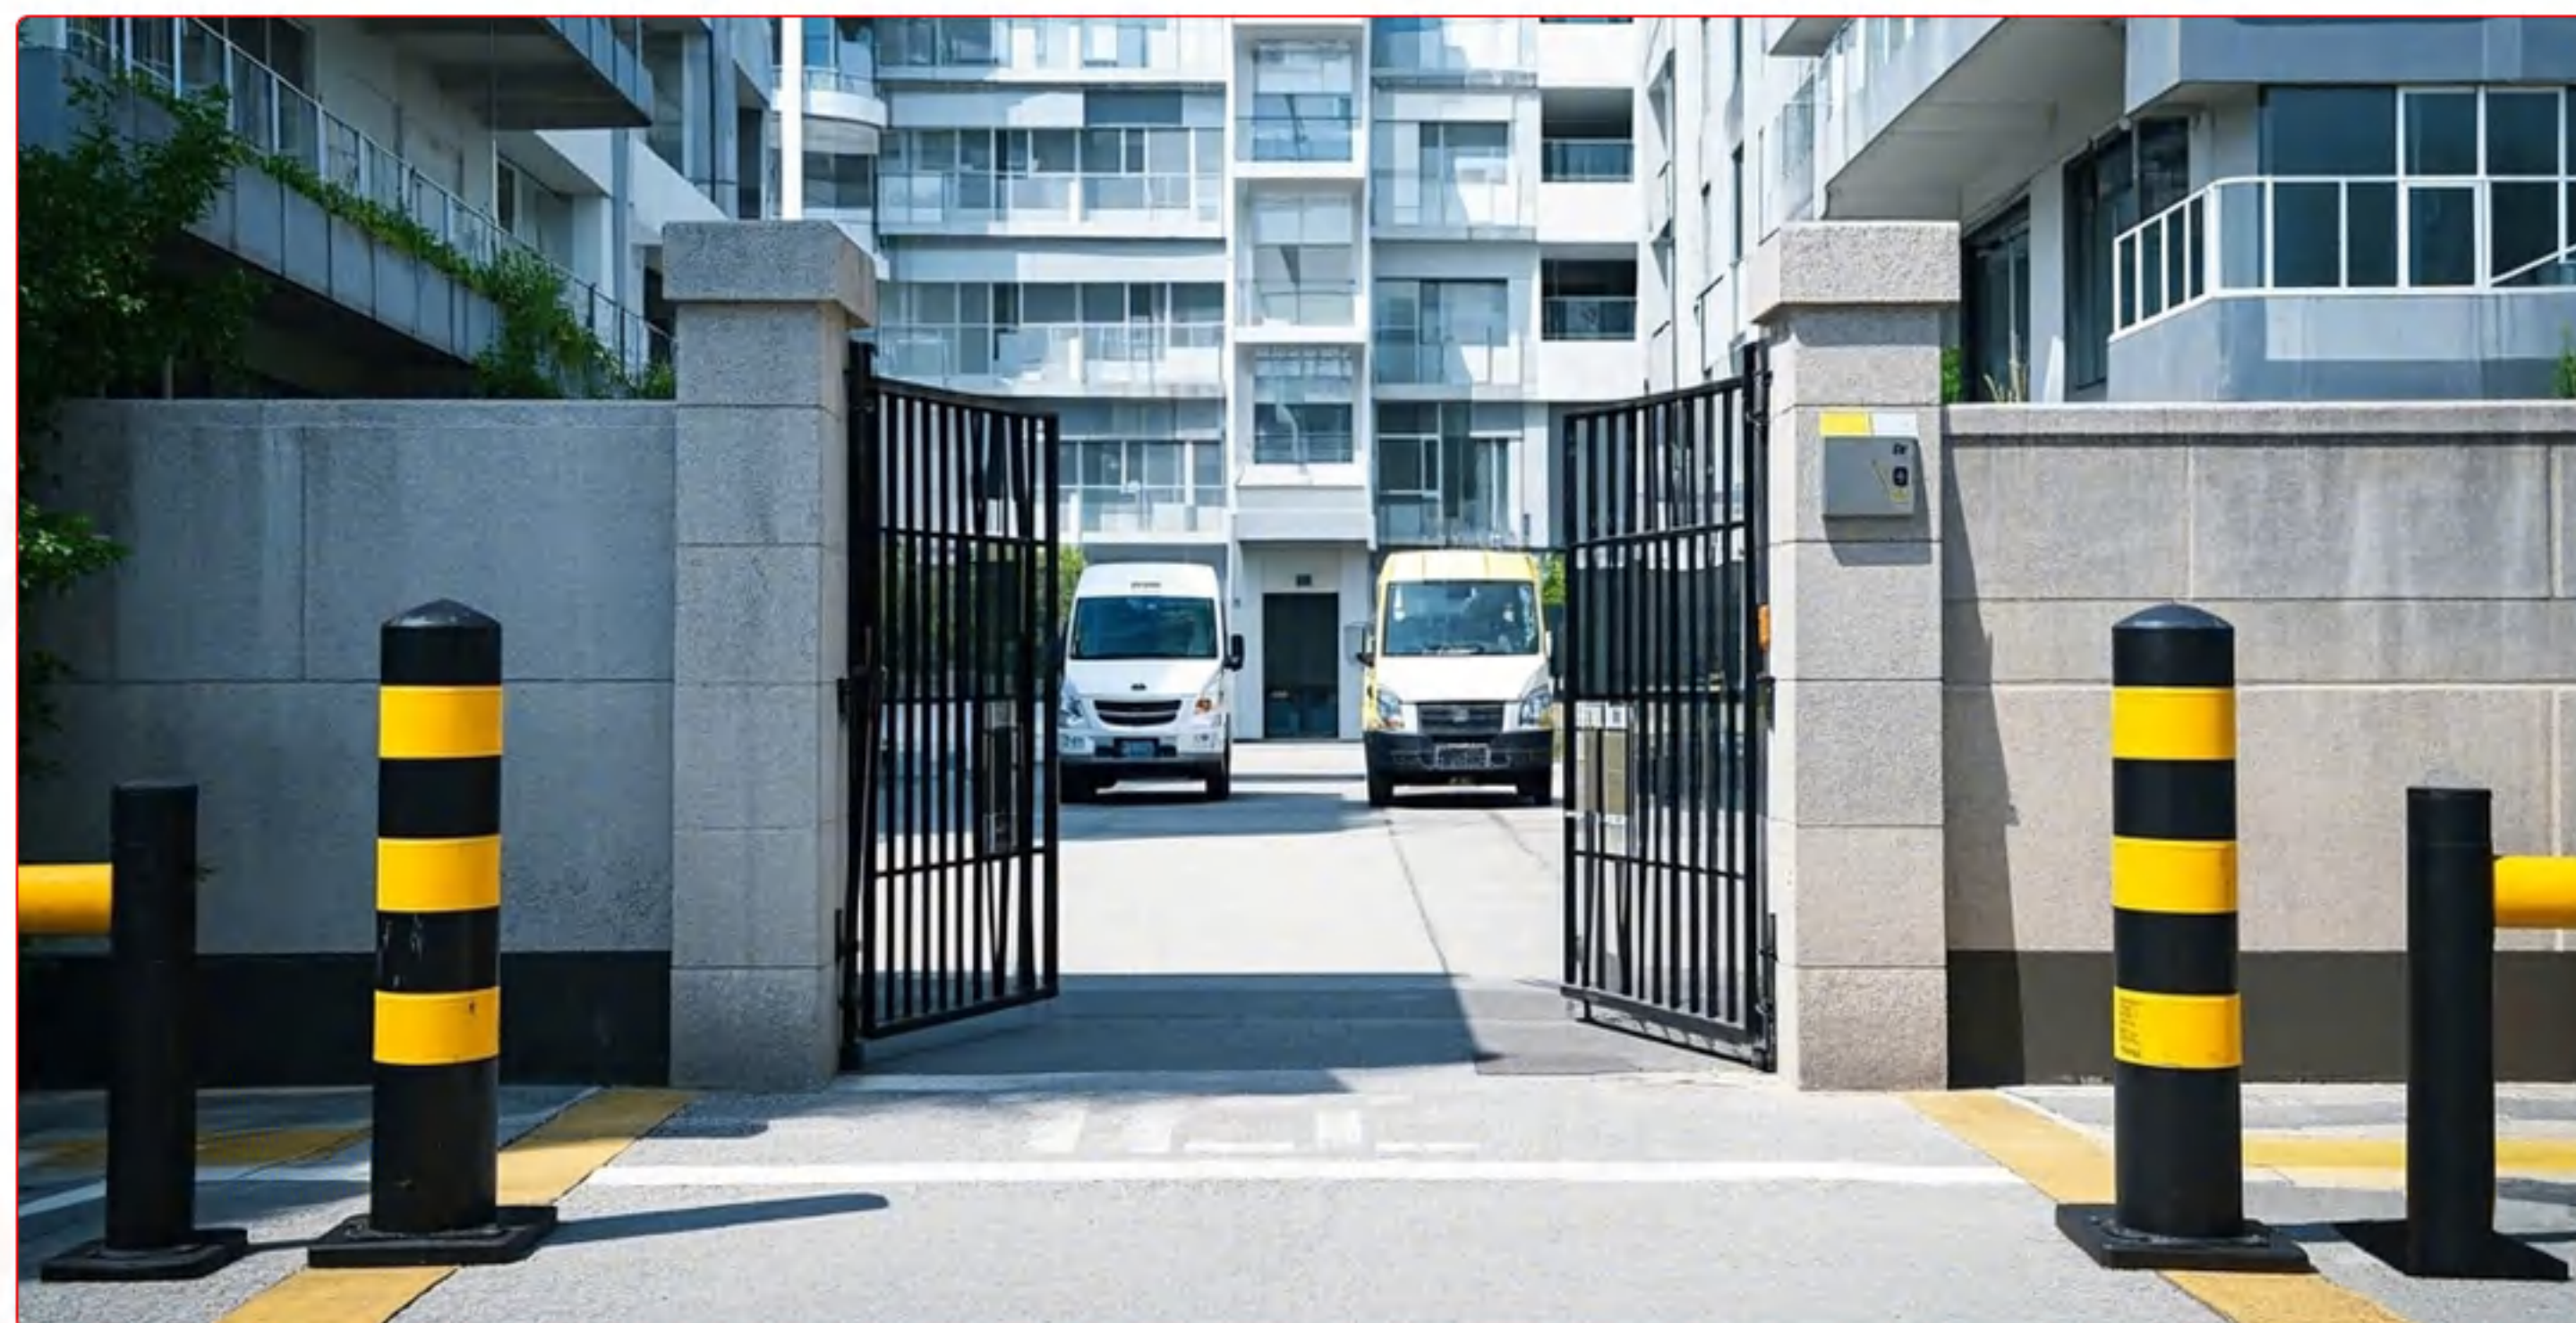

Reinforce the base

Reflective sticker

Customizable

Shallow-buried

Pin payment

Regular style

Both ears

Product parameters :

- ◆ Brand name: SHOWES
- ◆ Product Name: Anti-collision column
- ◆ Product Model: SWS-FZZ01
- ◆ Product size: 500~1200mm
- ◆ Main material: Customizable
- ◆ Reflectance: Reflective film
- ◆ Structure: Square/Circle
- ◆ Product color: Yellow and black
- ◆ Technology: Full welding process
- ◆ Feature: Chains can be erected

Double-layer fire hydrant

Single-layer fire hydrant

Rubber style

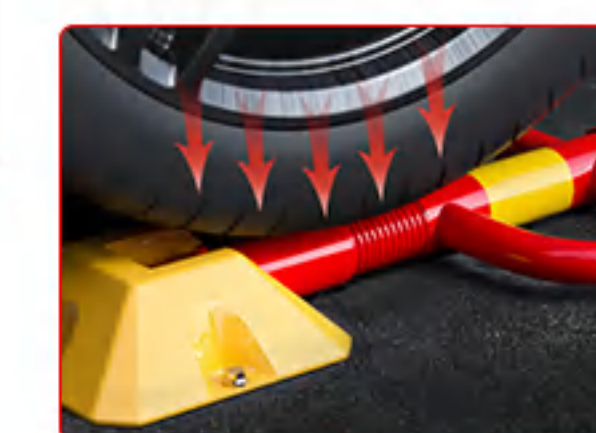

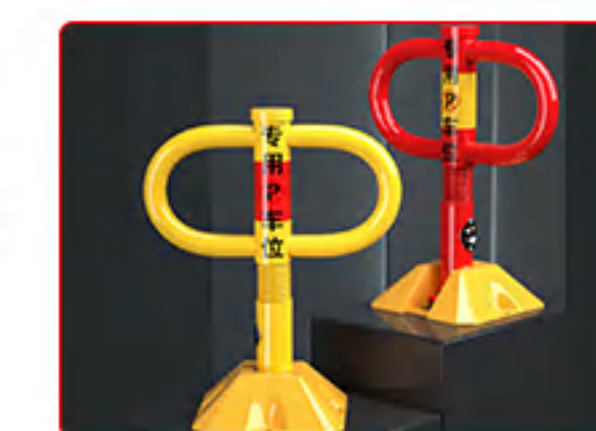

Parking space lock series

Product Name: Butterfly parking lock

Product Model: SWS-CWS01

Product parameters :

- ◆ Product Name: Butterfly Parking Lock
- ◆ Lifting/lowering height: 480*500mm
- ◆ Product size: 480*200*500mm
- ◆ Product color: Red yellow (customizable)
- ◆ Reflective intensity: Engineering-grade reflective tape
- ◆ Rebound ability: Automatic rebound at 30°
- ◆ Compressive strength: Approximately 10 tons
- ◆ Product material: Cold-rolled steel plate
- ◆ Control mode: Remote control/manual
- ◆ Anti-theft mode: Anti-theft lock core
- ◆ Pavement: Epoxy floor/asphalt cement

Multiple styles to choose from :

Round style

Square style

Square with a sign

T-shaped style

Butterfly-shaped style

Circular triangular style

Triangular style

Large chassis model

Product Name: **Replica roadblock machine**
Product Model: **SWS-LZJ01**

sharp tip

The sashimi has a diameter of 30mm and a length of 60mm. The diameter and length can be customized. It is made with full welding technology, which is firm and shockproof

Hydraulic power

The external large hydraulic power unit features abundant power, strong stability and convenient maintenance in the later stage

Thickened material

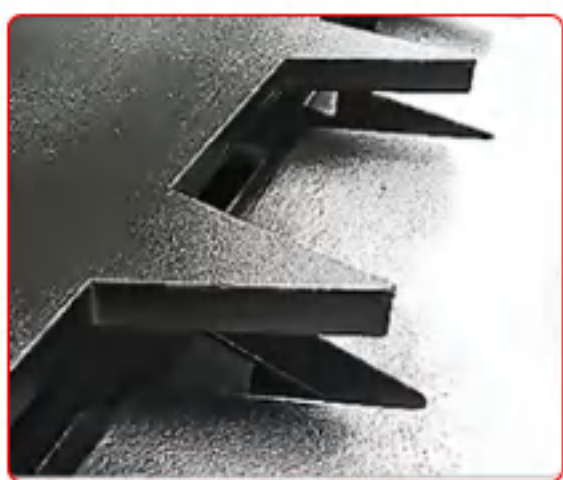

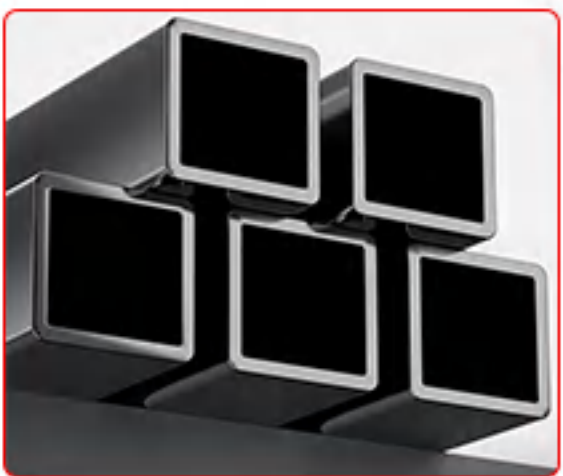

The roadblock machine is welded with A3 carbon steel. It has strong wear resistance and can withstand up to 100 tons as a whole

Reflective film

3M diamond-level reflective film can be pasted inside, and the reflective effect at night can reach over 85%

Product parameters :

- ◆ System control: External hydraulic station
- ◆ Roof plate thickness: 16MM (customizable)
- ◆ Vertical height: 500mm (customizable)
- ◆ Rise and fall: Rise for 2s/Fall for 1.5s
- ◆ Length, width and height: 3000*1000*820mm
- ◆ Effective interception width: 2760mm
- ◆ Operating temperature: -35°C to 75°C
- ◆ Passage pressure: 100T container truck
- ◆ Product colors: Red, white, yellow (customizable)
- ◆ Anti-collision grade: 1000 tons of impact force
- ◆ Control mode: Automatic/manual
- ◆ Protection grade: IP65
- ◆ Standard size: 3000*1000*820mm (customizable)
- ◆ Control module: SCM can be customized with PLC
- ◆ The remote control control range is within 50m
- ◆ Lifting height: 500/600/700mm

Product Features :

Remote control

Electric hydraulic

Reflective sticker

Multi-functional linkage

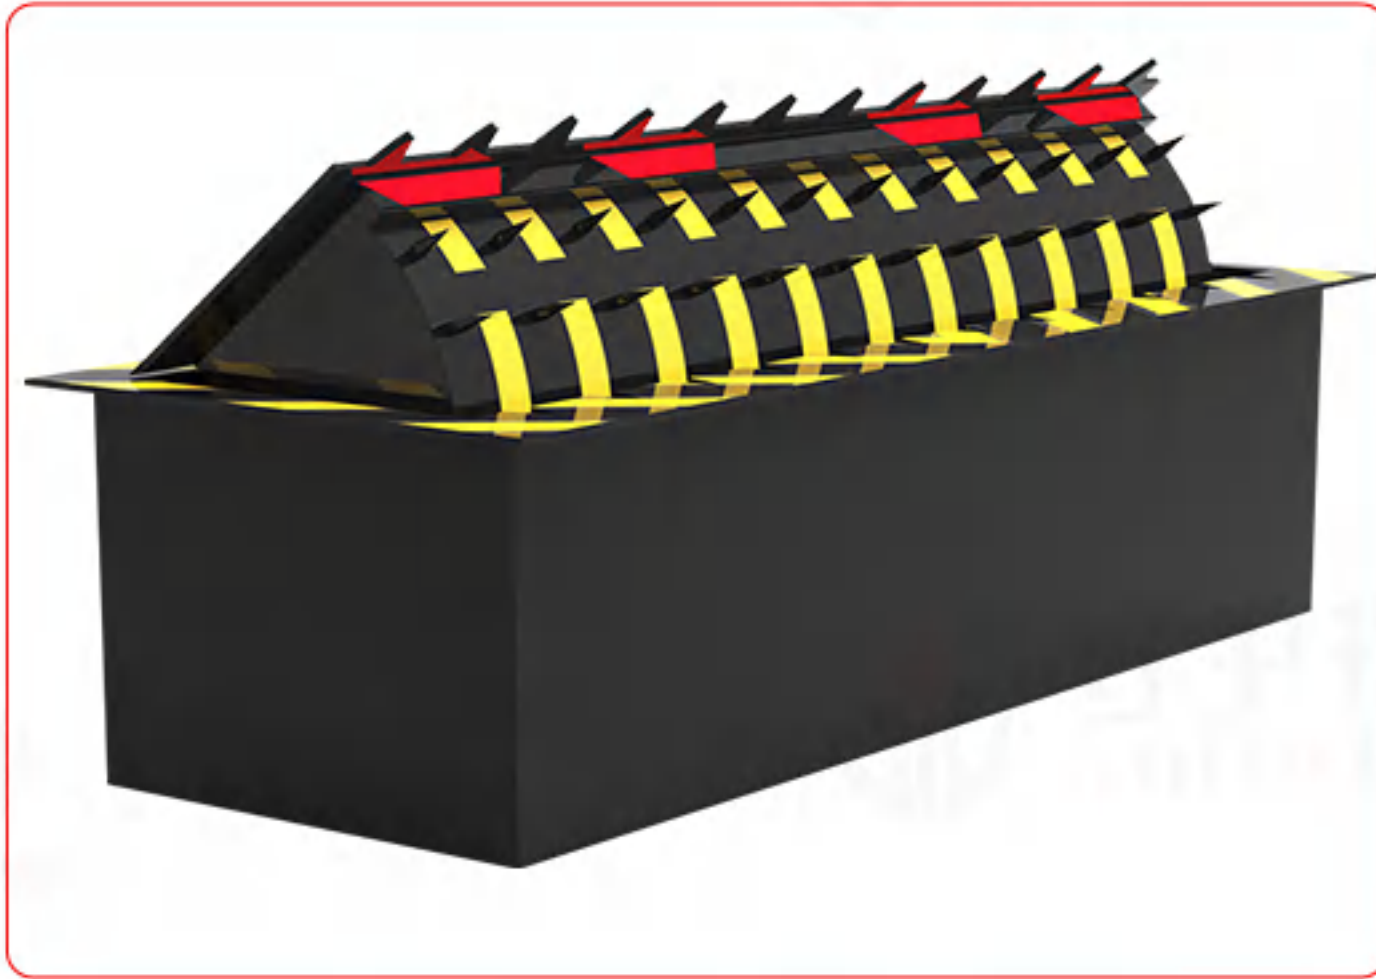

Ground sensing linkage

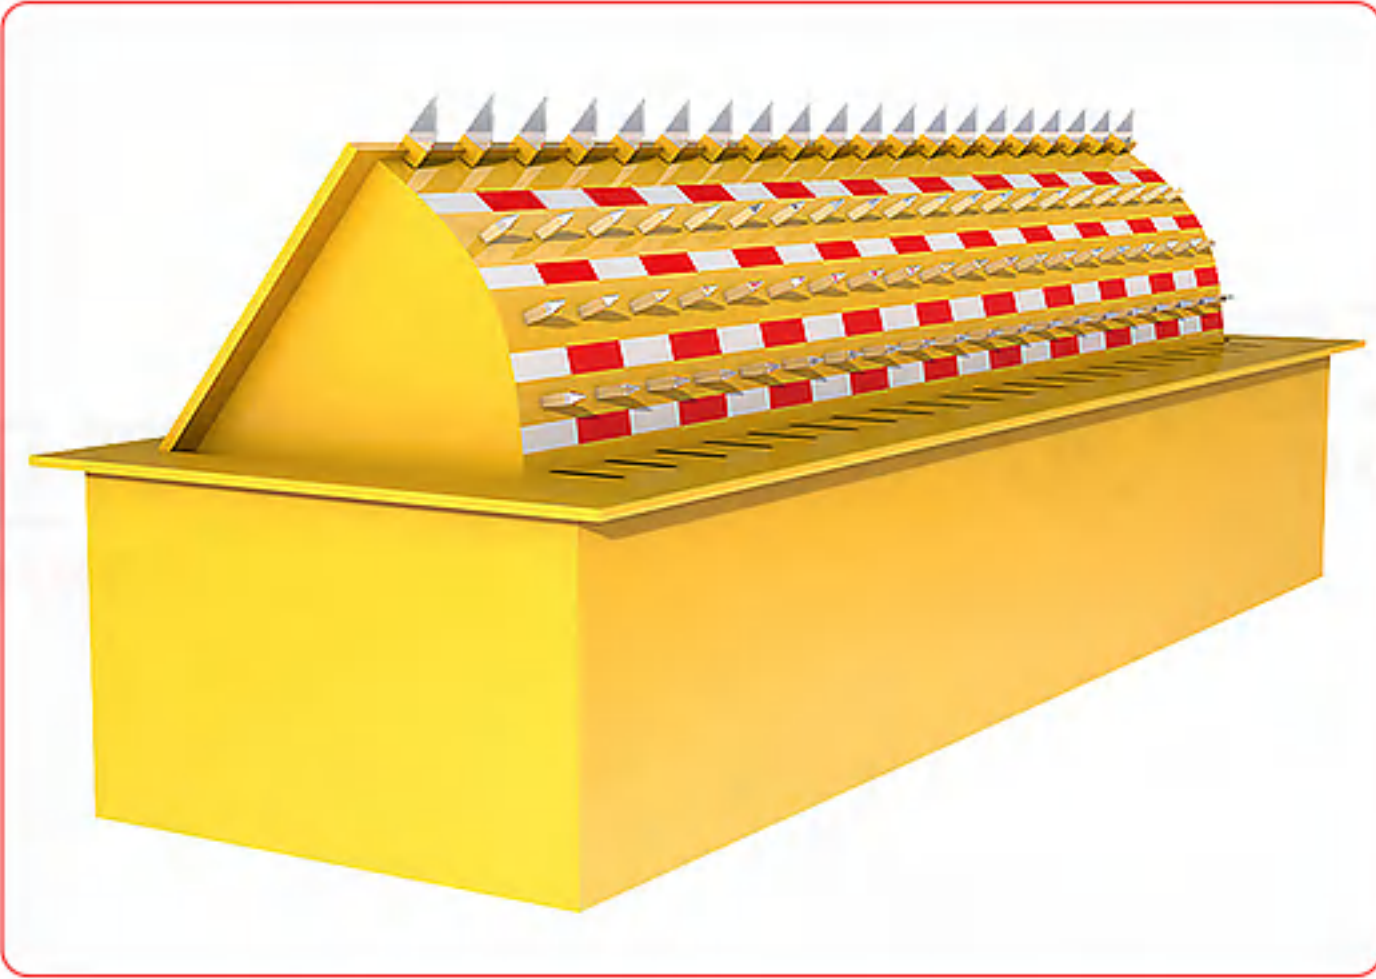

Customizable

Tire breaker series

Product Name: **One-way tire breaker**

Product Model: **SWS - T14**

High-quality barbs

Made of A3 carbon steel, an unauthorized vehicle forcibly crashed in, directly damaging the vehicle's tires
The height of the tire piercing blade is 120MM (customizable)
The thickness of the tire piercing blade is 10MM (customizable)

Stable control unit

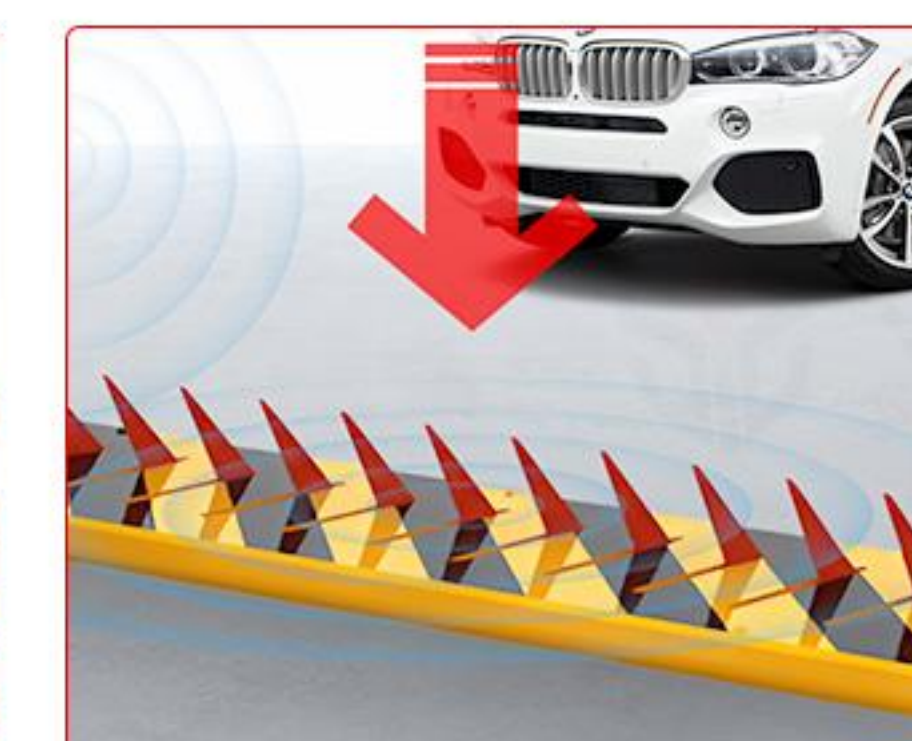

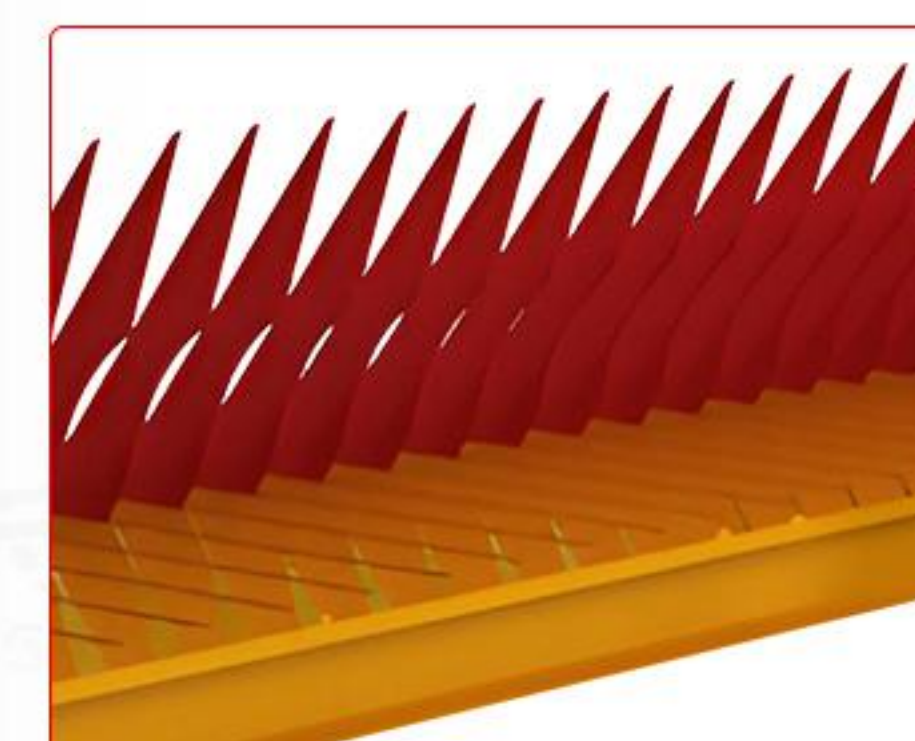

The motor controller is designed to be waterproof on the outside and is equipped with an electro-mechanical power unit drive inside, making it convenient to lift and lower

Fixed installation

The fixing port of the tire breaker is fixed to the ground surface by expansion screws, which is more stable and firm

Product parameters :

- ◆ Overall material: Made of A3 full steel
- ◆ Material thickness: 10mm(optional 16/20/25mm)
- ◆ Lifting height: 110mm (customizable)
- ◆ Tire piercing blade: Height 120mm, thickness 10mm
- ◆ Equipment length, width and height: Length *500*80mm
- ◆ Rise and fall time: Rise by 1 second/Fall by 0.8 seconds
- ◆ Passing pressure: Capable of carrying 40 tons
- ◆ Surface treatment: Anti-rust primer+fluorocarbon topcoat
- ◆ Protection grade: IP67
- ◆ Load-bearing capacity: less than 40 tons
- ◆ Working environment: -40°C to 70°C
- ◆ Power supply: 220 (Control voltage: 24V)
- ◆ System power: 180W
- ◆ Control: Electromechanical power
- ◆ Enable: Wireless/ground sensing, etc
- ◆ Remote control range: 30M control range

Speed bump series

Carbon steel speed bumps

- ◆ Pressure-resistant, wear-resistant, anti-slip and stable
- ◆ Applicable to cars/trucks/heavy vehicles

Product parameters :

- ◆ Brand: SHOWES
- ◆ Name: Carbon steel speed bumps
- ◆ Model: SWS-JSD-21
- ◆ Size: 1000*280*40mm
- ◆ Colour: Yellow and black (customizable)
- ◆ Material: stainless steel/rubber versions available
- ◆ Height 1: 30mm is mainly suitable for electric bikes and bicycles
- ◆ Height 2: 40mm is suitable for small cars and light trucks
- ◆ Height 3: 50mm is suitable for roads dominated by medium-sized trucks
- ◆ Height 4: 70mm is suitable for roads dominated by heavy trucks

The semi-circular head of the speed bump
It is more secure when used in combination with speed bumps.

A variety of styles :

Widely applied :

Residential area

Shopping mall/office building

Urban road

Expressway entrances and exits

Slope pad series

Multiple colors :

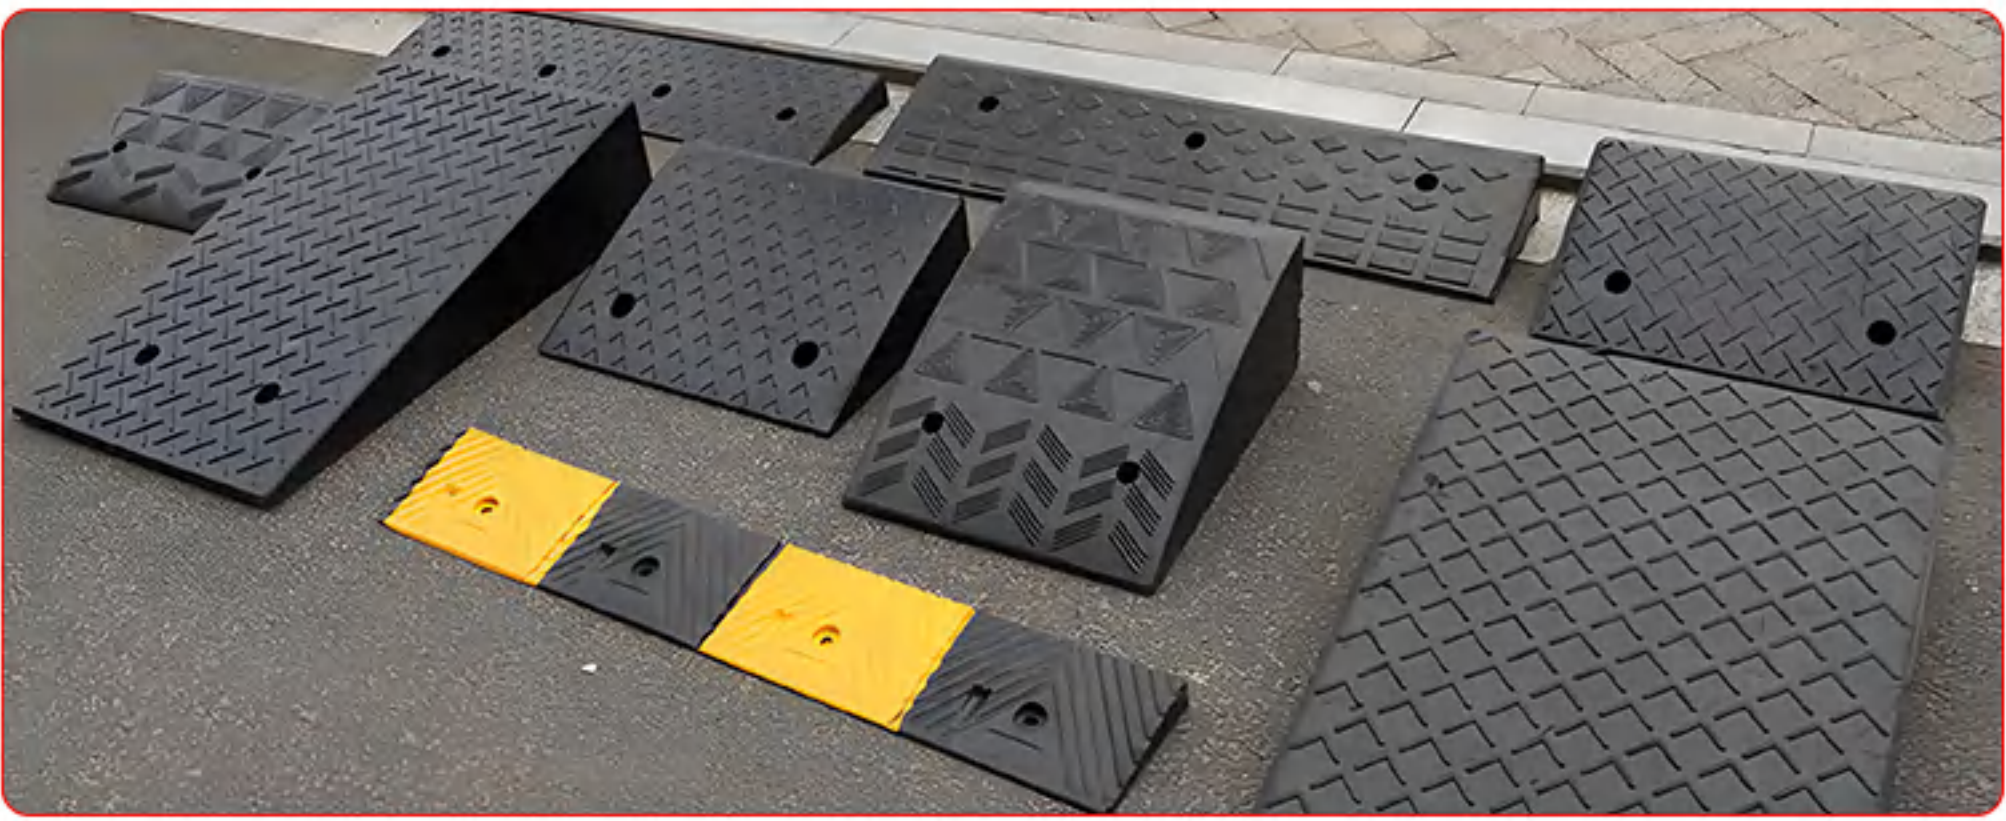

Product parameters :

- ◆ Brand Name: SHOWES
- ◆ Product Name: Slope Pad
- ◆ Product Model: SWS-XBT-01
- ◆ Product size: 500*270*130mm
- ◆ Product color: Customizable
- ◆ Product material: Rubber/304

A variety of styles :

Horse barrier series

Product Name: **Horse barrier**
Product Model: **SWS-JM01**

High-quality barbs

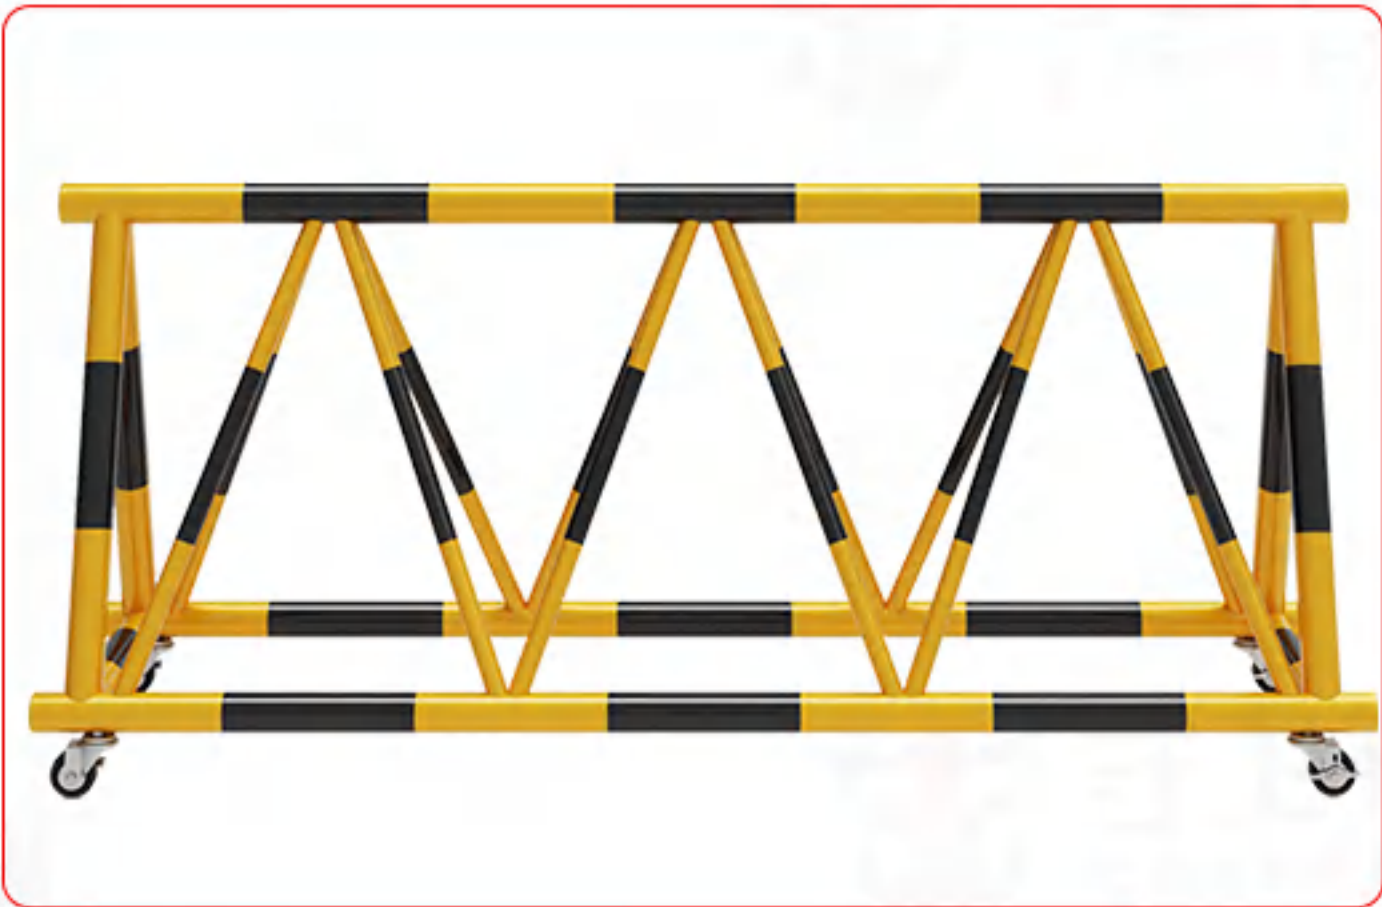

The welding area is full, finely ground and not prone to breakage

Thickened material

It is welded with galvanized steel pipes, featuring high strength and toughness

Universal wheel

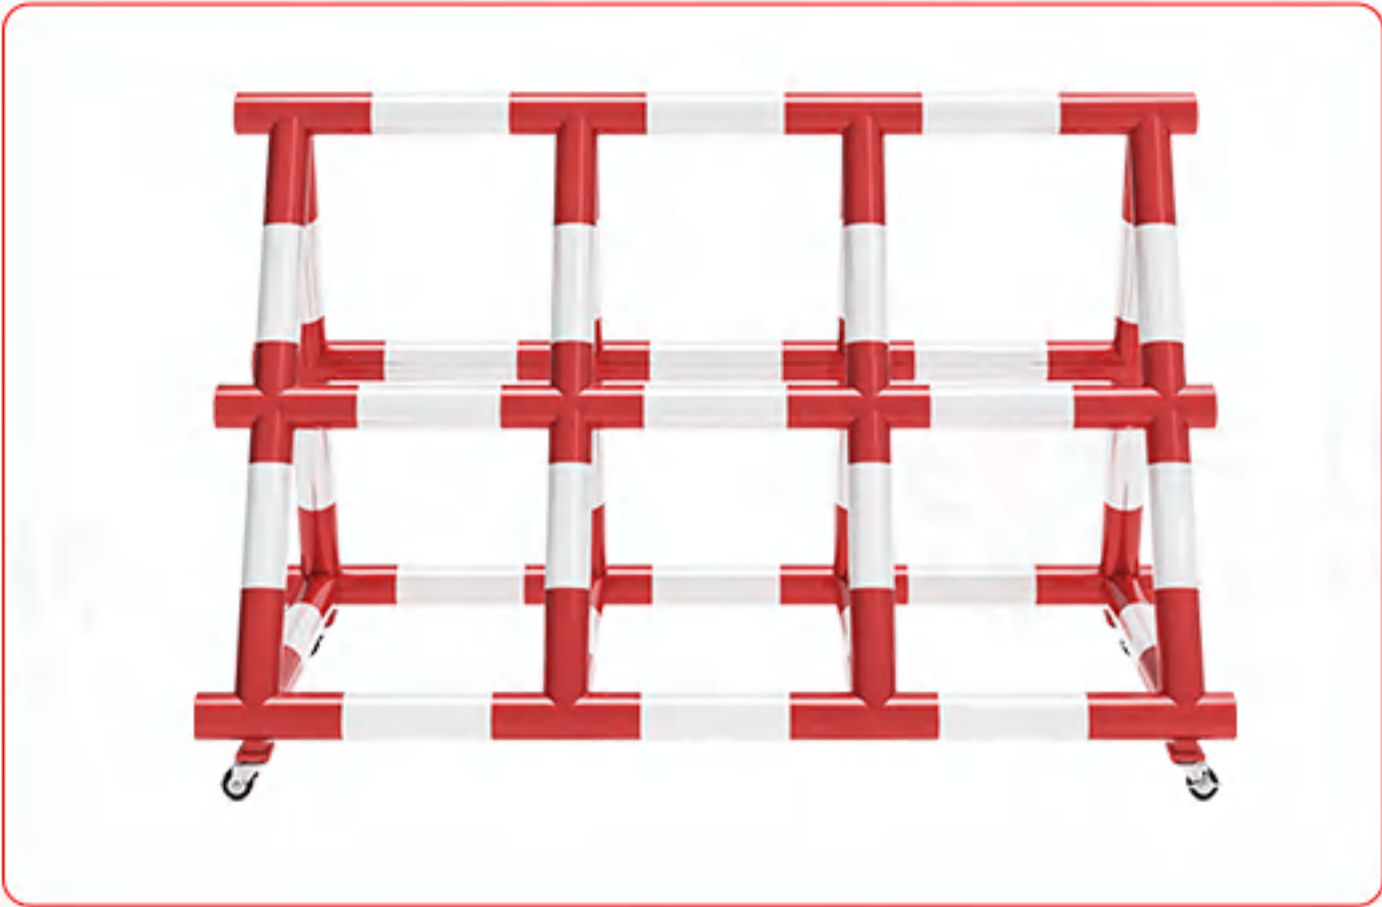

The bottom is equipped with casters, which saves time and effort and has a braking effect

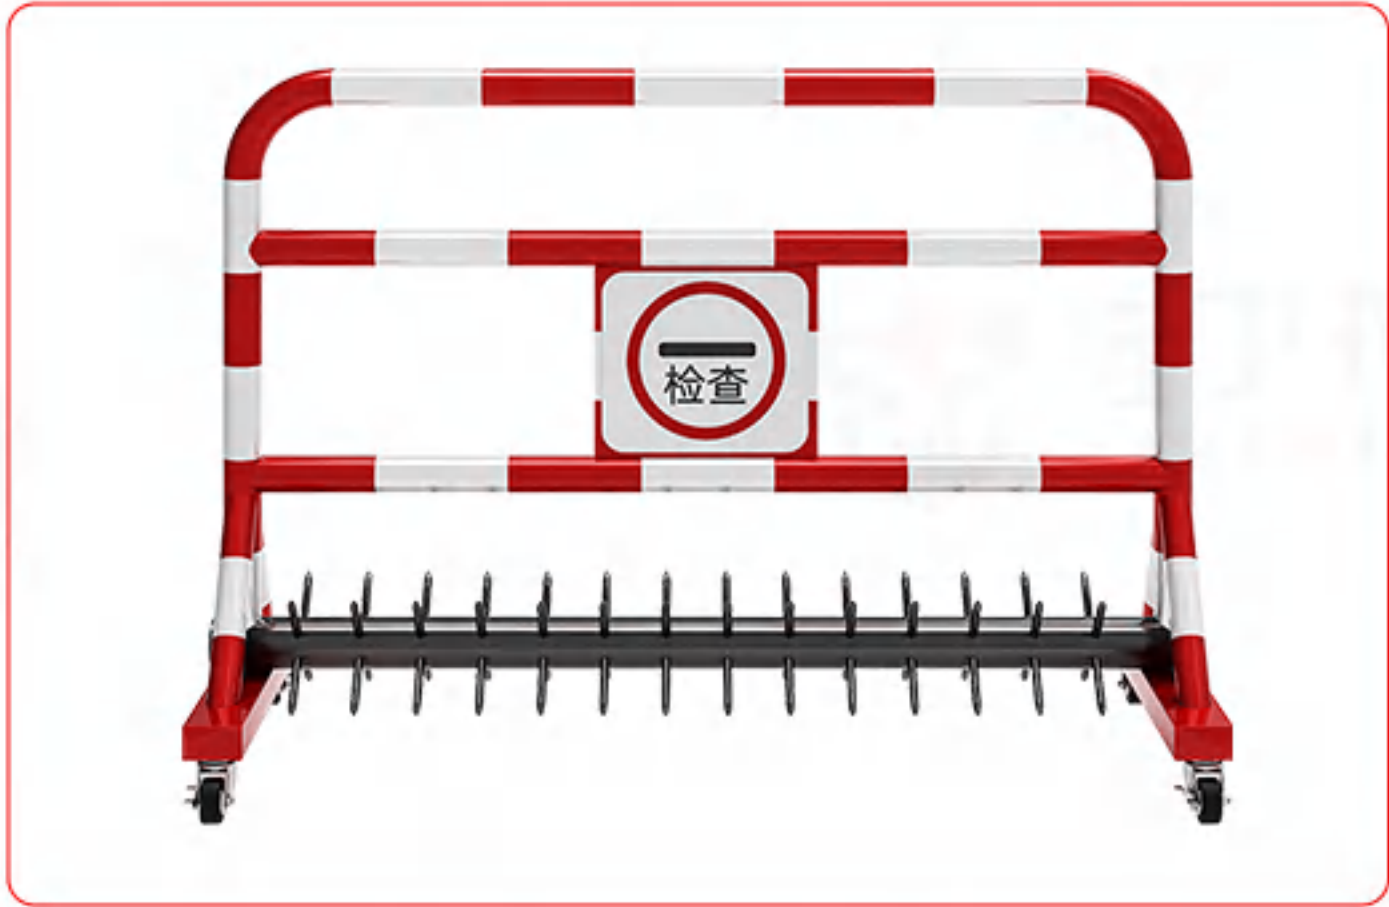

Reject the horse without thorns

Repel the horse with thorns

Square without thorns

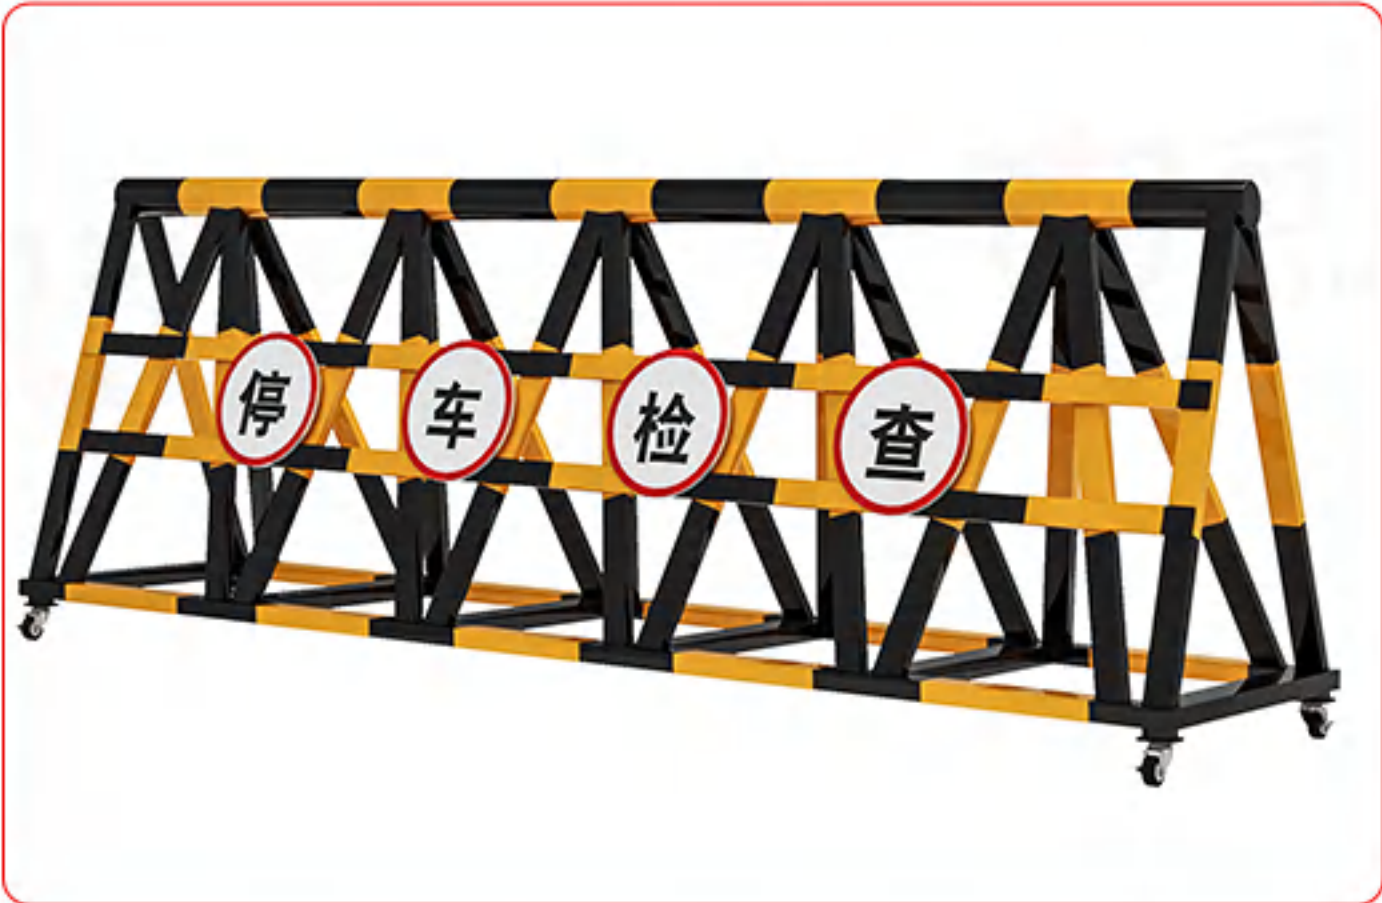

Multi-functional rejection horse

Product parameters :

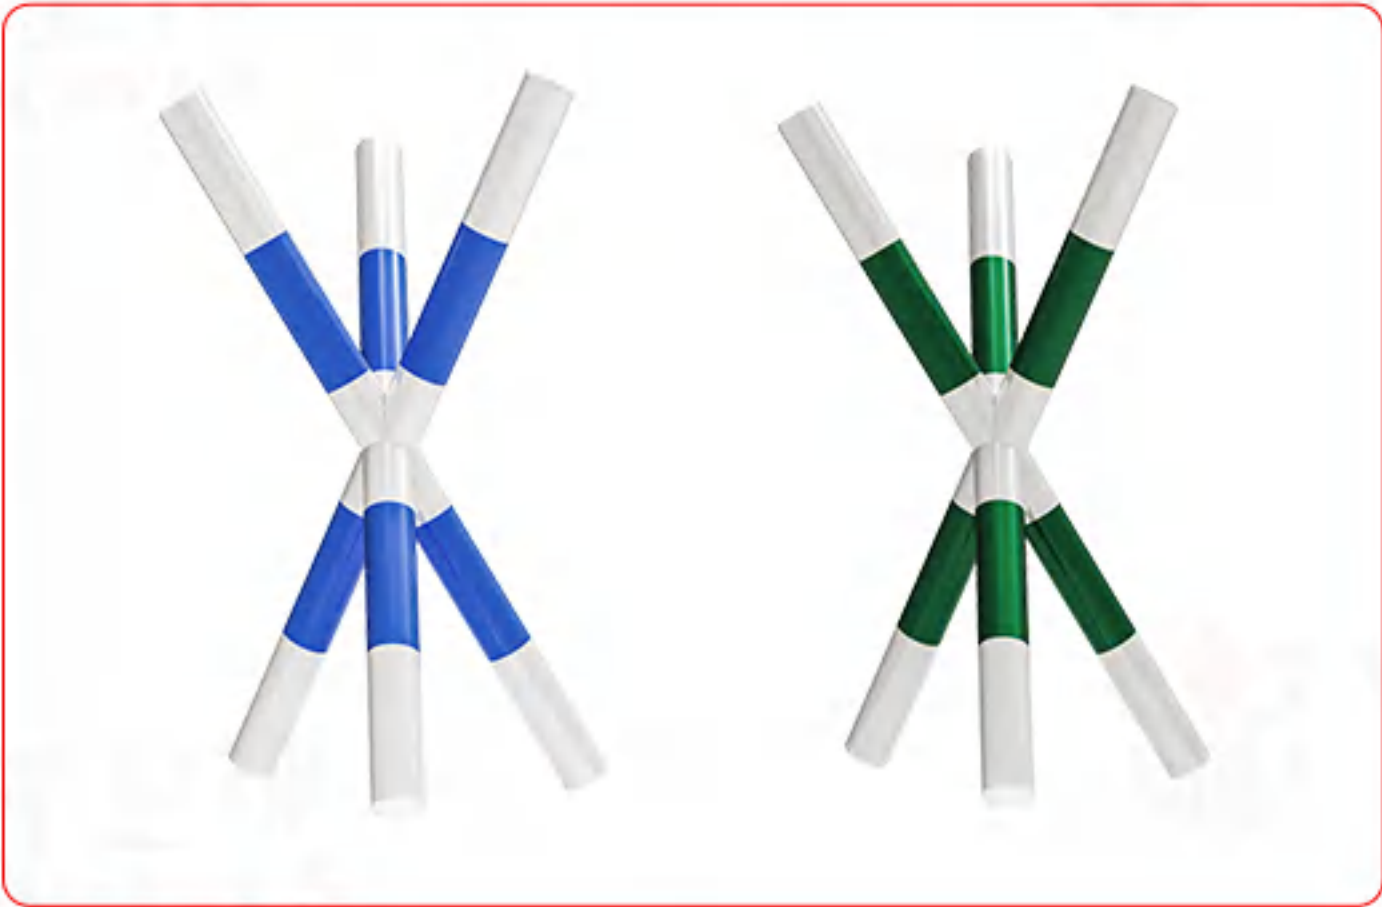

- ◆ Product Name: Electric Refusal Horse
- ◆ Product material: Galvanized steel
- ◆ Product size: 3000*800*1200mm
- ◆ Switch mode: Electric/Manual (customizable)
- ◆ Product color: Yellow black/Red White/Blue white (customizable)
- ◆ Surface treatment: Spray painting/high-temperature baking varnish
- ◆ Outer pipe diameter: 76/89/114mm (customizable)
- ◆ Inner tube diameter: 60/80/100mm (customizable)
- ◆ Product features: Effectively prevent unauthorized vehicles from entering
- ◆ Scope of application: toll stations, parking lots, residential areas, etc

Refuse horses with tags

Electric rejection horse

The horse is in a cross shape

Reject the horse with both ears

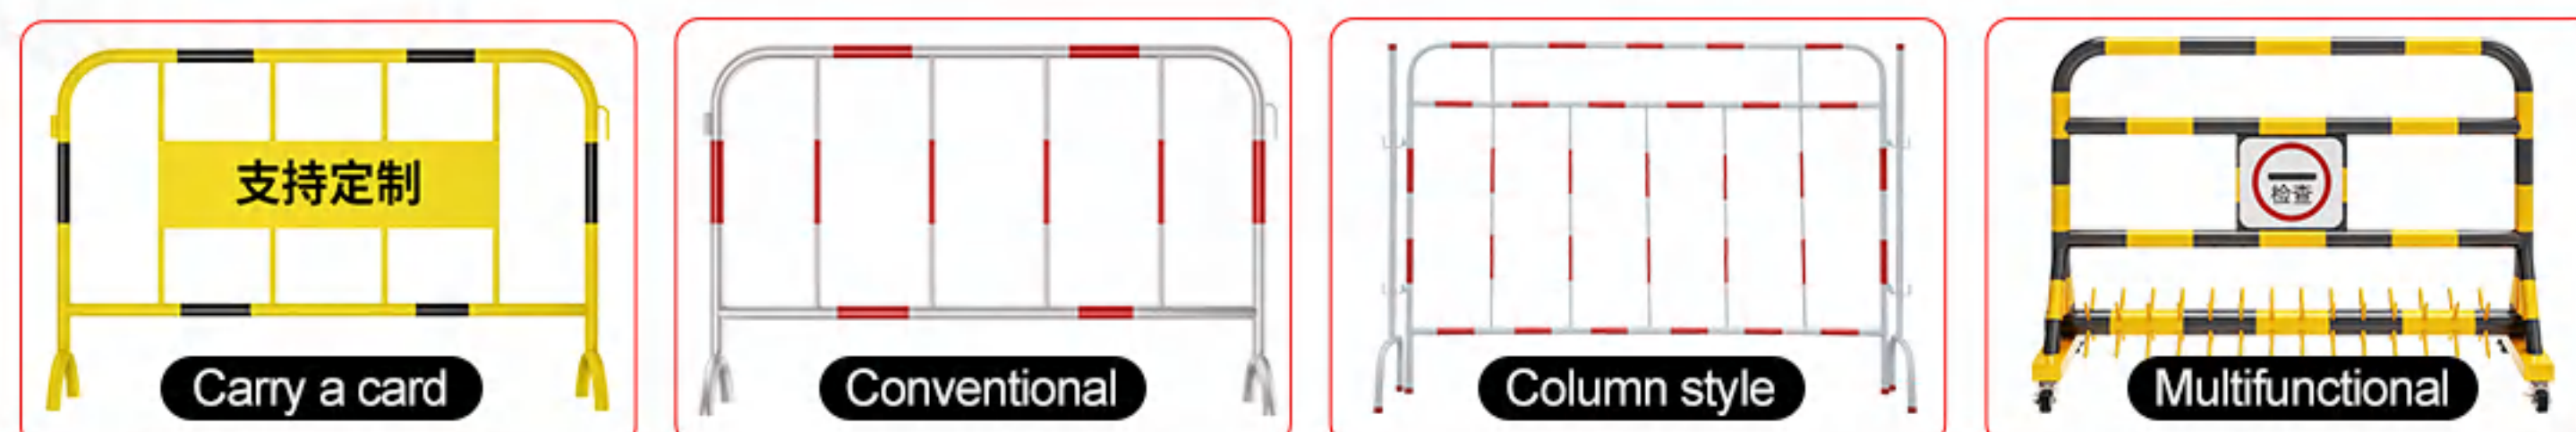

Iron horse guardrail series

Product parameters :

- ◆ Brand: SHOWES
- ◆ Name: Iron Horse Guardrail
- ◆ Size: Customizable
- ◆ Color: Yellow and black
- ◆ Material: 304/Galvanized steel
- ◆ Process: Full welding/painting
- ◆ Function: Isolation warning

A variety of styles :

Product details :

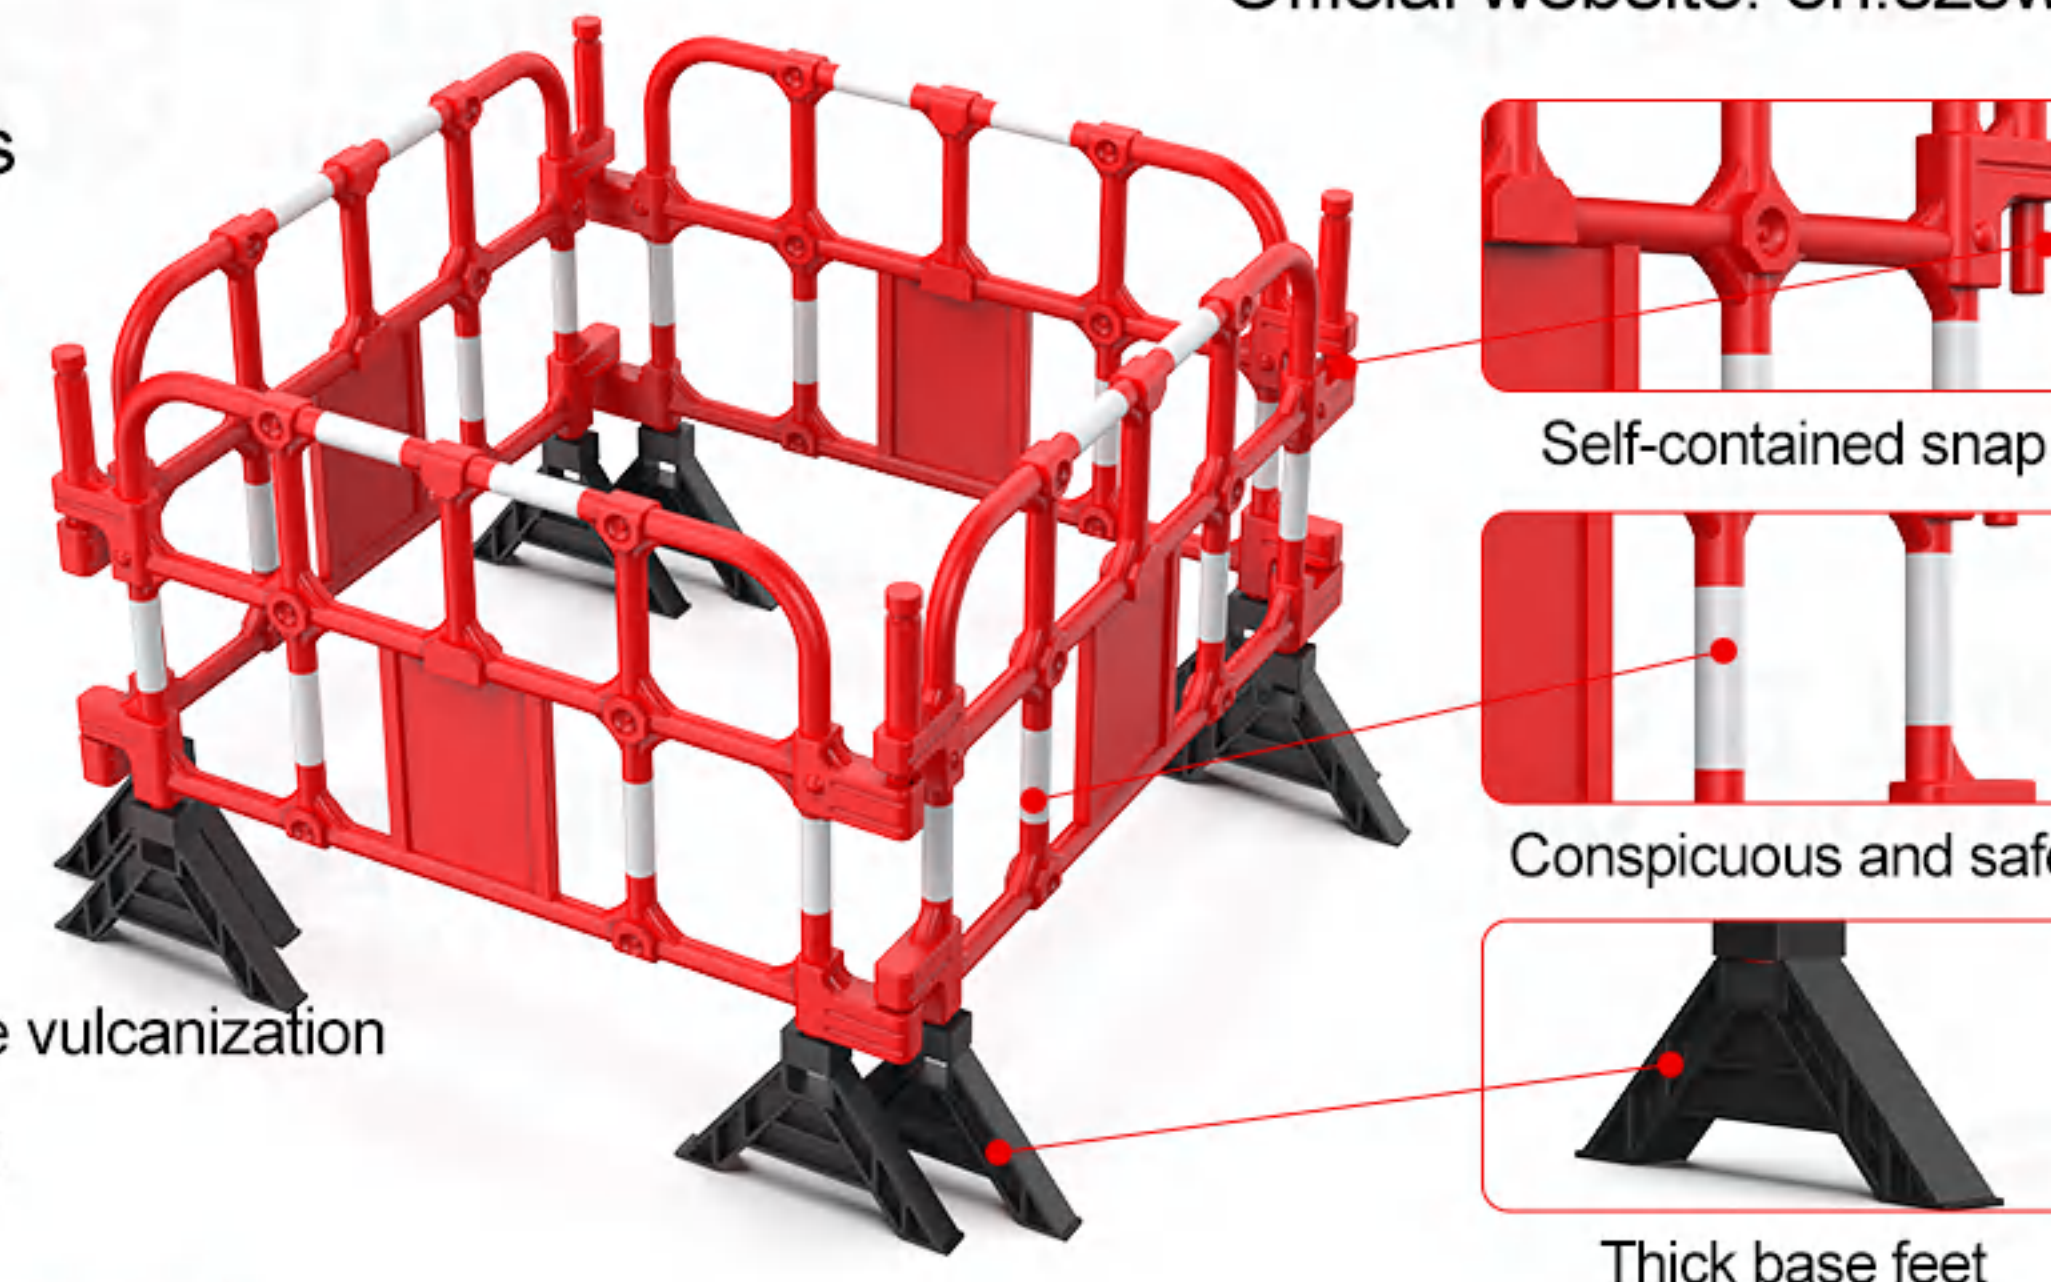

Product parameters :

Rubber guardrail series

Product parameters :

- ◆ Brand: SHOWES
- ◆ Name: Rubber guardrail
- ◆ Size: Customizable
- ◆ Color: Red and white
- ◆ Material: Brand new
- ◆ Process: High-temperature vulcanization
- ◆ Function: Isolation warning

Product color, customizable :

Protective collision bucket series

Product parameters :

- ◆ Brand: SHOWES
- ◆ Name: Protective collision bucket
- ◆ Size: Customizable
- ◆ Color: Red and white
- ◆ Material: Brand new material
- ◆ Process: Blow molding/rotational molding
- ◆ Function: Isolation warning

Blow molding

Rotational molding

High-end quality, crafted with meticulous care :

Selected plastic material

High-brightness lattice film

Water injection port, shock-proof

Stable and pressure-resistant

Circular style

Case Presentation :

Factory direct sales :

Dedicated line

Sufficient inventory

Water injection port

Stable connection

Enterprise honors and qualifications :

SHOWES Group is committed to providing customers from all over the world with stable performance, high cost-performance products, timely and trustworthy delivery commitments, and high-quality and superior after-sales guarantees. It has established a high reputation in the industry, followed the path of being specialized, refined, distinctive and innovative, and achieved remarkable results in sustainable development. It is a well-known brand enterprise in China and has obtained the National High-tech Certificate and the National Specialized, Refined, Distinctive and Innovative Certificate. It has been awarded the National AAA-level Quality Service Unit Certificate and has been selected as one of the top ten security brands in China, and holds over 200 technical patents.

Software Copyright Certificate

SHOWES is dedicated to its own system development and possesses multiple stable systems, such as the leave application and cancellation system, scenic area ticketing system, enterprise ERP system, enterprise image library system, etc., and has obtained the corresponding software copyright certificates.

Industry patent certificate

Enterprise has a research and development team composed of over 30 professional technical talents. It has taken the lead in and participated in the formulation of multiple national and industry standards, won more than 200 product patents, and has served over 5,000,000 global customers. It is dedicated to bringing better products to customers.

Enterprise honors and qualifications :

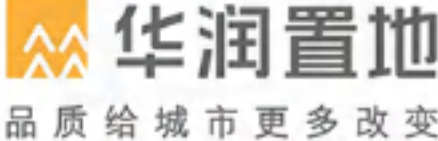

The enterprise is equipped with advanced production facilities, providing high-quality products and OEM and ODM services. It is committed to developing new products to meet the diverse requirements of different customers. It is precisely because of advanced technology, high-quality products and excellent services that it has won unanimous praise from customers. Looking ahead, intelligent transportation technology is advancing at an unprecedented pace. We firmly believe that through continuous deepening of cooperation, we can jointly create greater value. Whether it is to expand into new markets, develop new products, or improve service quality, both sides will continue to innovate and explore new technologies and models such as intelligent parking guidance and contactless payment, to enhance the intelligence and service level of entrance and exit management.

THANK YOU FOR WATCHING WELCOME TO NEGOTIATE

From start-up to leading, we have always been customer demand-oriented and driven by technological innovation, continuously expanding our business territory. Over the years, with a professional team and innovative concepts, we have broken through challenges and grown in opportunities, achieving leapfrog development and expanding our business globally. In the future, the group will focus on strategic upgrading, create greater value for social development, and join hands with all partners to embark on a new journey.
